PRICE FIVE CENTS

NEW HAMPSHIRE STATE DEFEATED BY BATES 7 TO 0

FUMBLES AT CRITICAL TIMES PREVENT LARGER SCORE

Capt. DeWever and Moulton The Stars On The Offensive

The Bates football team completely outplayed the New Hampshire State warriors last Saturday at Lewiston and won by the score of 7 to 0. After the first five minutes of play the result was not at all in doubt, Bates showing superiority in all departments.

The New Hampshire lads were a plucky bunch, though, and were handicapped by the long trip here and the fact that they had played a hard game with Boston College on Thursday. They played a good clean game and outweighed our men somewhat, but appeared bewildered by the Bates attack and unable to penetrate our line or work their open game.

Captain DeWever was easily the star of the contest. He carried the ball almost continually for Bates during the first half and never failed to break through for a gain. Several times he pierced the New Hampshire line for gains of 15 and 20 yards in succession. In the last quarter Moulton, playing his old position at halfback, also made some fine rushes. These two men appeared to have the Granite state lads guessing in the last quarter, and made long gains.

Bates should have piled up a larger score, at least three touchdowns, but fumbles changed the entire situation twice when a score appeared the matter of another play or two. Twice with the ball inside the New Hampshire 15-yard line the Bates fullback fumbled and lost the chance. Then in the last few minutes of play after brilliant plunges by Moulton, Bates was penalized for use of the hands and though the next play made up the 15 yards, the whistle blew before the ball could be carried across the line.

The fortunes of the two teams in attempts at the open game agreeably surprised the Bates supporters. Time after time the New Hampshire backs hurled the pigskin in long spirals down the field, only to have a Bates back or end spoil the play. The visitors did not complete a single forward pass during the game, trying them some times three in succession. The Bates backs and ends showed some improvement in the defense on these plays, yet they failed to intercept a single pass. But when it came to working the overhead game themselves, our players were surely right there. Davis showed good aim with the ball and the passes, though not long, were carefully executed and quite certain.

The Bates touchdown came as the result of a lucky forward pass. The second period opened with the ball in Bates possession on the New Hampshire 30-yard line. DeWever made 10 through center, and a pass by Davis was bounced back directly into Stonier's arms on the 5-yard line. A cross buck and plunge by DeWever through tackle brought the ball to the 1-foot line and quarterback Talbot quickly took it across on a trick play. Davis kicked the goal.

The Bates line played excellently and both combinations in the backfield were successful. Bates clearly demonstrated that she has a team that has a clever line and some good backs that are bound to gain. For New Hampshire, both ends played a good game and Captain Westover contributed the most successful play of the day when he broke away from the entire Bates team and made a 45 yard run before being tackled. When the tendency to fumble is remedied and the team is strengthened by the work of Kennedy in the backfield next Saturday, we may well look for a repetition of the New Hampshire game against Maine.

GOOD WEATHER FAVORED GIRLS' ANNUAL HARE AND HOUND CHASE

CLASSIC EVENT SUCCESSFULLY COMPLETED LAST SATURDAY AFTERNOON

Chase Ended At Taylor Pond With A Camp Supper

Under exceptionally pleasant circumstances and with almost unprecedented fair weather, the girls enjoyed their annual Hare and Hound Chase on Saturday afternoon, October 14.

At half past one a special car left Campus Avenue to convey the "hounds" to a spot on the Mechanic Falls car line where the trails were to begin. There it was found that three trails had previously been laid, the Red, the Yellow and the Pink, by members of the Athletic Board, who were the "hares."

The company divided into assigned groups and the chase began. One group nearly lost its way because an anxious farmer's wife was just about to remove the trail markers, thinking some mischief was on foot. However, though the way led over numberless fences, through burdock fields and marshes, all three groups arrived safely at the shore of Taylor Pond.

Here in a pine grove supper was ready. "Hot dogs," baked beans, rolls, coffee, doughnuts and bananas were readily appreciated by keen appetites.

After supper a kindergarten program was furnished the company by the freshmen. This program was made possible through the kindness of the sophomore girls, who were anxious to keep the "young things" out of mischief. The spirit with which the freshmen responded speaks well for the fine girls in 1920.

Singing was the next thing in order, and was indulged in freely until the approach of darkness, then the girls cheered Miss Bell and Mrs. Hartshorn, the chaperones, the Athletic Board and the various classes, and started home in a long line, playing "Follow the Leader" under the guidance of Aileen Lougee.

The special car brought the party back to the city early in the evening. All who were present declared it was the "best time yet." Great credit is due Miss Bell and Miss Lougee for the success of the affair.

COLLEGE STUDENTS ENTER-TAINED AT PINE ST. CON-GREGATIONAL CHURCH

Social Time Given Last Tuesday Evening

Last Tuesday evening, Oct. 17, about fifty of the college boys and girls were entertained at an informal social gathering at the Pine St. Congregational Church. After some singing and words of greeting from Dr. Bartlett, both Dr. Britain and Dr. Hertel extended a hearty welcome from the church to the students. Then a program was given by the Bates people as follows: Selections by Mandolin chorus; reading, Miss Ruth Capen; vocal solo, Miss Doris Shapleigh; reading, Miss Irene MacDonald; cornet solo, Mr. Robert Jordan; men's quartet. During the social hour which followed, refreshments of ice cream and cake were served, and the crowd went home feeling assured of a warm welcome at Pine Street.

