PRICE TEN CENTS

CAMPAIGN FOR CONTRIBUTIONS TO MILLION DOLLAR FUND FROM UNDERGRADUATES BEGAN YESTERDAY

"JACK" SPRATT, COACH WATKINS, "DAVE" THOMPSON, AND "ZIP" HOYT ADDRESS STUDENT BODY

QUOTAS ARE ALLOTTED

THE UNDERGRADUATE COMMITTEE ON THE MILLION DOLLAR DRIVE

The quotas that the undergraduate committee on the Million Dollar Drive allotted the four classes went over big at the class meetings that followed the Drive Rally in chapel yesterday. The Seniors will pledge \$90 per capita, Juniors \$60, Sophomores \$50, and the Freshmen \$30. That's what we're going to do toward piling up the Million.

But what was that "Jack" Spratt said in his stirring talk yesterday? Are the undergraduate pledges going to mean just a few more dollars toward the Million? It's the spirit—the fact that the undergrads are pushing that is going to start the alumni's enthusiasm, arouse the interest of outsiders.

As "Jack" said—"You can't work backwards—you've got to start at home, and show that the undergrads are back of the Drive."

Coach Watkins, Dave Thompson, and "Zip" Hoyt told us in their own striking

words the position of the student body in the Drive.

The coach told us how it was done at Colgate. "You musn't think," said the coach, "that your pledges are not going to help build the new gym. Your pledges go into the endowment part of the Fund, so that we can conform with the requirement of the General Education Board. But if your dollar does not go into the endowment, someone else's dollar later on can not go into the new gym."

Dave Thompson and "Zip" Hoyt voiced the spirit of the student body, the fight spirit that is going to start the snowball rolling.

And when the solicitors come around for your pledges payable over a 3-year period, just how much of that fight is in YOU. The student body is the lever under the cart-wheel, the sure force that is going to start the horse going.

PHI BETA KAPPA INITIATION HELD

Eight Seniors Become Members of Honored Scholastic Society

Last Friday evening at Chase Hall was held the annual initiation for the Bates Chapter of Phi Beta Kappa. The initiative part of the program began sharply at 5 o'clock. Of the thirty people present, nine underwent the necessary rites and ceremonies. Eight of these were of the present Senior class, Wayne Davis, '12, representing the eligible contribution of the alumni. After the initiation, the usual banquet was held, consisting of an unusually complete and tasty menu. Professor Hartshorn, president of the Maine Chapter, acted as toastmaster, and presented, with his original touch and humor, the speakers: Judge Crockett, President Gray, Professor Leonard, Professor Chase, and two of the new members of the Society, Miss Eleanore Bradford, and Robert Watts.

SECOND TEAM HAS UPS AND DOWNS

Wins From Hebron 9-5 But Loses to Bowdoin 2nd 16-3

The Bates 2nd team defeated the Hebron baseball team last Saturday, 9 to 5. Bates played errorless ball behind Martin, while Hebron was clocked up for seven errors. Martin twirled excellent ball for the Garnet team. Kenney's hitting featured for the collegians.

DIRECTORS OF OUTING CLUB TO BE CHOSEN

Election to Be Held Next Week—Instructions for Voting

Monday to Saturday of next week, May 8-May 13, are the days set for the election of directors for the Outing Club Board for 1922-1923. Each member of the Outing Club will receive personally an envelope containing a blank ballot and a list of the members of his class from which Directors of the club should be chosen. The final hour for casting ballots is 12.00 M., Saturday, May 13th.

According to the constitution of the Outing Club, the Board of Directors is composed of 26 members. Of these, 22 are elected from and by the membership of the Club, each class voting for the representatives by means of a secret ballot before May 15. The remaining four directors (2 from the faculty and 2 from the entering class in the fall) are chosen by the Directors elected at this balloting. Directors now serving, with the exception of Seniors, are eligible for re-election.

