Waves Offer Variety, Opportunity To Serve

By Beatrice Woodworth '45

...the entire civilian population of Lewiston were replaced by WAVES. Now these men do not belong to the land. They are eager to get active combat duty, yet there are certain jobs to be performed on land. The solution would be to have the WAVES take over the duties of each of the 37,000 sailors. The Women Volunteer Emergency Service, WAVES, will be doing exactly what the WAVES really should do. Don't worry, girls, the WAVES will be scattered all over the world performing vital tasks.

Miss McCormack, who herself has been a graduate work mentioned that WAVES had earned their wings and were proving to be very competent in many respects.

...McCormack said that it is possible to get a college degree before becoming a WAVE. You may qualify to be an officer, prob-

ably an Ensign. You will be more valuable to the WAVES if you wait to finish your college career, especially if you take such courses as typewriting, shorthand, mathematics, physics, chemistry, accounting, modern foreign languages, or nutrition. Other qualifications for officer candidates are alertness, energy, integrity, leadership qualities, and an urge to serve your country.

Girls Lose Glamour In Routine

No glamour girls belong in the WAVES. There is no such thing as an eight-hour day. A WAVE is up at 6:30 and is mighty glad to crawl into her bunk at 10:00 p. m., after having had only 45 minutes to herself all day, if she is lucky. If she wishes to travel to a nearby city or just relax on the campus, she has all Saturday afternoon and Sunday in which to do this. She has more mental work and less physical work than a WAAC. All this sounds like college, doesn't it? The fact that the indoctrination period takes place on a leading college campus lends even more of a collegiate atmosphere.

During the indoctrination period of four months, the WAVES in their classes study ships, aircraft, naval law, naval strategy, naval history, the process of loading and firing guns, and abbreviations used in communications. This indoctrination period is the hardest and most discouraging time in the service, according to Ensign McCormack.

Will See No Foreign Service

The WAVES, being a part of the U. S. Navy, are governed by military law and are subject to court martial. They receive the same pay as men of equal rank. The fact that they probably will not see service abroad seemed to disappoint several of our coeds.

It is not known whether or not the WAVES will continue to exist after the war has been over six months. In any case, a former WAVE should be able to step into a fine position, for the standards of achievement are so high. For example, a stenographer should be able to take dictation at the rate of 120 words per minute and to type 65 words per minute. Very few of the best business college graduates can perform this feat.

To determine what type of work a WAVE should do, she is given a series of aptitude tests. If she had a good knowledge, say, of languages, she might be given decoding work, which of course, is a responsible job, as it is of such a confidential nature.

For a uniform consisting of a hat, jacket, skirt, shirts, seaman's tie, leather bag, gloves, hose, oxfords, raincoat, and rainhat, the sum of \$200 is allowed. All living expenses are paid, postage is free, and there are reduced rates on entertainment. In fact, there is so little on which to spend money that being a WAVE would seem an excellent opportunity to save, especially if you were an Ensign and drawing \$150 a month.

In characterizing the WAVES, Ensign McCormack stated that New England has produced a large production of sailors of high caliber, and she expects the women from this section to be of exceptional ability. The two officer training schools, the College and Mt. Holyoke College, both in Massachusetts. So many of our New England women have joined the WAVES.

Offer Opportunity For College Women

Service with the WAVES is not at all beneath college graduates. It is an opportunity to make use of their ability and knowledge. Ensign McCormack, who herself has been a graduate work mentioned that WAVES had earned their wings and were proving to be very competent in many respects.

...McCormack said that it is possible to get a college degree before becoming a WAVE. You may qualify to be an officer, prob-

Winter "Blisskrieg" Rolls Over Campus

Classes Compete For Winter Sports Honors Saturday

With the ground still covered with snow, everyone was crossing their fingers this week for the "white" Winter Carnival in the first years. With events only a little more than a week away, Directors Martha Littlefield '43 and Leighton Watts '43 have virtually completed arrangements for what may be the last Carnival for the duration, and are now alternately smoothing out last-minute difficulties and mumbling short prayers to the god of the diminutive snow-flake.