DR. TUBBS ADDRESSED THE MILITARY SCIENCE CLUB LAST THURSDAY EVENING

EVENTS OF EUROPEAN WAR TO PRESENT TIME THOROUGHLY REVIEWED

Sees No Prospect Of Decisive Victory On Either Side

Dr. Tubbs addressed the first meeting of the Military Science Club last Thursday evening, Oct. 12. His address consisted of a review of the European war to the present time, with special reference to the combined offensive movements of the allies and their effects on the outcome of the war. His forecast of last spring that there would be during the summer a combined action on the part of the Allies had been fulfilled. He said that there has been a co-ordination of effort to break thru the German lines, and as a result the Germans have for the time being taken the defensive, either from choice or otherwise.

The fortifications on the Western front extend from just inside of Belgium southeast to the Swiss border, a distance of 450 miles. During the summer the Germans have captured about forty square miles around Verdun, while further west the Allies have dented the German lines for a distance of fifteen or sixteen miles, and to a maximum depth of six miles, making about sixty square miles. The Allies' drive began June 27, and has lasted until this time, nearly four months. The distance across France to reach the German border is 160 miles. At this rate, therefore, it will take the Allies from seven to eight years to reach the German border if they advance on a fifteen mile front as at present. As a matter of fact, however, it will be necessary for them to take all of Northern France, or about 20,225 square miles. By simple proportion it can be seen that at the present rate of advance it will require about a century to accomplish this. There is still another way to approach this problem. The average loss of men to the allies has been about 7000 for every square mile of captured territory. At that rate it will require a loss of about 140,000,000 men to capture Northern France. There has been nothing on the Western front that could be called an ally victory, they have gained twenty square miles of territory out of twenty thousand, or they have done one-thousandth of their work. Indeed, it has been the policy of the Germans to sacrifice a few men for the sake of attacking as large a body in the open, for the losses to the attacking side are about three or four times as great as to the side attacked.

Turning to the Eastern front, the Russians early reached the Carpathians. They had to take strong positions there, but have failed utterly. They have probably taken 300,000 prisoners and are still holding much territory, but no fortifications of consequence.

The Roumanians have captured from four to five thousand square miles in Austria, but this advance was thotless, due probably to lack of airships, for when they had made their advance an army of the central powers came in behind and destroyed two Roumanian armies. Thus today the Roumanians are holding about three hundred of the five thousand square miles that they captured.

The Saloniki situation is that of a man in combat with another much stronger. If he can hold that man's arms at his sides he is safe. The Bulgars are holding the allies tightly in the same way.

At the beginning of the war much was said about the cruelty of Germany in overrunning neutral Belgium, but for any nation to pretend superior righteousness in this respect is the sheerest hypocrisy. England has trampled on nation after nation in order to gain for herself. Greece is an example.

England has taken most of the German territory in Africa, but she would gladly exchange all this for a very small piece of territory in Europe.

MAINE AND BATES CLASH IN FIRST CHAMPIONSHIP GAME SATURDAY

GARNET TEAM LOOKS BETTER THAN FOR SEVERAL YEARS

Neville Brothers Back But May Not Play Against Maine

Bates and Maine pry open the State championship series on Garcelon Field next Saturday. Each team has completed its preliminary schedule, and is now ready for the big games. Not for several seasons has Bates opened the series with her men in as good condition as they are now. Usually the team has entered the important games in a more or less crippled condition. This year, however, nearly every man will be in the pink of condition. It is true that Southey will not play again this year, but capable substitutes have been found for his position. Kennedy has recovered from his injury and will be seen in the backfield during a part of the game at least. Hickey is the only man on the varsity squad who may not play, and he has a sore arm.

The team has been practicing hard this week in preparation for the coming contest, part of the time behind closed gates. It is safe to say that the weaknesses displayed last Saturday have been remedied, and that new plays have been perfected. It is difficult to foretell who will start the game at quarterback, and what combination will be used in the other backfield positions.

Considerable enthusiasm was aroused Monday night upon the return of John and William Neville to college. Both men played star games last year, and if allowed to get into the line-up will add much strength to the team in subsequent games.

A comparison of the scores of the preliminary games would seem to give the Bates team a slight advantage next Saturday. New Hampshire State held Maine to a scoreless tie and, in fact, had the ball in Maine territory during most of the game. Bates outplayed the same team last Saturday and should have won by a much larger score than she did. Maine has been defeated by Rhode Island State College and also by Colgate.

Anyway, it appears that Bates has an excellent opportunity to wipe out the three defeats suffered at the hands of the State college during the past three years, and to win the first leg on the state championship series. A large delegation of Maine students will accompany the team to Lewiston, and of course every Bates man will be in the cheering section to encourage his team to victory.

The game will begin at 2 o'clock and arrangements are being made for a large crowd.