HOW TO VOTE

1. From the membership list, each member should vote for the proper number of Directors (according to the following instructions) by writing their names in blank spaces below. Members of the Class of 1923 vote for 10 Directors: 7 men and 3 women; members of the class of 1924 vote for 7 Directors: 5 men and 2 women; members of the Class of 1925 vote for 5 directors: 4 men and 1 woman. In these classes, the 10, 7, and 5, respectively, receiving the highest number of votes will be declared elected Directors.

JUNIORS CHOOSE IVY POEM AND ODE

At a recent meeting of the committee of the Junior Class, chosen to select the poem and ode for Ivy Day, the decision for the best poem was given to the offering of Amy V. Blaisdell; for the best ode, one written by Theodora Barentzen was chosen.

CONFIDENCE

in the store with whom you are dealing is an important consideration. We are always looking for new business—why not trade with us—our line is equal to the best.

DREW'S RELIABLE JEWELRY STORE

Established 1861
73 Lisbon Street

Over thirty thousand sport followers, who crowded Franklin Field, Philadelphia, last Friday and Saturday at the Penn Relay Carnival, saw Bates College secure victories in both the two-mile special and the one-mile college relay race. These victories are probably the greatest achievements that have ever been recorded in the annals of the college.

To compete in such a set of games is the aim of athletes throughout the country, and to win first place in an event, in which the cream of all the athletes of all the colleges in the East compete, is the pinnacle of success in the "track world."

Much praise is due to Raymond Bates Buker, winner of the two-mile special and to Corey, Batten, Sanella, and Archibald, members of the victorious relay team.

Realizing that he was no "dark horse" this year, and that some of the greatest two-milers in the country would be attempting to outguess him, Ray Buker proved to athletic followers throughout the country that he can run just as good a race with his head as he can with his legs. His performance last Friday was a masterpiece of headwork and supreme self-confidence.

Buker led to the first corner, slowed the pace down on the corner and went into the lead again on the stretch. He had the race in hand from the very start and his competitors stayed with him going out when he did and staying back when he stayed back. This continued for six laps, Buker constantly wearing out his competitors. When half of the seventh lap was completed the Garnet Captain started to let out and passed Watson Thompson of Hamilton College, who was leading on the sixth. Thompson and Romig of Penn State measured strides with him for half a lap and then Buker uncoiled his usual gun-lap sprint and drew away from the field easily winning by twenty-five yards in 9 minutes, 35 seconds.

(Continued on Page Three)

GIRLS' SOCCER TEAMS LOOKING GOOD THIS SEASON

Enthusiasm Running High—Games Will Be Played Soon

The girls' soccer teams are well under way and are showing up better in practices this year than last. The prospects for four fast class teams are very good as each team has more than enough out at each practice. The enthusiasm this year surpasses that of last year, due perhaps to the weather as much as anything else. The games are to be played off before it gets too hot, so watch for the date, and get out and show that class spirit of yours by cheering your team.

BATES STUDENTS WELCOME VICTORIOUS TRACK MEN

Celebrate With Fantastic Parade and Huge Bonfire

In one of the largest celebrations ever held at Bates College, the whole student body turned out last Monday evening to do honor to our victorious relay team and Raymond Buker. In spite of the fact that it was one glorious review of night-shirts, silk derbys and other more or less fantastical costumes, the cause did no more than justify the means. Promptly at 8.15 the parade formed in front of Parker Hall. "Mac" was to be a mounted marshal but in spite of studying "Bill" Harts antics in the Chase Hall movies for the last year, he was unable to make the "animule" behave and he had to walk. The coeds out in full force followed the boys and the parade moved with all due precision down College street. Desco's band furnished the music and did an excellent job under the circumstances and received all due credit. Once on the other side of the hospital the snake dance was started and the writhing forms danced gaily from one side to another across the bridge to Auburn. "Mike" Wilson and "Red" Menneally as advance guard took care of the cannon and announced to the astounded population of the twin cities that something was going to happen. Back from Auburn came the joyous troupes, did a column right and started down Lisbon street. All traffic was suspended and old Bates took possession of the city for the evening. Red fire illuminated the way, while the sidewalks (Continued on Page Three)

