"Pat" French, the former Maine track star, and present coach of the victorious Deering team, stated that it was the best directed and snappiest schoolboy meet he had ever witnessed. He also said that the cordial greetings and care taken to entertain the "prep" school lads were the best ever.

Promptly at two o'clock Announcer Blackington gave the first call for the 100 vard dash trials for Senior schools. From that moment onward action was the watchword.

The boys were eager and allowed no delays to be credited against them. The 11 seconds. first four events were trials for the dashes. The 75 yard novice dash attracted special attention when the au dience learned that a brother of Wiggin, the State champion in the 100 yard dash, was a contestant. He won his heat after a hard fight. He intends to enter Bates after he finishes at Sanford High where he is a Junior.

The best "prep" school track man in the State won the next event, the mile run. OUTLINE OF WORK TO BE CON-DUCTED AT ALFRED, ON BATES FOREST -B-

this year at Alfred, Maine, during the The second annual interscholastic strong but landed on the hard ground months of July and August, under the auspices of the Bates Forestry department. The work will be under the direction of Professor Leete and several students who are specializing in Forestry are expected to attend. Among those who have enrolled are M. P. Smith, E. Woodcock, W. Bond, L. Luce, E. Luce, E. Young and C. Stevens.

> The first six weeks will be spent on the shores of Bungauet Pond, two miles outside of Alfred, where there are splendid facilities for forest work as well as great recreational advantagesfishing, swimming, etc. Most of the time will be spent on tree measuretreatment of woodlands, blister-rust, gypsy moth and other problems of a oractical nature.

During the month of August a speial course in civil engineering and surveying will be offered which will include instruction in the use of the

ery. She was taken ill several days ago, and her case pronounced searlet fever Monday, when she was removed to the Chase House Infirmary, Her room-mate at Milliken House, Miss Mildred Lincoln, left immediately for her home in West Leeds,

Miss Dyer's mother arrived Monday from Fryeburg, but altho the best medical skill available was secured, she grew rapidly worse. A consultation of physicians was called Thursday morning and the case then pronounced meningitis. Failing rapidly, she passed away about eleven o'clock. Her mother, Mrs. Annie Dyer, accompanied the remains to Fryeburg late yesterday afternoon. "K" Dyer, as she was known on the campus, was prominent in all the college life,-a fine scholar and a winsome and charming girl. She was a leader in athletics, manager of the girl's hockey team, and a great favorite with her

and many other useful instruments and these will be used at the summer camp. The textbook work will follow Tracy's 'Plane Surveying'' and will include reference work in other manuals.

During a part of the time the Bates delegation will be augmented by a timber-cruising party of two men who will help in examining the college lands with the view of repairing and working them later on.

At the finish of the summer school Professor Leete and his assistants expect to have a working plan completed which will regulate the cutting of the timber-land. They also expect to have succeeded in making a detailed study of the Alfred reservation which covers in all 12,000 acres.

Her father was the late Rev. Henry Dyer of Fryeburg. She was born in 1903, graduated from Fryeburg Academy, and entered Bates last fall.

ATTENTION PROM-ENADERS -B-

The committee on the Ivy Hop announces that contrary to the original plans the men will not appear in dress suits, nor in white flannels. Come in ordinary attire. The women are to wear evening dress.

-B ONE MORE ISSUE -B-

There will be one more issue of the STUDENT, appearing next Thursday night, instead of the usual Friday evening. This is to be, in many respects, a replica of the "Joy Number" of midyear fame. Be sure to get your copy.

Think it over this summer. Does your rank bill show that you have arrived at that stage, where college seems but a four-years' dream? Look out, the awakening may be painful!

WITHOUT SALARY

There are teachers and teachers. Some appear kind and seemingly human, others are indifferent and uninterested, and still others hold classes overtime and give quizzes after vacations. But somewhere there is a pedagogical trait that is one of the finest qualities in the world-the quality of loyalty and service.

Not long ago the legislature of Oklahoma adjourned without appropriating funds for the maintenance of the state university for the rest of the year. It looked as if the university would have to close and the work of the semester be left uncompleted. Then the faculty passed a unanimous resolution to stay by the school for the rest of the year, although there was no prospect of salaries. Though it will be a sacrifice for many members to remain under these conditions, they are all loyal.

Farewell Party to Dean Buswell.

On Tuesday afternoon, June 7th, a farewell party was given Miss Buswell by the girls of the college. Altho showers prevented an outdoor affair on Mt. David, a right royal good time was had in Fiske room. Miss Buswell was ostensibly out walking with two of the girls when she was blindfolded and led into Rand Hall, where groups of girls were stationed at various points. Each group sang appropriate songs to her, and when she reached Fiske room, nearly every Bates girl was there to greet her. Ruth Cullens made a charming presentation of the gift-a silver card plate-which Miss Buswell accepted with evident emotion. But it was easy

to see that the emotion was not wholly justly proud of her work at Bates.
