WVBC Launches Annual Fund Drive

Girls Of Rand, Whit Schedule Parents' Event

A new event has been added to the calendar this fall. The senior girls are entertaining their parents with a weekend at Bates, which will begin at noon this Saturday with lunch in the Rand dining hall.

Following lunch the girls and their parents will attend the Bates-Middlebury football game, where seats will be reserved for them. The mothers will be given flowers as favors to be worn at the game.

Parents Meet

A get-acquainted coffee is scheduled for after the game in the Women's Union. Giving the parents an opportunity to meet each other is one of the chief purposes of the weekend; at Commencement they will enjoy renewing acquaintances.

In the evening slides taken in Europe this summer will be shown in Rand gym by those girls who travelled with Dr. Rayborn L. Zerby's group. Members of the faculty who are associated most closely with

175 Frosh Support Class Work Project In Lewiston-Auburn

As part of their orientation program the freshman class participated in a "Work Day" last Saturday. With upperclass supervision the freshmen made this "a spectacular work day," according to the Lewiston Evening Journal.

These various projects were designed to show appreciation for a chicken barbecue given to the freshmen by the local residents during Freshman Week. Around 175 members of the class left the college early in the afternoon to help repair or improve conditions at places in Lewiston and the surrounding area.

Repair Roof

One group traveled to a home in Sabattus where they applied a new shingle roof. The house belonged to a crippled man who was physically unable to repair the house himself and financially unable to hire other workers to do the job.

At a farm in Poland several freshmen helped chop wood for

Notice

William Kelly, State Department representative, is on campus today to interview students interested in career opportunities in the United States Foreign Service. Appointments should be made through the Guidance and Placement Office.

Campaign Kickoff

Bursar Norman Ross initiates WVBC fund drive by personally contributing a \$1 bill to station manager Alan Kaplan.

seniors will be guests at this concluding event.

Personal invitations have been sent to every senior girl's parents. The committee making arrangements for Parents' Weekend are: Suzanne Manwell, Sally Smith, Janet Allen, Arlene Gardner, Marion Glennie and Nancy Henson.

Also, Alice Hilterhaus, Barbara Prince, Judith Svirsky, Margaret TenBroeck, Margot Turitz, and Norma Wells.

Mirror

There will be a short meeting of students interested in becoming members of the business staff of the yearbook at 8:30 p.m. today in the Chase Hall lounge. Those who are interested but unable to attend the meeting should contact David Rushefsky, business manager, at 8 Garcelon; telephone 2-0043.

Dr. Skinner Outlines Scientific Techniques Regulating Behavior

By Jim Bissland

Opening the George Colby Chase lecture series in the Chapel last Thursday evening, Dr. Burrhus F. Skinner, professor of psychology at Harvard University, discussed "Science and the Freedom of Man."

"It is an inescapable fact," stated Dr. Skinner, "that methods of science are being applied more and more to human affairs." Eventually all human behavior will be brought under technological control, he said, and it is essential that we face the issue now.

Explains Control Methods

Dr. Skinner went on to explain the various methods of control of human behavior with which we are now familiar. Among these are the conditioned reflex, emotional appeal, positive reinforcement by reward or punishment, and drugs. Continual research and testing are steadily widening our knowledge of such controls, he declared, adding that the infamous reputation acquired by "brainwashing" is somewhat undeserved, for such a technique employs few methods that have not been known for centuries.

"All techniques of control are

generally unpopular," Dr. Skinner admitted. An example of this is the frightening picture of a controlled society, as painted by Aldous Huxley in *Brave New World*. The Harvard professor explained that faith in self-assertion is based upon our concept of a democratic society — democracy originally having been a revolt against the controls of autocracies. Yet at the same time we allow ourselves to be highly controlled by clever advertisers and propagandists.

Describes Techniques

Dr. Skinner described three areas of control generally unrecognized as such by the public. "We pour on the praise," he said, telling how the group controls us. Education also uses the technique of praise and blame, to the neglect of learning for its own sake. In government, too, controls are often disguised as reward systems.

The speaker emphasized that the basic common criticism of a Utopia, as described in his novel, *Walden Two*, is that "someone planned it that way." Men have established a dislike for obvious planning and control, and continue to hinder scientific research on the problem, ironical-

ly, despite the vast quantity of controls they have already set up for themselves.

Sees Value Of Science

"Science can do great things for mankind," Dr. Skinner stated, "and we can fully achieve, by controls, every aspect of ideal democracy. If we reject what science has to offer, and allow it to fall into the hands of the wrong political groups," he concluded, "that will be the most ignoble defeat of all."