In summarizing, Dr. Tubbs said that during the two years of war the Allies had gained between one and two hundred square miles in Alsace, Italy has taken five hundred square miles from Austria, Russia has captured from 11,000 to 12,000 square miles of Austrian territory, and Roumania has taken about 300 square miles in the mountains of Austria. This amounts to a total of about 13,000 square miles. On the other hand, the Germans have captured in Belgium 11,075 square miles, and in France 9,100 square miles. The Austrians have taken about 200 square miles in Italy, and in Russia 106,000 square miles. The Central Powers hold practically all of Serbia, or 34,000 square miles, all of Montenegro and much of Albania and Roumania. This totals 180,000 square miles. The gains of the Allies are to the gain, in about the ratio of 1 to 15.

Last Christmas the Germans offered to treat for peace, and the Allies refused. The agent of the German Emperor now states that the next move towards a peace treaty must be made by the Allies. It is to be hoped that the Allies, seeing the futility of trying to break thru the German lines, will soon offer to treat for peace.

CAMPUS AND CITY FRIENDSHIPS TOPIC OF Y. M. C. A. MEETING OCTOBER 11

PROF. HARMS THE SPEAKER FOLLOWED BY OPEN FORUM DISCUSSION

The Y. M. C. A. meeting for October 11 was attended by about forty of the college men. The meeting opened with singing led by Hinton '17, with Canfield, '18, at the piano. President Purinton presided and after the singing, called for sentence prayers from the men present. After a brief season of earnest prayers from a goodly number of the men, the president introduced Prof. Samuel F. Harms as the speaker of the meeting. The subject for discussion was "Campus and City Friendships."

Prof. Harms, in his usual earnest way, spoke for a few minutes of the friendship of David and Jonathan, drawing from it an application to the needs of college men to form lasting and safe friendships. The meeting was then opened to discussion in the form of an open Forum in which any person could put questions to the speaker. Secretary Rowe started the ball rolling, and soon everybody was interested and helping to keep things moving. This is to be the form of most of the Y. M. C. A. meetings this winter and it is hoped that it will prove a helpful means to many men to straighten out some of the questions of morals and ethics. The meeting was closed with prayer by Secretary Rowe.

SILVER BAY MEETING OF Y. W. C. A. HELD WEDNESDAY EVENING, OCT. 11

Delegates To Conference Last Summer Discussed Various Activities

Sports And Lectures Among The Many Attractions

A glimpse of Silver Bay was given at the Y. W. C. A. meeting Wednesday evening, Oct. 11. Mary Cleaves, the leader, introduced Ruth Lewis, who spoke of the eight conferences held throughout the United States, at each one of which hundreds of college women gather the first of every summer. She gave some of her impressions of the girls at Silver Bay. A few girls were mentioned individually,—a Vassar girl who had perfect poise and was a good sportsman; another who was bright and sparkling, whose good stories everyone enjoyed at the table; a Barnard girl, big and strong, who seemed equal to any situation. Then she told of the Armenian girls with signs of patient suffering on their sweet cheerful faces; of the charming Japanese and Chinese, and of their wonderful ability. She spoke of the inspiration of seeing six hundred and seventy-three girls leave the open air auditorium in a hush after hearing a great leader.

Sara Reed spoke of the sports at Silver Bay,—the boat races, swimming races and diving. She told of the basket and baseball games, and especially of the highly entertaining baseball game played with the faculty, with the men of that group dressed as women. She concluded by saying that one who had been to Silver Bay knew girls better and could see more in girls than ever before.

Reba Sawyer gave extracts from lectures given by the leaders. Mr. Potter, for instance, stated that social problems were now at the front, and took up the social message of Jesus as found from a study of his life in the Gospels. He brought out the force which love, radiating from the personality of Christ, has in the social world of today.

Elinor Newman, Sara Reed, Laura Mansfield and Celia Smith sang the Hymn of the Lights and the Spirit of Silver Bay. The meeting closed with the singing of the Silver Bay Benediction.

THE BAND

Our college band is undergoing a process of rejuvenation. This of course signifies a change for the better and as such it will be deeply appreciated by the most of us. A new incentive for continued existence, manifesting itself in a few subtractions plus a few additions and appearing at the very darkest hour in the career of the band when all signs seemed to point to disruption and oblivion, has resulted in a marked improvement in its work and promises that in the near future a college band of fair caliber will cease to be a fanciful dream and become a reality. By virtue of persistent effort harmony is being gradually evolved out of discord, and the performance of the band at the Interclass Track Meet on Wednesday and Thursday afternoon of last week and again at the New Hampshire State-Bates game on Saturday has gone a long way toward convincing even the most skeptical that it can play a tune with some degree of accuracy when occasion requires. Those fearful and wonderful sounds of which we still retain vivid recollections from last year have already commenced to give place to tones of a more gentle and melodious nature. In a word, the band is "coming." There is no doubt about it. We have a firstclass organization in the making and during the Maine Series it will be right on the job with the big foot ready to do its share in support of the Garnet. Don't crab the band. Remember that the men in the band have feelings like the rest of us. Boost the band; let the other fellow do the knocking.

AMERICAN FAIR PLAY

While the people of the United States have been sending thirty million dollars' worth of relief to Europe and Turkey, two hundred thousand women and children in Albania have died of starvation.