The complete schedule of events, beginning with the All-College Skate on Friday evening, January 22, has now been completed, and been adorned with names appropriate both to the war and the winter season.

The first event in the "Winter Bliss Krieg" will be an all-college ski, "Slippery Splinters", beginning at three o'clock on Pole Hill. The absence of the usual ski-tow will provide students with sufficient exercise after a week of worry in the Alumni Gym.

"Crystal Capers", the all-college skate, on Friday evening, will be featured by the crowning of the Carnival Queen at 8:15 and a spectacle on ice for her entertainment. After an hour more of skating, the Queen and her subjects will be ready to repair, at 9:30, to the "Thaw Tavern" at Chase Hall, where there will be dancing and gaming facilities.

Carnival competition will get under way on Saturday morning with skating races and special events at the rink. A team of seniors and freshmen will meet another of juniors and sophomores for the inter-class hockey match, "Puck Peregrinations", Saturday afternoon at one-thirty.

Following the skating events, judging of the various dorms' snow sculptures will take place, and at 2:45 ski and snowshoe competition will take place on Mount David and Rand Field. This year's competition has been arranged according to classes instead of the inter-dorm system used in the past. The afternoon's events will close with the annual lollipop-race up Mount David.

"Sitzmark Intermezzo", once known simply as the "Coed Banquet", will take place at 6:15, followed by the "Snowflake Serenade" (or Carnival Hop) at 8:15. Both of these final events will be semi-formal.

Freshmen Elect Ginn To Class Presidency

Editors Prepare Winter Issue Of Garnet

Dorothy Maulsby '43, editor of the "Garnet", announced this week that all material for the Winter issue of the literary publication had been received, and that the "Garnet" staff is now busily working against the clock to put out the magazine before the commencement ceremonies on Jan. 24. Due to the pressure of exams, and the necessity of waiting for contracted advertising, however, it is possible that the issue will not appear until some of the seniors have left the campus. In this case, the "Garnet" will be sent to the students as soon as they have been completed.

In this issue will be included, among other things, a refutation of Maurice Benowitz' arguments for agnosticism in the last "Garnet" by Valerie Saiving '43, a parody by Dorothy Petrie '45, sonnets by Alice Gates '45 and Jean MacKinnon '45, stories by Marjorie Macaulay '46 and Shirley Stone '46, and an article on poetry by John MacDonald '43.

Music Group Presents Gershwin Rhapsody

Both classical music enthusiasts and lovers of swing should be interested in the program to be presented at the Music Appreciation Group this week. As an interesting intermission during this week of tests the Group plans to play the American classic, Gershwin's Rhapsodie in Blue at Libbey Forum this Sunday evening. The music which Deems Taylor pithily described as "taking jazz out of the kitchen" was the first widely acclaimed classical work which was composed in the jazz idiom.

The Music Group, sponsored by Professors Robert Berkelman, W. Denham Sutcliffe, and Miss Marjorie Buck of the Library staff, is an informal group open to all members of the faculty and of the student body, who are interested in listening to recordings of the world's great music. The programs have already included work by Beethoven, Tchaikowsky, Stravinsky, Mozart, Brahms, Verdi, and many other great composers. In the immediate future a chamber music program including works by Mozart and Schubert, an all-Wagner program, and a meeting devoted to the second symphony of Brahms are planned. The programs seldom run longer than an hour and never longer than an hour and one-half.

All students and faculty members who are interested in classical music and who have not yet attended one of the programs are invited to attend in the near future.

Two members of the Speakers Bureau will address local audiences this week. This evening, George Kolsiad '43 will speak to the Community Club of Dixfield on new advances in science. Sally Ann Adkins '46 will travel to Wales on Saturday for an address about the war status of Turkey.