Dr. Burrhus F. Skinner

Station Requests Student Support To Finance 1956-57 Broadcasts

Today is the first day of the WVBC fund-raising campaign. The Bates radio station, financed completely by student contributions, is asking each student to contribute \$1, reminding them that only so long as they support the station can it continue to operate.

The first dorm to achieve 100 per cent in donations by 12:15 p.m. tomorrow will receive a long playing record, a bongo board, or a football. The boys' and girls' dorms will compete separately because of the differences in size.

Acquires Campus Facilities

The Bates radio station originally had no facilities on campus. Time was allowed for a fifteen minute weekly show over WCOU in Lewiston. Then in 1951 WVBC moved into its own headquarters in Chase Hall.

The completion of the second section of Pettigrew Hall last fall provided WVBC with new studios and control rooms. The improved facilities are at least equal to those of the professional stations in surrounding communities.

Purchases New Equipment

Recently the station spent over \$100 on a transmitter which was installed during the summer. Two new turntables and new records were also purchased.

Plans are being made for the installation of a telephone in the broadcasting station so that students may phone in record requests during the music programs.

Broadcasts Campus News

Besides broadcasting music, news, notices for student organizations, and sports coverage, WVBC sponsors record hops in conjunction with the Chase Hall Dance Committee.

Arrangements have been made this year for the relay of scores from away games over the WVBC facilities. Periodic calls from the site of the game keep the station and the campus informed on the progress of the event.

(Continued on page two)

OC Elects New Members; States Lending Policy

Six students were chosen to serve as members of the Outing Club Council last Wednesday. These new members, elected to fill vacated positions, were seniors, James Muth and Marjorie Harbeck; juniors, Peter Meyersbach and William Taylor; and sophomores, Lee Larson, David Harper, and Sylvia Soehle.

Eleanor Peck and Anthony Parinello, O C equipment directors, emphasized the policy to be followed on the lending of Outing Club equipment. Now, as in the past, those who borrow bicycles, skis, and other sports gear, must deposit \$1, to be refunded when the equipment is returned.

Enforces Policy

In case the item is not brought back on time, there will be a 25 cent fine for every day it is overdue. This policy has not been enforced in the past; however, since much of the equipment has been lost or damaged, it is necessary to use this deposit and fine system to help defray the expenses of replacing or repairing these items.

If the equipment is returned damaged, the dollar deposit will be kept to help meet the cost of repairs. By strictly enforcing this policy, O C hopes to have the equipment in better condition than in the past and available to more people.

Lends Sports Gear

The equipment room will be open every Monday, Wednesday, and Friday from 4-5 p.m. Everyone is invited to use the bicycles, sleeping bags and other equipment that is available.

Stu-G; Stu-C

Student Leaders Discuss Frosh Hazing, Primaries

The Student Council meeting was held in Roger Williams Hall last Wednesday evening. Several issues were discussed including beanies, elections of class officers, results of dorm meetings and the problem of cutting in the Commons dining line.

Freshmen who have lost their beanies will be expected to improvise for the remainder of the freshman rules. The loss of a beanie will not be accepted as an excuse.

Freshmen Hold Primaries

The primaries for freshman elections of class officers and Student Council representatives will be held October 29, with the final election in November. Each candidate must file a petition with the names of 20 members of the freshman class to the Student Council. Petitions will be available following chapel on October 24. No student may sign more than two petitions.

Results of the dorm meetings were discussed and some of the suggestions are being acted upon. The Council is looking into the possibility of buying new bowling pins for the Chase Hall Lounge alleys.

Forbids Line Cutting

The motion was passed that action will be taken against those men who cut into the meal line at the Commons. This ruling will become effective immediately. The Council feels that this should be a matter of common courtesy and hopes that they will not have to enforce this action.

In the Stu-G meeting of October 10, the chief topic of discussion was Haze Day's merits and weak points. Hazing in general was discussed and the topic will be open to the student body for further discussion.

In conjunction with hazing, the Board considered the effectiveness of Freshman Rules this year and plans to discuss them to a greater extent with the freshman women in their respective dorms.

Discusses Important Dates
Various items of interest to the women were also on the agenda, including the dates for debibbing (October 19), installation (October 21) and the beginning of family style meals (October 17).

Harvard Professor Views Man's Concept Of Utopia

Speaking in Chapel last Friday morning, Dr. Burrhus F. Skinner, professor of psychology at Harvard, discussed the subject "Utopian Writers."

Noting how conceptions of Utopia have changed as time and progress in man's standard of living have changed, Dr. Skinner cited several examples of Utopian writing.