While each woman and child in Belgium has had plenty to eat, women and children in Albania have gnawed at the carcasses of dead horses in the streets.

William Willard Howard, of New York, who has returned from his trip to this hunger zone of Europe, predicts that the entire population of Albania will die of famine and pestilence unless helped. He says that in Albania corn is fifty dollars a bushel, flour eighty dollars a sack, and macaroni five dollars a pound.

"The tragedy of Albania," says Mr. Howard, "is that a nation is dying of hunger, while the people of the United States, laden with gifts for the rest of Europe and for Turkey, pass by on the other side.

"Thirty millions of dollars have been given by the people of the United States for relief work of various kinds in

Belgium, Poland, Armenia, Syria and the warring countries of Europe, while two hundred thousand women and children in Southeastern Europe have starved to death unheeded and uncaared for. Not one woman or child has died of hunger in Belgium; two hundred thousand in Albania.

"Is it fair—is it human—that the innocent women and children of Albania, who never did anyone any harm, should be trampled under foot and left to perish, at a time when all others are fed

"Is this American fair play?

"I have appealed for help in high places. I have begged a crust of bread of those who have given millions to Belgium, Poland, Armenia and Syria. I have begged in vain.

"The Albanians are as much entitled to sympathy and help as others. They have not taken part in the war. They fed and sheltered the refugees from Serbia, even with the last measure of corn that the famine-smitten villages possessed. They have not done any wrong; yet armies have swept over their country, taking what could be found to take, leaving to the starving women and children only the carcasses of dead horses in the streets.

"I ask only American fair play for the famished children of Albania. I ask of all fair-minded men and women in the United States: Why should the Albanians—three hundred thousand of whom are Christians—be left to starve, while we press forward, in generous rivalry, to feed the others? The Albanians are more numerous than the Armenians; yet we feed the Armenians and let the Albanians starve.

"Having appealed to deaf ears in high places I now appeal to the plain people—to fair-minded men and women who would not let even a dog starve to death, no matter what his breed. I want to go back to Albania with a shipload of food. I have arranged for a ship—a new American ship, just launched and fitted for sea. The ship is ready and waiting.

"A number of distinguished gentlemen in New York—mostly clergymen and editors of newspapers—will cooperate in an appeal for a relief cargo for the ship. The treasurer selected to receive contributions is the Rev. Frederick Lynch, D.D., editor of The Christian Work and secretary of the Carnegie Church Peace Union. Contributions in any amount—from the price of a loaf of bread upward—may be sent to the Balkan Relief Fund, 70 Fifth avenue, New York city."

Editor's Note:

The Student prints this article at the request of Wm. Willard Howard, secretary of The Christian Work.

THAT PARADE

The method pursued in celebrating the victory over New Hampshire State last Saturday has caused considerable discussion. In the minds of not a few, a dangerous precedent has been established that will be likely to make trouble in the future. Whether this be true or not, most of us will agree that the parade was not a wise move in that it may seem to attach undue importance to a victory over a team from outside the state. At any rate, the fact that very few upperclassmen were seen in the line-up shows that something was wrong somewhere. And yet, is there not another side to the question? The "something wrong," we venture to say, was a general misunderstanding in regard to the main purpose of the parade. It was not primarily to celebrate our victory that we paraded. This idea was of secondary importance to those who had the matter in charge. The chief object in parading Saturday night was to arouse spirit throughout the college in general and among the members of the freshman class in particular in anticipation of the approaching Maine Series. Our defeat of New Hampshire State gave us the opportunity to put this idea into practice. The way the men of 1920 turned out showed the experiment had been successful as far as they were concerned. By participating in the parade Saturday night almost to a man, the freshmen had a chance to get acquainted with the Bates Spirit as it appears on the war-path, and the enthusiasm which they displayed as they marched through the streets of Lewiston and Auburn, has permeated the whole college with an increasing intensity of feeling that should find a fitting means of expression in a rousing rally before the game with the University of Maine next Saturday. It's fight that counts in the grandstand as well as on the field. Have we got the neces-

sary amount of fight and are we willing to show it?

OBSERVANT CITIZEN

It's unusual to have a hare and hound chase when there is a football game going on. Only a very small number of the girls were in the grandstand Saturday. The others were either at Mechanic Falls or in the library.

Surely fathers watching the New Hampshire game would not forbid their sons playing football on the ground that it is dangerous. The only damage was inflicted on Cutler's uniform. Coach Parks went to the rescue with a new one and while the boys closed in about the victim a rapid change was made.

Hurrah! The Neville brothers are back. We're fortunate. They have both worked hard for Bates.

Between the halves Saturday some such a spectacle as a race between Bonhag and our promising candidate from West Paris would be interesting.

There is a general misunderstanding as to who will lead the cheers and organize celebrations. This should be cleared up before Saturday.

There is going to be a Teachers' Convention in Portland next week. Professor Coleman will speak before the Maine Council of Teachers on "The Relation of Freshman English to the Secondary School." Look for a series of cuts.

A student coming here from one of the Maine colleges says our Commons is, by way of comparison, a perpetual banquet.

The manner in which presidents of our various organizations are doing away with red-tape and needless parliamentary procedure in receiving new members and transacting other business is wonderful.

