Many thanks to the Bates College geology majors for their hard work and dedication to the geologic mapping. The last name of each student is located where they mapped during the year indicated. The author supervised and mapped throughout the entire area during the project. Support from the U.S. Geological Survey, New Hampshire Geological Survey, Randolph Mountain Club (RMC), Appalachian Mountain Club (AMC), Mt. Washington Auto Road, United States Forest Service, and Mount Washington Observatory is much appreciated. Many thanks to the reviewers, William Ash, Rick Chormann, Sarah Clemmitt, Michele Cormier, Michelle Cruz, Sarah Gallop, June Hammond Rowan, Doug Mayer, John Mudge, Peter Rowan, and David Wunsch. Thanks also to William Ash for the many InDesign tutorials. Lydia, you made it all possible. Thanks!