Contrasts Concepts

He pointed out that in Plato's day, Utopia depended upon a good ruler and good government. The speaker contrasted Machiavelli's conception of Utopia, where a strong prince produced the happy state, with the conception of Sir Thomas Moore who believed that customs and mannerisms were the crucial points in forming a Utopia.

In pointing out how some Utopian writers held the belief that Utopia was some sort of magic island, he cited Francis Bacon's "New Atlantis."

Also in this connection, he quoted passages from Diderot's works which satirize the island of Tahiti.

Cites Marx

Carrying out his central theme of how Utopia has changed with economic progress, the psychology professor cited the 19th century work of Karl Marx.

Mountaineers Climb Bald Pate In Third OC Hike Of Season

Judith Svirsky and Damon Dustin led 32 students and four faculty members up Bald Pate Mountain last Sunday. After an early breakfast, the group left by bus from in front of Rand Hall for the Rangeley Lakes region, where they began the seven and a half mile hike up the 3800 foot mountain and down again.

Dr. L. Ross Cummins, Dean Walter H. Boyce and Mr. and Mrs. Charles E. Reeder, along with the student climbing enthusiasts, made the climb which they described as being of "average difficulty." The fall foliage was at its height, adding to the enjoyment of the trip.

This was the third and last of the season's mountain climbs which are sponsored by the Bates Outing Club. Previous trips were to Mount Washington and Saddle Back Mountain.

Bookstore Receives Fairfield's Recently Published Saco Book

"Sands, Spindles, and Steeples," Dr. Roy P. Fairfield's book portraying the historical development of a community on the Maine coast was published October 4 by the House of Fal-mouth in Portland.

Dr. Fairfield expanded his doctorate dissertation on his home town of Saco, depicting the life of the community. He regards "Sands, Spindles, and Steeples" as the major forces effecting the town's growth during the past 350 years.

Purchase At Bookstore

Dr. Fairfield's book is currently on sale in the book store and is available in Coram Library. Copies may also be obtained directly from the Cultural Heritage professor.

Dr. Skinner sated, "The 20th century Utopian idea is a psychological one." Most of what we now hold as values turned up first in Utopian writings.

The speaker concluded his address by suggesting that the conflict between traditions will ultimately bring out a new culture. He said, "All ideas suggesting improvements are Utopian."

Graduates Take Examinations For Barr Fellowships Program

Students Vie For NATO Grants To Study Abroad

November 1 is the closing date for the NATO scholarship competition, the Institute of International Education has announced. For the second year NATO is awarding grants for foreign study to deserving candidates, selecting them on the basis of their previous scholastic record, the institutions at which they plan to study, and their major field of study. Preference is given to candidates in humanities and the social sciences.

NATO hopes that close study of the historical, political, linguistic, economic and strategic problems of the Atlantic Community countries will reveal common needs of the community as a whole, and unify the countries more strongly.

Offer Two Categories

The student exchanges are in two categories: scholarships and research fellowships. Selection of American students for the scholarship program will be handled by the Institute of International Education. The Conference Board of Associated Research Councils will screen applicants for the research fellowships.

Final decisions on American candidates for the 1957-58 academic year will be announced on April 4, 1957, by the Board of Foreign Scholarships.

Candidates for the scholarship program should apply to the Institute of International Education, 1 East 67th Street, New York 21, N. Y. Candidates for research fellowships should contact the Board of Associated Research Councils, 2101 Constitution Avenue, Washington 25, D. C.

Companies Visit Campus; Recruit Career Seekers

Dr. L. Ross Cummins has released information on a variety of career opportunities for Bates graduates.

Monday, Jane McAfee, representative of the YWCA National Board, will interview women interested in careers in social group work. Tuesday Mrs. Robert Doe will discuss the curriculum of the Katharine Gibbs Secretarial School and careers based on additional secretarial training. Those interested should sign up at the Guidance and Placement Office for interviews.

Announce Civil Service Program

Material is available at the Guidance and Placement Office on the United States Civil Service Commission Student Trainee program and examinations. Students in this program combine on-the-spot training in Washington, D. C., with scholastic training at a nearby college.

Information is also available on the admission test for graduate study in business required by many schools. The first administration of this test, offered by the Educational Testing Service, will be on November 3. Applications and fees must be filed with the Admission Test for Graduate Study in Business, Educational Testing Service, 20 Nassau Street, Princeton, N. J., by this Saturday.

statements of education and career intention should be included with the request.

Penley Discusses Recent Maine, National Elections

Speaking before Citizenship Laboratory Thursday afternoon, Edward F. Penley of the *Lewiston Daily Sun* discussed the recent Maine election and the coming national election.