The Industrial Chemistry class, analyzing coal down in the sheds back of the heating plant, finds that the college isn't getting cheated, that the coal is still black and dirty, and contains one percent of moisture.

Mr. Higgins, instructor in Chemistry, is meeting with great success. His junior class is reported to be unusually brilliant.

One of our 1917 preachers received a call Monday night to marry a couple in Mechanic Falls. After giving the matter due consideration he declined to perform the ceremony. The credentials weren't satisfactory. About a year ago a similar case came from Goff Street, Auburn, but it was thought not to be genuine.

A citizen of Lewiston is pleased by the new rule in vogue at the Herrick House. No freshman is permitted to answer a "lady's voice" over the telephone unless it be proven that the lady is married.

Such an abundance of surplus musical energy leads us to the conclusion that we should have a Department of Music to turn it into the right channels. As it is now one is reminded of an unbridled horse.

Bates and Bowdoin will have to combine and enforce the rule on freshman caps. The Bowdoin Orient also complains of rebellious members of 1920.

Pacifism is not a disqualification for membership in The Military Science Club. Seven new members were taken in last week.

The freshmen did their first snake-dance Saturday night. Here's hoping all of us may do another soon.

The new iron fence on Central Avenue makes even the old grandstand look better.

Why are those two flagpoles on the Grandstand?

We are responding very well to the request of the acting President that we rise one minute sooner when singing. The hymns are appropriately chosen.

The Commons Committee has met and assigned work for several weeks.

Autumn woods abound in room decorations far more beautiful than those purchased at the ten-cent stores, and there is health to be found in securing them.

Geology walks are now occupying a prominent place in our college activities. This week the first year class went to Garcelon Bog to look over the peat deposits. This place is of unusual interest because practically all the coal in the world was formed from peat bogs

similar to this one. It is an excellent opportunity to see coal in the process of making.

The co-eds say that the sophomore boys are an unusually up and coming bunch. Was it because they believe in hygienic living and the old proverb "Early to bed, and early to rise" that they so unceremoniously departed the night of the corn-roast and left the girls to wander alone thru the dark horrors of the wooded section like lost sheep? We would like to know if their conduct can be explained merely as a matter of principle, or had they forgotten that they had arrived at the new dignity of Sophomores and still imagined that the horrid sword awaiting freshman "co-edders" was hanging over their heads?

We can heartily sympathize with the freshman girl who has such an exaggerated sense of the proprieties and of the mine and thine law. A Freshman was departing from the Fiske Room leaving behind her a beautiful winter coat. A kindly intentional senior girl hastened after her with the coat upon her arm and the query, "Is this your coat?" The Freshman ungraciously seized the coat and put an end to all further impertinence by the sarcastic rejoinder, "I've been wearing it."

Two Sophomores were talking over the relative merits of two candidates for Secretary. One of the candidates, who was noted for her large somewhat masculine handwriting, was heartily supported by one of the girls who said, "I think it would be a fine thing for M—— to be Secretary. She can put her little bulletins up beside the road, and he who runs may read."

FIRST GROUP OF SERIES OF HANDICAP TRACK EVENTS TO BE HELD FRIDAY

Men To Be Carefully Trained For Their Chosen Events

The first group of a series of handicap track events will be held on Garcelon Field, Friday afternoon, at 4 o'clock. The events to be contested on this occasion will be the 220-yard low hurdles, quarter mile run, and running broad jump.

The object of these handicap meetings is to give the track men some immediate goal to work for in their fall work, and at the same time to furnish experience and training which will be of great value in the competitive meets next spring. These events are open to every man in college and it is urged that every man interested in track work take advantage of these opportunities to get into competition.

Thorough courses (largely elective) leading to the degrees of A.B. and B.S. Careful training in English Composition, Oratory and Debate. Thorough courses in Engineering and in subjects leading to these. Elective courses in Mathematics extending through the last three years. Excellent laboratory and library facilities. Up-to-date methods in teaching Greek, Latin, French, German, Spanish, History, Economics, Sociology and Philosophy. First-class Athletic field. New outdoor running track. Literary societies. Moral and Christian influences a primary aim. Active Christian Associations. A graduate Y. M. C. A. secretary.

Necessary annual expenses for tuition, rooms, board, and all other College charges from two hundred and twenty-five to two hundred and fifty dollars a year. Steam heat and electric lights in the dormitories. Ninety-nine scholarships,—ninety-four of these paying fifty dollars a year, the other five paying more.

For special proficiency in any department, a student may receive an honorary appointment in that work. Such appointments for the present year are as follows: Latin, Aileen D. Lougee, '17, Ellen M. Aikens, '17; Biology, Douglas M. Gay, '17; English, Cora B. Ballard, '18, Beatrice G. Burr, '18, Ralph W. George, '18; Chemistry, Laurence O. Thompson, '17, George House, '17, Smith B. Hopkins, '17, Donald B. Stevens, '18, Waldo R. Caverly, '17; Argumentation, Theodore Bacon, '17, Elinor Newman, '17; Oratory, Perley W. Lane, '17, Mary L. Cleaves, '17; Geology, Theodore E. Bacon, '17, Hazel V. Campbell, '17, Herbert E. Hinton, '17, Alice E. Lawry, '17; Mathematics, Stanley Spratt, '18, Lester Duffett, '18, Karl Woodcock, '18, Kenneth Wilson, '17.