"Y" SENDS DELEGATES TO NEW ENGLAND CONFERENCE

Secretary Purinton, Nason, Gilpatrick and Dorr Represent Bates

The Bates Y. M. C. A. sent delegates to attend the Officers' Training Conference of the New England Colleges. This conference was held at Massachusetts Institute of Technology, Cambridge, Mass., last Friday, Saturday and Sunday. The representatives sent from the Bates "Y" were Philip Nason, Wesley Gilpatrick, Frank Dorr, and the General Secretary, Arthur Purinton. These men reported very interesting and helpful meetings. During the conference Arthur Purinton gave a stereopticon lecture on Silver Bay.

BATES SPIRIT AT WHITE HEAT

We shall not soon forget that night celebration on the peak of Mount David. Fixed in our memories is the sight of the flaming beacon which commemorated the double victory of Bates at the Penn. Relays. And for miles around, the mounting flames carried the message that Bates was paying homage in the good ancestral fashion to her athletes.

Nor do we forget, in the act of exultation, the individual men in whose honor we have been celebrating. The four men who made up the relay team have written their names on the sheets of the Bates log.

"Baker of Bates." That phrase has now been flashed across the continent two years in succession for the same remarkable feat. If any one man has brought fame to Bates in the past two or three years, we point to Raymond B. Baker. But we are no more proud of this two mile champion than we are of "Ray", the good fellow, the clean, upstanding son of Bates, our fighting track leader, scholar as well as athlete. Here is the type of athlete which Bates should hope to produce.

These track men of ours have struck the spark for us. The spirit for a season of unrivalled success in athletics has been kindled. While the tongues of fire no longer spurt up into the air from the structure we raised, yet the zeal for Bates is still at white heat.

This enthusiasm is nothing to be discounted, moreover, for in it there is something of material value as well as for exhibition purposes. A synonym of the word "spirit" is the word "energy," or "force."

It is up to us to carry this factor of support with us for the rest of the track season. How about that state meet in track this year? How many Bates men are going to be on hand that day to root for a championship?

What about backing up our baseball team with this invisible aid? Many a game has been won in the seventh inning. It was not the seventh inning that won the game, however, but a contagious spirit that was let loose at the right moment. Let's not wait until the seventh inning in the baseball season, when the fate of the year's work is nearly decided. Let's pitch in now!

Our respects to the men who went to Penn. Our thanks for the fire they have kindled. Our promise that the old Bates spirit now aroused shall not subside.

THE PASSING SHOW

Have you seen those boys with the Lord Fauntleroy breeches and the long, crooked sticks, peering this way and that for some lost article?

Don't be alarmed. It's nothing serious. Golf has arrived on our college green, that's all.

So before our admiring eyes, up and down the campus sward they go; and all over town, in alley-way and side-street, small boy admirers may be seen swinging dilapidated hockey clubs in vindictive intent against the innocent rubber centers of league baseballs.

Fads are the spice of life! Even though they used to be restricted to the dignity of college seniors, yet we welcome their return with joy under any circumstances. Regretfully we call to mind the impressive silk hats with which proud four year men were wont to promenade,—but now no more. Also the nifty bamboo canes,—and the rest. Presumably the present tendency toward fuzzy upper lips is reversion to type. History repeats itself, at any rate.

The 1922 model of fad seems to have an athletic turn, but that is merely the spirit of the times. So, here's to golf, our knee-panted sportsmen, and the creation of a new fad.

SOCIETIES

SPOFFORD CLUB

At 7.15 Tuesday evening in Libbey Forum three timorous victims were led thru the mazes of Spofford initiation. The new members were Esther C. Kisk, Theodora R. Barentzen, and Lloyd A. Hathaway.