Commenting on the results of the Maine balloting the editorial writer noted that there have been some astounding upsets in this state in recent years.

Notes Upsets

"If you go back to 1948," stated Penley, "you will find that Margaret Chase Smith, a relatively unknown person at the time, defeated Governor Horace Hildreth and former Governor Sumner Sewall in the race for the United States Senate."

In the Senate race in 1952 Governor Frederick G. Payne ran against Owen Brewster, a politician who was more widely known in Washington, D. C. Most observers felt that Payne would be defeated very badly because he had been falsely connected with a recent liquor scandal. "Nevertheless the Governor came out victorious in the election," declared the *Lewiston* writer.

Discusses Election

"The Maine election this fall had national significance," Penley asserted. "In this state the Democrats did an excellent job in getting out the registered voters. Undoubtedly Muskie received a number of Republican votes, otherwise he couldn't have won by such a majority," he added.

In answering a question as to whether Frank Coffin rode into office on Muskie's coattails, the editorial writer stated that "Coffin won pretty much on his own merit. In fact, the Democratic

Party figured that Coffin would help Muskie as much as the Governor could aid him."

Talks With Voters

Penley ascribed Coffin's victory chiefly to the Democratic candidate's detailed program which he discussed with the voters and promised to carry out if he went to Washington.

Coffin's opponent, Representative James L. Reid, on the other hand, conducted a relatively lazy campaign which consisted mainly of films and photos of himself and President Eisenhower posing together. "The outcome was a testimonial to the independent voter."

Forecasts Election

"It is very hard to forecast an election," commented Penley, "but since 1896 Androscoggin County's results have coincided with every national election."

"The district has only been wrong twice since 1856," he continued. "In 1884 James G. Blaine, 'the man from Maine', lost to Grover Cleveland, but it could hardly be expected that any county in Maine would vote against a man from their own state."

Blames Cleveland

In 1892 Cleveland was elected again despite Androscoggin's vote for Harrison. "This can be attributed to the fact that the people wouldn't forgive Cleveland for defeating Blaine eight years before," concluded Penley.

Frosh Class Sponsors Friday Night Rally Featuring Surprise

A campus-wide parade led by the band and cheerleaders will begin Friday's freshman rally before the Saturday game with Middlebury. The activities will begin at 9 p. m., immediately following the debibbing and de-capping ceremonies.

The freshman rally committee, headed by co-chairmen Linda Petersen and Richard Grentzenberg, report that an original program is planned, details of which are being held "secret." They promise unique entertainment including several interesting speakers, as yet undisclosed and they urge students of all classes to attend and lend their support to the Bates team for the Middlebury game.

Parade Follows Ceremonies

The parade will lead the students to the "secret location" of the rally following the ceremonies in Chase Hall and Women's Locker Building.

The rally committee is made up of members of the freshman class representing each dorm.

Frosh Work Project

Bowdoin Art Museum Presents Exhibition Of Leonardo da Vinci

Highlighting the opening on November 1 of the Walker Art Museum at Bowdoin college will be a traveling exhibition of sketches and models exemplifying the genius of Leonardo da Vinci.

The International Business Machine Company is sponsoring the show which has been touring the country for the past several years. The show appeared

and cleaning at both the YMCA and YWCA.

After returning from one of the unfinished projects, Stu-C President Orin Blaisdell remarked that "we're counting on the freshmen to develop enough interest today to go back later and complete the project."

most recently in the New England area at the Castle Hill Art Center in Ipswich, Mass., and appeared about two years ago at the Boston Museum of Fine Arts.

Prof. Phillip C. Beam, curator of the museum's collections, announced that Bowdoin's visiting Professor Mitchell will present a lecture on Nov. 8, in conjunction with the da Vinci series.

The art department of the College invites all students to take advantage of the opportunity of seeing and hearing the outstanding exhibition and lecture, and extends the invitation to nearby advantage of the opportunity of communities.

The da Vinci showing is the major exhibit of the fall season.

Crisis At Colby

While most colleges throughout the country are deeply absorbed in the problem of who will be the country's next president, Colby College is faced with a different sort of problem amounting to a serious campus crisis. Last August the Maine State Highway Commission revealed that the proposed route for the Augusta-Bangor extension of the Maine Turnpike would cut directly across Colby property.

Approximately 200 acres owned by the school would be cut off from the present campus; another 31 acres would be used by the four-lane highway itself. About five years ago Colby moved from its overcrowded, hemmed-in campus near the center of Waterville, to its present location on nearby Mayflower Hill, choosing the new site because it offered few limitations on future expansion of the campus as the college grows.