BATES SECOND FOUND GARDINER HIGH AN EASY PROPOSITION

ROLLED UP 41 POINTS WHILE
OPPONENTS WERE BEING
BLANKED

Forward Passes Figured Much In The
Scoring

Last Saturday was surely a day long to be remembered in the football annals of Bates. While the varsity was taking New Hampshire State into camp, the second team closed its season with a 41 to 0 win over Gardiner High at Gardiner. The game showed that the second team this year has been above the average and, but for misfortunes, would have presented a much better appearance earlier in the season.

The Gardiner team was not as strong as usual and failed to make any impression on its much heavier opponents. They could not break up the forward pass game of the collegians, and this was in a measure responsible for the large score. One pass from Thurston to Moulton to Boober was especially noticeable among the many that our team managed to make.

This time the second team knew more about the signals and had more team work. Had this been true in the Hebron game, the result might have been somewhat different. With team play and weight added to the knowledge of the game which all our men are getting from Coach Parks, the Bates team gained almost at will, scoring a touchdown in the first two minutes of play and two in the last three minutes of play.

Captain Pedbereznak and Moulton were right there with the line plunges, while Sullivan and Ross in the line opened up some fine holes. Arata at end made some long runs on receiving forward passes, one netting a gain of some 65 yards.

The summary:
BATES-SECOND GARDINER
Arata, Boober, le re, Harriman
Wiggin, lt rt, Hickey
Ross, lg rg, Ware
Quackenbush, c c, Manson
Osborne, Grover, rg lg, Scott
Sullivan, rt lt, Mansir
Lundholm, Arata, re le, Canter
Thurston, qb qb, Kelley
Moulton, lhb rhb, Simons
Hall, rhb lhb, Cook
Pedbereznak, Wilder, fb fb, Glidden
Score: Bates Second 41. Touch-
downs, Thurston 2, Arata 2, Pedberez-
nak 1, Lundholm 1. Goals from touch-
downs, Thurston 5. Umpire Hobbs.
Referee, Nevers. Lineman, Littlefield.
Time, 10 minute periods.

DR. GALLOWAY TO LECTURE AT BATES NEXT WEDNESDAY

Will Speak Upon The General Subject
Of Sex Education

Dr. T. W. Galloway, professor of Zoology at Beloit College, Illinois, will speak at Bates next Wednesday, October 25. He will deliver three lectures during the course of the day. The first will be given at chapel in the morning, the second in Hathorn Hall at 1 o'clock, and the final one at 6.45 in the evening, in the same place. Attendance at these lectures will be required of freshmen and optional for upperclassmen. No doubt, however, most of the men of the college will avail themselves of the opportunity to go.

Dr. Galloway will speak upon the general subject of sex education. Many colleges maintain a fund for lectures of this kind, and their importance cannot be over-emphasized.

LITERARY ARTICLES OF MUCH INTEREST PRESENTED AT SPOFFORD CLUB MEETING

Short Stories And Essay Read By
Various Members

A very interesting program was given at Spofford Club Tuesday evening, Oct. 10. Miss Genevieve Dunlap read a quaint little story entitled "Sandy's Love Affair," while Miss Cleaves' story, "The Blackhanders," was unusually interesting for its surprise plot and its witty style. Mr. Norton's contribution was an essay on "Education and Happiness," which led to a general discussion of sociological problems.

It was decided that the meeting on October 24 should be devoted to the consideration of material presented by prospective members, with a view to filling the places left vacant by the class of 1916.

JUNIORS WON ANNUAL FALL INTERCLASS MEET

LED SOPHOMORES AT END OF
SECOND DAY BY 24 POINTS

Fowler, Millward And Jenkins Per-
formed Very Creditably In
Closing Events

The annual fall Interclass Meet was finished last Thursday with the Juniors far in the lead for the honors. Their score was 72 to 48 for the Sophomores, 37 for the Freshmen, and 10 for Peterson, running under the 1917 colors.

The meet was one of the fastest that has been staged in the fall at Bates for years and compared favorably with many of the spring meets of recent years. No records were broken on the second day, but Fowler, '18, in jumping 21 feet 7 inches in the broad jump, came within 3 inches of a new record and that with little training. Fowler also won the century dash in good time, and next to Jenkins was the star of the meet.

The Freshman captain, however, was the high point winner and also ran a fine race in the interclass relay. The two mile run was one of the prettiest races of the day. For five laps, Jenkins, Gregory, '19, and DeWolfe, '18, alternated in the lead. Then DeWolfe found the going too fast and dropped back to be passed later by White, '19, who as usual uncovered a sprint on the last lap. At the firing of the pistol to announce the last lap, Jenkins sprinted out in the lead and opened up a 20 yard margin which Gregory fought hard to cut down on the last corner, but could not materially lessen.

Quimby, '18, had the next highest number of points after Jenkins, capturing 13 points in the weights without entering his usual events.