Ulrich, Davidson, Stewart, Ireland, Take Other Posts

In the final Freshman election, held yesterday morning in Chapel, the following four students were chosen as class officers: William Ginn, president; Muriel Ulrich, vice-president; Susanne Davidson, secretary; George Stewart, treasurer. Student Council president Charles Howarth, also announced that Elwood F. Ireland had been appointed the new Stu-C representative of the Freshman class.

The new President, William Ginn, went to Media High School in Media, Pa., and while there was class president, member of the student council, editor of the school paper, and an active participant in dramatics. He is now a member of the Freshman debate squad.

Muriel Ulrich of Bloomfield High School in New Jersey was an important member of the archery and basketball teams, and in both the French Club and the Girl Reserves. She has been elected to membership in the apprentice group of the Modern Dance Club, and played outdoor hockey during last season.

While at Upper Darby Senior High School in Pennsylvania, Susanne Davidson was a member of the Dramas Club and the Choral Club, was the chairman of several play committees, the secretary of her home room, and a member of the hockey team, and intramural basketball team. Besides being active in tennis, volley ball, skating and skating, Miss Davidson is also a member of the C. A.

George Stewart, newly elected class treasurer, was on both the baseball and tennis teams at New Haven High School, and is now a candidate for the basketball team, and a member of the Christian Service Club.

(Continued on page four)

Frosh Prize Debaters Argue General Draft

Tryouts for the Freshman Prize Debates were completed this week, and four teams were chosen to compete in the contest to take place early in the second semester.

The topic for the first of the debates is, "Resolved, that for the duration, all able-bodied men between the ages of 18 and 45 be subject to a nation-wide draft for labor". The affirmative team is made up of Herbert Knight, Barbara Miller, and David Richter, and the negative team will be comprised of James Christie, Eugene Vaughan, and Geraldine Weed.

In the second debate, speakers will argue the question, that "Bates henceforth be organized on the basis of three sixteen-week 'tri-mesters' a year". Clare Card, William Ginn, and Robert Woodward are the speakers on the affirmative team, while Raymond Cloutier, Edward Glanz, and Dorothy Strout will argue for the negative.

Grimes Announces New Skating Rules

Outing Club president, John Grimes '43, announced this week that it has become necessary to make several important changes in the procedure now being used at the skating rink. Operated by the Outing Club, for the use of the student body, the rink has been too often monopolized by skaters who have no right to use it. Lately, several school children, who had no permission to use the ice, have suffered minor injuries.

Beginning this afternoon, all Bates students desiring to use the rink will be required to show their athletic cards at the gate. Children of faculty members may obtain a pass from the Athletic Office, and will then be welcome to make use of the skating facilities. The Outing Club will appoint someone to check on cards and passes during skating hours.

Although the administration has consented to skating on Sunday, hockey may not be played on the rink at this time. The hockey rink may therefore be used for regular skating on Sundays.

Due to the shortage of labor, it has been impossible for the Outing Club to secure anyone to flood the rinks late in the evening, as has been the procedure in the past. Instead, the ice will be flooded as early as possible in the morning. This will mean, however, that skating will not be possible until fairly late in the afternoon. The Outing Club asks your cooperation in helping to keep the rink smooth, by not using it until the ice has completely hardened.

In order to prepare the rinks for their early-morning flooding, it is necessary to clear them of snow every evening between nine and ten o'clock. Under the direction of George Stewart '46 the men of Roger Bill have been doing an excellent job in clearing the ice at this time. Any assistance that is given to these fellows will be greatly appreciated by the Outing Club.

WHAT CIGARETTE GIVES SMOKERS WHAT THEY WANT

HAPPY NEW YEAR 1943
START THE NEW YEAR RIGHT WITH THE RIGHT COMBINATION FOR More Smoking Pleasure

Make your next pack in 1943 a pack of Milder, Better-Tasting Chesterfields and enjoy more smoking pleasure the whole year through.