Many Protest

After the Commission's announcement letters and telegrams poured into the college and to the Highway Commission from alumni and others interested in the college, protesting the proposed action. The various Maine college presidents joined together to urge that an alternate route be considered. Chairman of Colby's Board of Trustees Neil Leonard called an emergency meeting of the Board to "study in every detail the serious threat to the new . . . campus." The planned route "would be a disastrous blow to the future development of Colby," Leonard asserted, pointing out that the college is planning to construct six more buildings in the near future to meet expected increases in enrollment.

The New England College Fund, which represents 24 New England liberal arts colleges, including Bates, adopted a protest resolution. "Surely no college has worked harder to overcome the limitation of a restricted campus," the resolution stated. "To consider limiting Colby's development once again is . . . unthinkable."

Roberts Threatens To Forgive

Author Kenneth Roberts has declared, "If the Maine State Highway Commission commits the contemptible sin of running a four-lane, two-lane or any other highway through the Mayflower Hill campus, I'll publicly apologize to Arnold Toynbee. Maine will have shown itself to be all he said it was." (Historian Toynbee, in his work *A Study of History*, describes Maine as a "backward state, rich in nothing but woodsmen, watermen, hunters and not much beside.")

The State Highway Commission has announced a meeting to be held October 24 at Augusta to hear a report from the highway's engineering firm concerning an alternate route for the highway. Colby and the other Waterville institutions effected by the proposed route, such as Mount Merici Academy and Thayer Hospital have been asked to send 3-4 representatives and consultants to the meeting. The Commission's chief objection to altering the planned route seems to be that approximately 1.3 miles of length would be added to the road, considerably increasing the cost, despite the fact that, according to the Colby *Echo*, federal aid will pay for 90 per cent of the road construction. Also represented at the October 24 meeting will be the Portland law firm of Hutchinson, Pierce, Atwood and Allen which has agreed to handle the case "as a civic duty and without compensation."

Colleges Valuable To State

It would appear that the State Highway Commission has shown definite lack of farsightedness and lack of concern for the growth of an important Maine institution, in its planning of the new highway route. Colleges such as Colby, which contribute educated men and women so vital to our country, increase the prestige of any state and stimulate various types of business in the state. The added cost of an alternate highway route would be far less than the loss to the state resulting from restrictions on Colby's growth. Even if the college were to decide to remain at its present size, a four-lane freeway so near the center of campus adds little in the way of beauty to the area surrounding one of New England's most attractively located colleges. And it is a fact that real estate values of land bordering any limited access highway inevitably tend to fall. If the Maine State Highway Commission cannot bring itself to re-locate the highway route, we would be glad to offer up some excellent suggestions for re-locating the State Highway Commission!

Alumnus Of The Week

Nils A. Lennartson '36

This week the STUDENT pays homage to Nils A. Lennartson, who was graduated from Bates with the class of '36. He is presently public relations assistant to Secretary of the Treasury Humphrey.

From 1945 to 1947, Lennartson served as assistant publicity manager for the Maine Central Railroad. In 1947 and 1948, he was assistant director of public relations for the New England district of United States Steel.

Received Citation

In 1952 he was made first director of public information of the Commerce Department. In the same year, the Air Force honored him by presenting him with the Air Force Exceptional Civilian Service Award for distinguished patriotic service.

In 1953, Lennartson became public information assistant for Secretary Humphrey. In 1955, he was "borrowed" from the Treasury Department to set up a public information service for the Department of Health, Education, and Welfare. Lennartson is a member of the College Club.

Den Doodles

Engaged: Claire Poulin '56 to Allan Damon, graduate of Amherst; Lisa Davis, former Bates student, to Glenn Wilder.

The recent motto at the cabin party at Sabattus was "Out of sight, out of mind" as numerous people hid under the table.

The nickname of the week is "Mouse". This is also accepted at Bowdoin.

Guess what junior is sharing his sleeping bag.

One bird recently fell into a swamp in fruitless search after another bird.

The odds are 10 to 1 that no one can guess what freshman football player almost forgot his address while being x-rayed at CMG.

A certain male staff member of the STUDENT had his fortune told Saturday night and the prophecy was quite amazing. If his expectation comes true the result will make Bates world famous. Congratulations, Bob!

Two clowns left over from Ringling Brothers' Circus visited the Parker Open House Saturday night for their last performance. They had a wonderful time at the circus.

The all-campus 4 point club meets every night at 7 in the library. Hopeful members have to wait in line to secure seats or have co-members save seats for them.