Millward, '19, made a fine leap of 10 feet 6 inches in the pole vault, and showed promise of being a likely contender for honors in the state meet next spring. Coleman showed good form in the low hurdles and won handily.

Even if the Freshmen and Sophomores did not win the meet, they showed lots of fight and put up a grand fight in the relay race, which was the last event on the program. Taylor opened up a lead for the Juniors to start the event, but his team mates failed to second the good work of their captain and never threatened after that. Powers, '19, made a wonderful sprint and put his class into a comfortable lead from which they were not dislodged. The Sophomore team was also much fresher than the other two teams. The last lap was the most exciting and was run by three men who had competed in the meet in hard races that afternoon. Jenkins could gain little on White or Lawrence on Jenkins, making the last event a win for 1919.

The summary:—

440-Yard Run—Won by Lawrence, '18; Oberg, '19, second; Taylor, '18, third; Baker, '18, fourth. Time, 55 3-5s.
Running Broad Jump—Won by Fowler, '18; Taylor, '18, second; McCathie, '19, third; Gifford, '20, fourth. Distance, 21 ft. 7 in.

Two-Mile Run—Won by Jenkins, '20; Gregory, '19, second; White, '19, third; DeWolfe, '18, fourth. Time, 10m. 18s.
220-Yard Hurdle—Won by Coleman, '18; Peterson, '17, second; Woodman, '20, third; Baker, '18, fourth. Time, 29 4-5s.

100-Yard Dash—Won by Fowler, '18; Hobbs, '18, second; McCathie, '19, third; Barrow, '19, fourth. Time, 11s.

Pole Vault—Won by Millward, '19; Rice, '20, second; Farrow, '19, third. Height, 10 ft. 6 in.

Discus Throw—Won by Quimby, '18; Doe, '19, second; Dyer, '18, third; Kennelly, '20, fourth. Distance, 98 ft.

Interclass Four-Man Relay One Mile—Won by '19, (Larkum, Powers, Baker, White); '20 (Woodman, Gifford, Rice, Jenkins), second; '18 (Taylor, Baker,

Garland, Lawrence), third. Time, 3m. 51s.

Total score by classes:

	'17	'18	'19	'20
100 yard dash	0	8	3	0
220 yard dash	0	5	5	1
440 yard dash	0	8	3	0

z Held Wednesday.

BATES HARRIERS MEET THE U. OF M. CROSS COUNTRY TEAM SATURDAY

Finish Will Come Between Halves Of
Bates-Maine Football Game
Close Race is Expected

The Bates long distance men meet the U. of M. harriers next Saturday in a dual meet over the Lewiston course. The race will be started at such a time that the finish will come between the halves of the Bates-Maine football game, which is to be played on Garcelon Field. Last year Maine won the state intercollegiate cross country run, and later cleaned up the New England and National championships. Bates ran a good second in the state meet and did good work in the New England contest.

This year the local college expects to do much better and a reversal of the results of last year would not be an entirely unheard of thing.

Coach Ryan has not yet named the men who will represent the Garnet, but it can be assured that they will all perform very creditably. Ten men will represent each college, and the first five from each will count in the scoring.

Nearly all the veterans from last year's team will be on hand to run, and much added strength will be available in the person of Frank Jenkins, the freshman long distance star. Jenkins, Gregory, Lane, DeWolfe, White, and Smith should form a winning combination.

CHEMISTRY ASSISTANT OVER- COME BY GAS IN LABORA- TORY

Waldo Caverly, '17, Inhaled Hydrogen
Sulphide While Working On
Generator

An accident, which might have proved fatal, occurred in the chemistry laboratory last Friday forenoon when Waldo Caverly, '17, one of the assistants, was overcome by hydrogen sulphide gas. It was during the Junior class laboratory period, and a large number of students were present. Mr. Caverly was working under the "hood," engaged in taking apart the hydrogen sulphide generator, which he thought to be nearly empty. A cold prevented him from detecting the characteristic odor of this gas until he began to succumb to its effects. Realizing his danger he started to run in a dazed way across the laboratory. He lost consciousness and collided with the blackboard at the farther end of the room. Medical assistance was summoned, while Instructor Higgins revived him.

At the end of an hour he was able to go to his room, but remained in bed for the rest of the day. His experience was an unusual one, and will be a caution to others in the handling of laboratory materials.

1877—Friends have been very sorry to learn of the death of Marguerite Wyman, daughter of Hon. George H. Wyman, Bates '77, of Anoka, Minn. Miss Wyman was a student at the University of Minnesota.

President Chase is at Baltimore, Md., where he is to undergo a surgical operation. All will be glad to know that the operation is not considered to be of a serious nature.

The return of John and William Neville, '18, is certainly good news to the whole college. Their arrival was signified by impromptu cheering led by Jack Spratt, followed by speeches in response of a similar impromptu nature. They are heartily welcomed back not only because of their football ability, but because of the place held for them in the hearts of a large circle of friends.

At a meeting of the Student Council held recently, Edward B. Moulton, '18, was elected secretary of the Council for the coming year.

Eighty-seven are enrolled in the Junior Geology course this year. This is the largest enrollment in this course in the history of the college.