Chesterfield's Right Combination of the world's best cigarette tobaccos gives you everything you like best in a smoke. That's why, year after year, you hear more smokers say, "You can't buy a better cigarette... THEY SATISFY."

Back Up The Man In Uniform Says Chesterfield Newspaper Ad Running In This Issue

Buy U. S. War Bonds and Stamps; Write Letters and Send Smokes to the Men in the Service

"Start the New Year Right" says the headline "With the Right Combination for More Smoking Pleasure" The current Chesterfield theme is continued in the copy which points out the importance of proper blending in giving smokers a milder, cooler and better-tasting cigarette.

The advertisement is illustrated with the picture of an attractive young woman dressed in the uniform of the American Women's Voluntary Services. In one hand she holds a sheaf of war bonds and stamps and in the other a letter and a carton of Chesterfields.

Reports from men in the Service indicate that no gift is more welcome than cigarettes. On distant fronts, like Africa and the South Pacific, next to a letter from home there is nothing the men would rather receive than cigarettes made in the U. S. A. Chesterfield points this out in its newspaper and radio advertising and urges its readers and listeners to send cigarettes regularly to men in uniform.

Shanahan

(Continued from page three) all indications point to a fast-breaking offense being used by the Garnet quintet.

The ex-Crusader admits, however, that two problems do stand out. Last night that he took the Bobcat hoopers to Orono for a tilt with the University of Maine, arrived home at 2 a. m., and had to be up to teach this morning. You, see, the popular "Hyme" also teaches in addition to his coaching. Then too, there's a week in February during which Bates plays Maine, Lewiston meets Morse of Bath, and Bates faces Bowdoin all on successive nights.

Outside of that things are just fine, and "Hyme" hopes to lead both of his clubs through successful seasons. You've got what it takes, and we're all with you, Coach Shanahan.

Christian Service Initiates Seven At Special Service

Last night in chapel the Christian Service Club held initiation of its new members, and a communion service was conducted by Dr. Zerby. Those admitted to the club were Walter Ashland '45, Raymond Bond '46, Robert Dennet '46, Edmund Nutting '45, Russell Savage '46, Ruth Howard '45, and Ella Lewis '45.

The committee in charge of this program was composed of the following: Richard Stoughton '43, president; Marjorie Cahall '43, vice-president; Lorna MacGray '44, secretary; Edward Sherblom '44, treasurer; and Doris Lyman '43.

The Christian Service Club is an organization mainly for fellowship among those students who are particularly interested in church work. Their services are given wherever seen needed either on the campus or to the community at large.

Waves

(Continued from page one) sign McCormack said that they are earnest, intelligent, friendly, a class of women with whom college graduates would desire to associate.

As there are now only about a thousand graduated WAVES who are scattered all over the country, they are as yet regarded as curiosities. It would indeed be surprising if mid-summer did not find at least a few of our seniors in the U. S. Navy or Coast Guard. Seniors, you are fortunate to be completing your college course at a time when you can be so useful to your country. Although we all want the "duration" to be as short as possible, some of us underclasswomen are just a little bit apprehensive lest before we get us degrees, the war will be over.

CLUB NOTES

On Tuesday evening, January 12, the various clubs met in their respective meeting places.

Politics Club was honored by the presence of U. S. Attorney John Clifford, one of the most prominent speakers scheduled for the year. Mr. Clifford discussed the Department of Justice, and the meeting was open to the club members and anyone outside the club who might be interested.

John Clifford was born in Lewiston and attended high school here. He graduated from Bowdoin and received his degree from Georgetown Law School in Washington. He has been practicing law since 1913, and was appointed a U. S. District Attorney in 1913.

At the meeting of the Lawrence Chemical Society last evening, Pres. George Hammond '43 described a plan to enable members of the club to keep in touch with each other after graduation. An alumni secretary will be added to the list of officers and keep an informal check on graduates of the club. Not only will this plan enable club members to contact one another, but it will also provide undergraduate members of the Society with information about the possibility of various jobs in industry that can make use of their training in chemistry.