Summer In Spain Includes Bullfight, Alhambra, Prado

Have you ever eaten "squid cooked in its own ink"? Dick Bean, our editor-in-chief, claims that eating this delicacy and visiting the Moorish palace "Alhambra" to be the highlights of his visit to Spain this summer.

Dick traveled to Spain under the auspices of the "Experiment in International Living". This organization sponsors groups of students who spend their summers in a particular country of Europe. Dick lived for two months in Madrid, Spain's capital, with a family which included a son his own age.

Visits Paris

Most of this two months was spent touring and included a two-weeks stay in the Balearic Islands of the Mediterranean. He traveled alone for one week to visit Granada and Cordova in Spain's southern province of Andalusia. He also spent four days in Paris with the entire group.

He explained that, in contrast to the United States Spain lacks the greenery so familiar to us, and instead appears golden and brown. Dick found nights in Spain very cool and days extremely dry and hot.

Misses American Diesels

One of the many interesting aspects of travel Dick noticed was

European transportation. All the group's traveling was done on second and third class trains, the latter having only stiff-backed wooden benches for seats. His longest ride took 18 hours during which he could not leave his seat because of crowded aisles. Passengers range from city dwellers to peasants who carry their livestock with them — roosters often crowing in the night.

One custom that we young Americans take for granted Dick found to be lacking in Spain. There is no system of dating as we know it. Until one becomes "pinned" or the Spanish equivalent, kissing is strictly "taboo" and marriage occurs most often in the late twenties because of economic circumstances.

Enjoys Bullfights

Spain's well-known enthusiasm for the "Bullfight" fascinated Dick too.

"It's very colorful," he said, "and not so much a sport as an art involving great skill on the part of the matador." Along with the bullfight, one of Spain's favorite pastimes was sitting for hours in the numerous sidewalk cafes of Madrid and drinking beer, lemonade, or a nut-flavored milk called "horchata".

Stevenson Offers Nation Sound Formula For Peace

By Bruce Young

In these days when a Presidential election is so important to the United States and the world as a whole, I feel that it is imperative that everyone should know something about the candidates. In this article I shall attempt to acquaint you with the Democratic standard bearer, Adlai Stevenson.

Mr. Stevenson was born in Los Angeles on February 5, 1900. At the age of six his family moved to Illinois, where he grew up. He is a graduate of Princeton University and was admitted to the Illinois bar in 1926.

Receives Largest Plurality

After having many governmental positions under President Roosevelt, he was elected Governor of Illinois by the largest plurality in history in 1948. As Governor of Illinois, despite Republican majorities in the Legislature, he made a brilliant record of reform, economy and efficiency.

Here are some accomplishments of his administration. Without increasing general taxes, he doubled State aid to schools, raised teachers' salaries, and improved retirement benefits. He plugged tax loopholes, saving millions of dollars.

Supports Desegregation

He also desegregated the National Guard, issued and enforced orders against discrimination in employment, and supported desegregation of public schools in southern Illinois.

In 1952 Mr. Stevenson was drafted for the Presidential nomination by the Democratic National Convention. In three

months campaign as a political unknown against General Eisenhower he won 27,314,992 votes, more than any previous winner except Franklin D. Roosevelt in 1936.

Travels Extensively

Since 1952, he has traveled through the Far East, South Asia, the Middle East, Africa, and Europe, gaining first-hand knowledge of the world's problems and leaders. In the process, he has strengthened friendships for America.

Let's now examine Adlai Stevenson's stand on the major issues of this political campaign. In regard to small business he believes in private enterprise, not in unlimited private monopoly over the lives and welfare of millions.

Favors Cooperation

Therefore, he will fight for government programs which will give needed help to small competitive businesses. He is convinced that government and private enterprise must work closely together if we are to clear our slums and house our people.

Mr. Stevenson stands for an adequate program of federal aid to education. He stands for the preservation of the family farm and restoring agriculture to the equality it once had with other parts of our economy.

Believes In Equality

Included in this is price supports at 90 per cent of parity on the basic crops. He stands for the unrestricted right of every citizen to equal opportunity and equal treatment under the law. (Continued on page seven)

Creative Ability Waxes, Wanes As "Garnet" Evolves, Lives On

By Lynn Travers

As seen by glancing through the pages of past *Garnets*, literary talent at Bates has sometimes flowered, at other times gone to seed. In the garden of school tradition college publications reflect not only the times in which they were written but also the writing standards and level of creative ability.