We certainly are indebted to Professor Gould for the various improvements he has instituted on the grandstand and on Garcelon Field.

Verdal Sampson, '19, and John Powers, '19, were at Poland Springs, Sunday.

A close race is anticipated for the football assistant managership this year. All of the sub-assistants are working hard and the result will be in doubt until the election is over.

Tag Day extracted a little more superfluous money from the pockets of Bates students.

Chester B. Oliver, '17, preached Sunday at Danville Junction.

The freshman girls' literary society, Entre Nous, was organized Friday evening, October 13. Dean Buswell presided at the meeting, and the following officers were elected: president, Marion Wheeler; vice-president, Priscilla Moore; secretary, Rachel Ripley; advisory board, Elinor Pierce, Pauline Hodgdon, and Ruth Clayer.

The U. A. C. C. held its first meeting of the year in Libbey Forum last Friday evening. Miss Junkins, the new president, presided. After the reading of the constitution the following program was presented: piano solo by Miss Mary Martin; "Events in the European War during the Summer," by Miss Evelyn Varney; "The Industrial Situation," by Miss Myrtle McIntire; "Recent Scientific Advancements," by Miss Marjorie Oakes; solo, Miss Marieta Shibles.

Miss Laura Mansfield, '18, entertained her mother and sister at the dormitory from Thursday until Monday of this week.

Miss Evelyn Varney, '19, was the week-end guest of her classmate, Miss Ruth Cummings, at the latter's home in Belgrade.

Mrs. Cleaves of Ossipee, N. H., was the guest of her daughter, Miss Mary Cleaves, '17, over Sunday.

Miss Susie Wilson of Gorham Normal School visited Miss Esther Greene, '17, over the week-end.

Among those who spent Sunday at home are the Misses Eleanor Seales, Doris Ingersoll, Vera Milliken and Ella Clark.

The Junior class has elected the following officers: pres., F. B. Quimby; vice-pres., Genevieve McCann; treas., Merton C. White; secretary, Blanche L. Wright; chaplain, Waldo DeWolfe; sergeant-at-arms, Birtill Barrow.

C. E. Walton has been elected treasurer of the freshman class.

"Bo" Kennedy, '17, has been obliged to resign as coach of the E. L. H. S. football team. Coach Parks felt that his whole time was needed with the varsity eleven.

Mark Stinson, '18, has been elected secretary of the college debating council.

Here's to a double victory over Maine, Saturday!

BOTH DIVISIONS OF FALL TENNIS TOURNAMENT COMPLETED

Woodman '20 Wins Freshman Cup Powers '19 Defeats Duncan '18 In Final Match

Manager Googins has been successful in completing both divisions of the fall tennis tournament, a stunt that is often impossible before the courts are unfit for play. The doubles will now start immediately and several good teams are entered.

transit, and upwards of twenty trigonometers. The last are of great value in the application of Mathematics to Surveying and in much of the work in Physics. They permit the rapid, accurate, and minute measurement of angles. The trigonometer was the invention of Professor Lyman, the father-in-law of Dr. Baldwin. Mr. Lyman was a man of remarkable inventive genius. The telescope was the product of his own knowledge and skill. A larger telescope made by him is in the Amherst College Astronomical Observatory.

1870—Professor L. G. Jordan is to give an address on October 12 at Lebanon, Maine, upon the occasion of a celebration commemorating the educational work of the late Dr. Oren Burbank Cheney, founder of Lebanon Academy and the first President of Bates College, and honoring the work of Lebanon Academy. Dr. Cheney was born in 1816. Principal H. S. Cowell, Bates '75, is to preside and will also give an address.

1900—Frank P. Ayer has been appointed counsel for the Maine Central Railroad. He has offices in Portland.

1901—W. H. S. Ellingwood is Superintendent of Schools at Newport, N. H.

1901—Dr. Josephine B. Neal, of New York City, was at the College at the beginning of the year to examine the Freshman girls. Dr. Neal spent her summer in very important and responsible work connected with the efforts to stamp out infantile paralysis in New York.

1901—Leroy E. Williams is Superintendent of Schools at Rumford, Maine.

1902—Lucian W. Blanchard has been elected county attorney for Oxford County, Maine. Mr. Blanchard is at present in Texas, with the Maine Regiment.

ALUMNI NOTES

1882—Frank L. Blanchard, for many years on the staff of The Editor and Publisher, has resigned and joined the editorial staff of Printers' Ink. Mr. Blanchard is personally acquainted with daily newspaper editors in nearly all the largest cities, not only through his work on The Editor and Publisher, but through his addresses on newspaper making and advertising before press associations, advertising clubs, and universities. For eleven years he has directed the course in advertising at the 23rd St. Y. M. C. A., the graduates of which are now filling some of the most important positions in the advertising world.

1886—Edwin A. Merrill, of the Minneapolis Steel and Machinery Co., is to represent Bates at a celebration at Carleton College.

1897—Walter P. Vining has moved his law offices from 51 Chambers St. to 217 Broadway, New York City.

1782—Through the generosity of Rev. F. W. Badwin, D.D., the college is to receive important additions to its apparatus for science work. These include a large, carefully constructed reflector telescope, a valuable lathe, a