Following the description of the alumni-plan, an election was held to replace Pres. George Hammond '43, and Vice-Pres. Thomas Hetherman '43, who are graduating this month.

The trophy that was won by Lawrence Chemical in its recent basketball contest with the Jordan Scientific Society, now resides in the dyecase in Hedge Laboratory.

Freshmen

(Continued from page one) Freshman Stu-C representative, Elwood Ireland, is a holder of one of the \$1200 scholarships, a member of the band, an excellent skier, and a winner of his numerals for cross-country. He was a member of the skiing, track, and football teams while at Gould Academy in Bethel.

Dr. Fisher Clarifies Position Of College's Enlisted Reservists

There are still many students who are in doubt as to their status in regard to the armed forces. Despite Dr. Fisher's announcement in Chapel this past week, students are still confused as to whether or not they will be called up this month or whether or not they will be allowed to finish this academic year. The following data comes direct from the headquarters of both branches of the armed services.

The general order from Army headquarters regarding those students in the Army E.R.C. is, "No order will be given to report on a date prior to two weeks after the compilation of the student's first academic quarter terminating after December 31, 1942".

This means, therefore, that no one will be called up before Feb. 7, 1943. There are, however, special provisions for special students as the pre-med. The order pertaining to Pre-Medical students in the E.R.C. states that they will be allowed to continue in college on an inactive status until the first semester beginning in 1943 is completed. That means that these students will be allowed to finish the semester beginning on Jan. 25, 1943. At the completion of this semester, which ends in May, 1943, these students will be called to active duty. "Pre-medical students NOT in the E.R.C., if taking approved courses, if inducted under Selective Service prior to the end of the first full semester beginning in 1943, will be placed on inactive duty to continue such course until the end of that semester. They will then be called to active duty. Both the pre-med. in the E.R.C. and those who are not, may be detailed to further medical or pre-medical training under the Army Specialized Training Program at the time they are called to active duty.

All other E.R.C. students will be called to active duty at the end of the current semester (not before Feb. 7), and upon completion of basic training will be eligible for training under the Army Spec. training program.

The Navy plan for Naval Reserve Corps students is: "At a date to be announced, all V-1, V-5, and V-7 reservists regularly enrolled in college as undergraduates will be placed on active duty, as apprentice seamen with full pay, subsistence, and uniforms. It is contemplated that present enrollees in V-1 and V-7 will, when placed in active status be assigned as follows: (a) those who have on July 1, 1943, completed 6 or 7 equivalent semesters, may complete two, or additional semesters. (b) Those who have at that date completed equivalent semesters, will pursue a course of two additional equivalent semesters; those having completed four semesters will pursue a course of three additional semesters; those having completed three semesters will pursue a course of four additional semesters; and those having completed one or two semesters will pursue a course of five or four additional semesters. All those falling under this will pursue these additional semesters at an institution designated by the Naval Personnel.

Reservists in V-1 or V-7, and are undergraduates qualifying for medical, dental, and theological degrees will be continued on active duty as apprentice seamen under instruction in accelerated curricula in approved schools and seminars at completion of their professional degrees. (That means the outstanding their M.D. or D.D.S. degree.) V-7 reservists who are college students who are requested at the time of enlistment in or transfer to class may be deferred from assignment specific aviation cadet training at the end of the college year current at the time of enlistment or transfer.

"As soon as present V-1, V-7 students are placed on active duty they will be required to spend time in following courses of training appropriate to each student's professional course of study and as prescribed by the Bureau of Naval Personnel." In summary, no official dates have been set by either the Army or Navy for the calling up of Reserve Corps students, but no E.R.C. student will be called before February 7, 1943. Both the Army and Navy officials are students to attend college until official date is announced for the calling up of Reservists. Should the serve corps be called before the of the semester beginning Jan. their college expenses will be on pro rata basis.