Whether the *STUDENT* was father to the *Garnet* or the *Garnet* gave birth to the *STUDENT* is a debatable question. The original Bates *STUDENT* contained more literary comment, poetry and short stories than news.

In 1916 the *STUDENT* came of

journalistic age when its editors divorced fact from fancy by establishing a magazine supplement to the college newspaper. In 1921 this magazine was named the *Garnet*, but it did not achieve its complete independence from the *STUDENT* until 1932.

The 1916 ancestor of the Bates *Garnet* was a monthly magazine containing descriptive essays, short stories, a one-act play, some very free verse, classroom jokes and political comment on the Mexican Revolution.

Poet Speaks For Editors

In 1917, when Brooks Quimby was editor of the *STUDENT*, an

anonymous poet voiced the cry which countless *Garnet* editors were to take up in later years:

"... now he walks the streets
And he looks at all he meets
Sad and white;
And it seems as if he said,
"They won't write."

It's no cinch to get enough
Of this pure "creative" stuff
Which the staff
Of the *Student Lit.* must use
(Since the weekly takes the
news) ...

Everyman Becomes Everystudent

A clever parody of the Medieval morality play *Everyman* shows the originality of the post-War students. The hero, *Everystudent*, is torn by conflicting desires. With whom will he room — Cheating, Study or Flunk? See the 1918 issues of the Bates *STUDENT* supplement for the answer.

The 1920's apparently roared so loudly that they drowned out the Batesy whispers of young poets. The editors noted a deplorable lapse in literary interest. Although the *Garnet* was rarely published more than once a year, it had at least three regular contributors who were to gain international fame after graduation, Dorothy W. Clarke (Dorothy Clarke Wilson), Gladys Hasty (Gladys Hasty Carroll) and Irwin Canham.

Variety Enters Scene

In 1931, Valery Burati sounded the depths of cynicism. "We are the disillusioned. ... we are old not in years, not in wisdom, nor in ability, but old in sadness ... settling upon us like the dead weight of a corpse, or the dreary wetness of a mist on a meadow heavily, inevitably, and hopelessly."

In the late 1930's and 1940's the *Garnet* grew to full maturity. Stories and poems were illustrated with sketches and full-color photographs. Faculty as well as students contributed writing which showed a remarkable talent and insight.

Contributions Welcomed

As late as 1954, the literary renaissance was still at its height. So much material was submitted by the students that not all the accepted manuscripts could be published. Last year there was so little material that only one *Garnet* was published.

This year the *Garnet* will welcome contributions in any form — poems, essays, plays, stories, political comment, literary criticism — from both students and faculty. There are only two requirements. Manuscripts must be well-written and they must be original.

DON'T DELAY

You may win \$5,000

in The Reader's Digest \$41,000 College Contest. You can match wits, too, with other students in colleges across the country. Just list, in order, the six articles in October Reader's Digest you think readers will like best! That's all there is to it—and you can win a big cash prize for yourself plus scholarship money for your college.

Better act fast, though ... the contest closes at midnight, Oct. 25.

Letters To The Editor

To The Complacent Student Body:

Having witnessed the Friday evening "rally to show our football team that we are really behind them all the way," I appreciate this opportunity to thank the Bates student body for their fine support of the band, the cheerleaders, and above all, the team.

It would be very nice if I could visit each of the dorms and thank individually those people who attended; but after all, I couldn't afford the hour and one-half which it would take to see them all, one minute per person. **Female Frosh Show Well**

As I looked over the crowd, there seemed to be quite a few freshman girls present, permitted to coeducate after 5:30. There were a few freshman men, perhaps one-sixth of their total number.

The other classes were represented by a smattering of students who seemed to be clustered around to see what the band was playing for. Out of this vast crowd came a few cheers and one or two choruses of the Bates Field Song.

I am sure the football team was very appreciative of the group who managed to pull away from their books, pool tables and bull sessions. But what about those students who did not find time? Must we at Bates always be complacent and "let the other guy yell, I've got to study?" I hope not.

A Disgruntled Senior

To the Editor:

I would like to echo the appreciation of the Bates student body by thanking those concerned in the remodeling of Chase Hall Basement. To the student Governments for research in to the problem and presentation of the facts to the faculty; to the faculty for realizing our need and acting upon it with such haste; to Al Johnson and his crew for their work and choice of furniture; and finally to the class of '56 for their television gift — to these people I extend my thanks.

I am sure with the increased usage of the Chase Hall facilities the appreciation of their worth will grow.

'CAT TRACKS

By Norm Levine

For a while it looked as if the Bobcats would go down to their third straight loss of the season. The Garnet, however, came to life in the third period, staved off a Worcester Tech rally, and proceeded to romp to a 26-12 victory going away.