The program of the evening consisted of a short story called "The Curse," by K. O'Brien, after the style of Markheim. Another contributor was Elsie Mowry, who read an essay called "On Being Good"; also a short poem of merit.

ENTRE NOUS

The Kid Party held by Entre Nous in Rand Hall Gymnasium, April 27th, was a tremendous success. The meeting was opened by the president, and the roll called by the secretary, each person as named reciting a bit of classic poetry or rhyme. After the reading of the minutes of the previous session, huge all-day suckers were served by the hostesses of the evening, and the crowd made merry with humorous songs, recitations, and dancing. The closing feature was the flash-light picture taken of the gathering by Mr. Duncan.

SENIORITY

Seniority held one of the best meetings of the year last Thursday evening, April 27th, at the home of Dr. Britan.

A short business meeting, during which the matter of Seniority pins was discussed, preceded the program, which was as follows:

Reading Frederica Ineson
Review, "The Green Goddess"

Piano Solo Dorothea Davis
Katherine O'Brien
Reading Virginia Mixer
Shadow Play—Ballad of Mary Jane
Helen Waddell, Director

The last number was unique, in that the action was depicted in shadows on a screen while the ballad was being read. After the refreshments, Dr. Britan rendered an interpretive piano solo, and Mrs. Britan ended a delightful evening with a piano selection.

SWALLOWED WHOLE

A CAMPUS TRAGEDY

Scene I—Rand Hall—Rising Action—
The Unexpected Call.

Ding-a-ling—"Hello," she murmurs,
"Yes, it's I—what did you say?
Moonlight night and George Ross's
Isn't very far away?"

"Sure, I'd love to come," she whispers
"And there's one for roomy too?
Fine, we'll both be on the docket:
Men in these parts are too few."

Scene II—Ecstasy

Click—the conversation's ended.
Pitter-pat her heart beats sound.
Think of it!—in fifteen minutes
Her one ambition will be found.

Scene III—Room—Impatient Preparation

"Hurry,—get out my rouge box,
I am out to lay a snare.
Fetch me my bright green sport coat;
We're the hounds that get the hare."

Scene IV—Window Sill—Joyful Anticipation

"Ready?—raise the window curtain:
Can you see their moving forms?
What is that a-creeeping onward
Over by the fellows' Dorm?"

Scene V—Climax—The Recognition

"There they are—I'm sure I saw them
Halting by the chapel door.
Hurry, faster! We can't miss them
For there's nothing we want more!"

Scene VI—Sidewalk—Falling Action—
Disappointment

"Why, I was almost sure I saw them
When they halted by that tree.
What has happened—was I dreaming?
Where can those fellows be?"

Scene VII—End of Falling Action—
Despair—All Hope Gone.

"Book, I'm cold—we must have missed
them:
You were so darn, bloomin' slow,
Now they've gone and will forget us:
What we've missed we'll never know."

ILLUSTRIOUS ALUMNI

OSCAR C. MERRILL, '99

Young college men and women are often asked the question: "Who are your illustrious alumni?" Bates students therefore will do well to acquaint themselves with the records and attitude of some of the "doers of things" who claim Bates as their Alma Mater. In order that even those who run may read "The Student" will publish weekly short sketches on notable alumni who have distinguished themselves and are distinguishing themselves in the great world of affairs.

The other day an undergraduate group was discussing this very subject of alumni, and one student was heard to exclaim, "Teachers!! Oh yes! Bates has turned out a great many teachers—many of them renowned educators. Ministers—yes—hundreds of 'em—keen debaters, quite a few—but how many big executives—how many men who are actually taking a part in running the machinery of this Government of ours?" We answer for him, and as an illustrious example of the highest type of public official, of the man who is pushing and engineering a worth-while governmental project, point to Oscar Charles Merrill, of the class of 1899.

Mr. Merrill is chief engineer of the United States Forest Service,—a position to which he was appointed in 1914, after he had served the country in a most efficient manner as a member of the forest service for a period of ten years.

In 1920, when the so-called "water power act" was signed by President Wilson, Mr. Merrill was chosen as executive secretary of the administration commission. Upon him devolved the task of preparing rules and regulations to be submitted to the Commission for approval. He was assisted in this work by General Crowder, of the War Department, and by Herman Stabler, representing the geological survey.

Under the act, provision was made for receiving applications for water projects from all parts of the country,—north, south, east and west.

The principal business of this Water Power Commission, of which Mr. Merrill was executive secretary, was to safeguard all public rights and to not allow the people's power to slip out of their hands or to be monopolized. The work of the Commission, as we have before pointed out, aims to emancipate industry from the coal shortage menace, by utilizing our unharnessed resources of water-power. It is with pride then that Bates men and women may point to O. C. Merrill as one of the pioneer conservators and developers of the precious natural resources of this Great United States. Today Mr. Merrill is working at Washington—a splendid example of the Bates man filling an executive position, requiring the greatest integrity.

In addition to being an alumnus of Bates Mr. Merrill is also a graduate of Massachusetts Institute of Technology, class of 1905. During the year 1905-06 he was instructor in Civil Engineering at the University of California. The years 1906-09 Mr. Merrill spent in private engineering work in California and Oregon. In 1910 he filled the position of District Engineer, U. S. Forest Service, and since 1914, Mr. Merrill has served efficiently as Chief Engineer of the U. S. Forest Service.

PESSIMIST VS OPTIMIST

You have heard all sorts of stories about pessimist and optimists. This is the latest: At the Commons' Friday dinner, the pessimist sees the fish, and the optimist sees the ice cream.

TAKEN FROM PROF. "MAC."

Girl: "Meet me in the gloaming."
Fellow: "Where is it, and how do you get in?"

SOMEONE SAID

"Don't be like a pin,—pointed one way and headed another."

PHYSICS!

She: "Did you know that it was impossible for what I am saying to you to go in one ear and out the other?"

He: "No! Why?"
She: "Sound does not traverse a vacuum."

He—"Why didn't you answer my letter?"

She—"I never received it."

He—"You didn't?"

She—"No, and besides I didn't like some of the things you said in it."

—Burr.

COLLECTORS

Nearly everyone has a mania for collecting. With some it's autographs, with others it's antiques, while some have a special fondness for umbrellas. There are those who collect bills and those who collect waste. The most foolhardy collector of all, however, is the one who collects telephone numbers. Can't you imagine one of that variety calling up 433 and asking for Nora Hall, while a voice floating back over the wire says, "No, you insect, this isn't Nora Hall, this is Parker Hall!!!!"

MATHEMATICS

Will the math "sharks" figure up the hours of agony we must endure while vacation lasts this year?

Talking about mathematics. An engineer had completed a railroad bridge and had used the slide rule to a great degree in its construction. He was in the party on the first train to cross the bridge. The bridge collapsed. The last words heard from the engineer were, "Damn that decimal point!!"

MOVIES AND DANCE

It was one big laugh after another last Saturday evening at the Chase Hall Movie show. The pictures flashed onto the screen served as a laughing gas to the large audience present and plenty of laughter does one worlds of good. It's a tonic second to none.

The dancing that followed the show was enjoyed as much as ever. Surely these Saturday evenings at Chase Hall are happy "get-togethers" and the crowd that turns out always goes home happy.

ONE HUNDRED PER CENT TRACK RECORD
(Continued from Page One)

The Garnet relay team came through in flying colors in its class and later attempted to take a place among the class of B colleges. Ralph Corey who led off for the Garnet gave an excellent account of himself. It was his first experience in competition and before such a crowd of spectators. Dunn of Rochester who had the pole and Foran of Colby were leading him to the first corner. Corey sped up on the stretch, passed Dunn, and was fast gaining on Foran when the quarter finished. Corey's time, 53 2-5 sec., is the best he has ever done. It was a worthy performance, especially for one who has devoted most of his time to hurdling, so far. It was at the coach's suggestion that he tried the quarter and he made good.

Batten, who started about ten yards behind his man ran splendidly, holding his own throughout, and turning in better time than he has ever done before. "Ray's" quarter was done in 52 1-5 sec. Sanella received the same as Batten had, a 10 yards disadvantage. He held his pace running fast. When he came to the final turn he began to gain. He slowly crept up on his man, ran abreast of him, passed him, and handed "Archie" a 4 yd. lead. Frank's time in snatching the lead from Colby was very fast. 51 sec. flat.

Archiebald running against the dependable anchors of the other college extended himself into the fastest time of the race for any quarter. He was leading McGarry of Colby by four yards at the start. Allison, anchor for Hamilton College, ran a powerful race passing McGarry but "Archie" was not to be caught. He was running faster than ever and though not pushed at the finish he broke the tape fully 10 yds. in advance of the Hamilton runner. "Archie", who turned in the remarkable time of 50 2-5 seconds, was capable Saturday of doing under 50 had he been so pushed. The time for the quartet was 3 min. 28 sec.

About an hour after their victory the Garnet relay attempted to draw a place in the Class B division. Batten led off from the worst position, 13 from the pole. He ran a fine race, however, and finished fourth in his quarter. Sanella ran second and held the same position throughout his lap. Baker running third met some fine competition and was in sixth place when he passed the baton to "Archie." Archie passed the man running number five and finished in that position.

Summary:
Event No. 61—One mile relay for colleges, won by Bates College, Corey, Batten, Sanella, Archiebald. Second—Hamilton, Snell, Scott, Morris, Allison. Third, Colby—Foran, Brier, McGarry, Hearon; fourth, Rochester—Dunn, Remington, Gale, Mason. Time, 3:28.

BATES WELCOMES TRACK MEN
(Continued from Page One)

were jammed with spectators who thoroughly enjoyed the spectacle.

Coming back from Lisbon street, Mac led the boys up Main street and thence to Mt. David, where boxes, barrels, hay sleepers and various other things were piled high ready to be lighted. "Bill" Guiney was called on to speak, but "Bill's" mighty effort in driving old "Dobbin" around in the morning didn't leave a speech in him, so he begged to be excused. Next was "Doc" Finnie, who is always called on when some real enthusiasm is needed, to deliver his line. The "Doc" with his characteristic poise and humor gave one of his most clever "sermons" and brought rounds of applause from his listeners. "Eddie" Stetson was next. He wanted to tell a story but was afraid to. It must have been a world beater because he called on "Doc" Finnie to tell it for him. After the speeches, Mac decided to light the heavens. The torch was placed to the pile and while the blazes soared skyward, nearly burning up "Doc" Britan's house and melting his tar sidewalk, El Ireland led the assembly in chorus singing. Soon after this a part of the team arrived in the persons of Corey, Batten and Archiebald, while the cheers rang out. The burning embers soon died out and the crowd dispersed, but everyone felt that proper tribute had been given to our victorious team.

Runs made by LaRocca, Churchill, Littlefield 2, Carwell, Hinds, Moulton, Kenney 2, Jordan 2, Chisholm 2, Rhineland. Two base hits, Hinds, Card, Littlefield. Three base hits, Kenney, Farley. Base on balls, off Warren 1, Churchill 2, Martin 2. Struck out, by Warren 3, Churchill 3, Martin 10. Passed balls, Tibbetts, McLean. Umpires, Pike. Time, 2 hrs., 5 mins.

The Bates second team bit the dust before the strong aggregation of ball-tossers representing the Bowdoin second team. The game was very uninteresting from the point of view of the Garnet rooters. The visitors nicked the Bates

pitchers for 13 hits and with the aid of errors scored 16 runs.

McGouldrick pitched good ball for Bowdoin with Pettengill and Blake leading in the batting. M. Jordan, Kenney, and Rhineland were the dependables for the Garnet.

Take It From The Air

NOT only music, but news, speeches, messages of every sort, are today being picked out of the air. "How has this come about?" we ask.

The new impetus given to radio development may be definitely associated with the development of the high power vacuum tube, for that made broadcasting possible. And the power tube originated from a piece of purely theoretical research, which had no connection with radio.

When a scientist in the Research Laboratories of the General Electric Company found that electric current could be made to pass through the highest possible vacuum and could be varied according to fixed laws, he established the principle of the power tube and laid the foundation for the "tron" group of devices.

These devices magnify the tiny telephone currents produced by the voice and supply them to the antenna, which broadcasts the messages. At the receiving end, smaller "trons", in turn, magnify the otherwise imperceptible messages coming to them from the receiving antenna.

Great accomplishments are not picked out of the air. Generally, as in this case, they grow from one man's insatiable desire to find out the "how" of things.

Scientific research discovers the facts. Practical applications follow in good time.

John Hancock Said:—

(IN 1774)

I HAVE ever considered it as the indispensable duty of every member of society to promote, as far as in him lies, the prosperity of every individual, but more especially of the community in which he belongs."

Life insurance is inseparably bound up with the prosperity of every individual, family and community. It is a secure and prosperous business and satisfactory to the salesman in every way.

The JOHN HANCOCK would like to interest a few ambitious men who graduate this year to make JOHN HANCOCK selling their life work.

Statistics on college graduates who have entered life insurance place it at the very top as a source of income. Before making a decision as to your career it would be well to make inquiries of the "Agency Department."

Bonus—bona—bonum!

IMAGINE the agony of the old oaken soldiers of Rome who were compelled to shave soapless before meeting the enemy. Not so good!

Today—bonus or not—you college veterans will not decline a good thing. Williams' Shaving Cream does away with all tense expressions and puts you in the right mood.

That rich white lather that stays rich and thick, softens whisker resistance and reduces razor action to a pleasant painless purr. Williams' Shaving Soaps have been a tradition among college men for generations.

Try it—tomorrow before chapel.

Williams' Shaving Cream

A Moore Fountain Pen Goes to College

14 years ago the writer took to college a Moore Non-Leakable Fountain Pen. In the whole four years nothing gave him greater satisfaction.

It did yeoman service on lecture notes, quizzes, themes and correspondence, stood hard use and never "flivvered."

Today this 14-year-old Moore is writing perfectly in business.

Lighten Your Writing Grind with a Moore!

BATES HAS AN OFF DAY IN GAME WITH LUNN & SWEET

And Loses 9-3 in a Slow Game Filled with Errors

Lunn & Sweet baseball team, last year's champions of the Industrial League, defeated the Bates regulars in a slow and uninteresting game Saturday afternoon, April 29, to the tune of 9 to 3.

Bates started off strong, scoring two runs in the first inning off Quinn. The Garnet scored again in the third inning when Dagnino singled over short and stole second, advanced to third on Partridge's sacrifice, and scored on Jordan's single. Here the Garnet's scoring stopped as Gaudette replaced Quinn in the box and held the collegians scoreless for the rest of the game.

Lewia started in the box for Bates, twirling beautiful ball for six innings, holding Lunn & Sweet to three hits and one run. He was replaced by Hamilton, who, because of not enough warming up, was not very effective. In the two innings that Hamilton pitched, Lunn & Sweet gathered in enough runs to put the game on ice. Woodman hurled the ninth frame, and Lunn & Sweet added three more runs. The Bates' infield did not play true to form as they made eight errors helping greatly to Lunn & Sweet's victory.

Dagnino played a good game for Bates, hitting well and fielding in errorless fashion. He got on the bases four times, scoring twice. Gaudette was easily the star for the Industrialites.

The summary:

	ab	r	bh	po	a	e
Gordon, 2b	5	0	1	1	3	2