There was no really outstanding player for the 'Cats — they all played extremely well. Until the waning moments of the game, All-Maine Bob Martin was once again the Bobcat workhorse, gaining 89 yards in 21 carries. Fred Drayton, who also played his usual excellent game, saved the day with a fourth down tackle of Don Ferrari on the Garnet one yard line.

Martin scored both of the Bobcats' first two TD's and kicked the two Bates extra points. Bob Muello and John Makowsky both reeled off good gains to spark these drives. The credit for engineering of all four TD marches goes to quarterback Bill Heidel who scored the third himself after setting it up with a long gainer of his own on a sneak play.

All this running by the Bobcats would not have been possible had it not been for the outstanding play of the 'Cat line. Outweighed by as much as 55 pounds in one position the Bates line completely outplayed the Engineers' forward wall and opened up gaping holes more often than not. The Bobcat linemen were led by the tackles, Dick Ellis, Bill Tobin, and John Liljestrang, and the ends, Pete Jodaitis, Jim McGrath, Jim Kirsch, and Brian Flynn. Most of the Garnet running plays were off-tackle and around end. The entire Bates team was excellent on defense except for the first period lapse.

MIDDLEBURY OUT FOR REVENGE

The Bobcats' next opponent, the Middlebury Panthers, will be out to top the Garnet for the first time in four years. The 'Cats topped the Vermonters 13-0 in 1953, tied 7-7 in '54, and edged them 13-7 in a game last year. Many shifts in the lineup as well as more depth and experience will make the Panthers a more dangerous opponent this year.

Middlebury boasts one of the biggest, if not the biggest, blocking backs in the country, in Dick Fusco, their 225 pound fullback. Fusco was a 255 pound tackle last season.

The Panthers, however, have no outstanding star on their squad. They do, however, boast of losing only three men by graduation, thus having 27 returnees including 16 lettermen. In the backfield, freshman Bill Tryder has replaced veteran Roger Tirone, while two other 1955 starters, Pete Cooper and Rosario Rousa have also been beaten out of their jobs.

Middlebury got off to a good start this season by topping Wesleyan 21-6, but since then has tasted defeat twice at the hands of Worcester Tech 7-0 and this past week, Williams, by a score of 33-7.

SPIRIT PLUS!!

A hearty hand of applause is to be given to the entire student body and especially those who attended the game at Worcester this past Saturday. The members of the football team voiced their great appreciation of the sendoff at the bus on Friday night. They were also surprised and indebted to the many students and parents who attended Saturday's contest.

Mention should be made of the appearance of five Bates cheerleaders, who, incidentally, did an outstanding job. Carolyn Cram, Gail Larocque, Pat Lysaght, and two aspiring newcomers, Will Callender and George Schroeder, were admirably aided by the John Bertram cheerleaders and marching (sitting this week) band.

Towards the end of the contest, the packed Worcester Tech stands were drowned out by the tiny Bobcat contingent as the 'Cat footballers were driving to their third and fourth TDs. The Worcester Homecoming crowd was greatly impressed by the Bates spirit.

GOOD DEFENSE IS BEST OFFENSE

Football men are often divided on one question. There are those who think a strong offense is most important, and contrarywise, those who argue that in this era's single platoon system, defensive football is THE thing.

As the Worcester Tech put it in the souvenir program, "We emphasize offensive maneuvers on our team when the other team has the ball . . . We adopt an offensive attitude and try to get the ball." The Tech coach goes on to say that he is a firm believer in emphasizing defensive technique. He says, in closing, "There are many defense formations. We have 16 or 17 available now. Worcester Tech has always thought defensively and has had a good defensive record." Now that the Bates-Tech game is over, these statements seem a little ironic, even though four touchdowns is not considered as high scoring these days.

It is interesting to note that the Bobcats have gained a total of 588 yards on the ground in three games, while holding their opposition to 349 yards. Other offensive statistics are as follows:

Hockey Season Rolling; W A A Starts Calendar

At the last meeting of the W.A.A. Board plans were made to send six members of the Bates Bobettes to the annual swim club conference the weekend of November 17-18 this fall. The two co-directors, Mary Sinnott and Mary Ann Houston, will attend with four other lucky Bobettes. This conference is to be held at Mt. Holyoke College in South Hadley, Mass.

New dorm posters have been distributed to all the girls' dorms on campus. These posters will serve as the official W.A.A. bulletin boards by listing any and all current W.A.A. activities. They are erasable and will be maintained by the dorm reps.

Hockey In Full-Swing

The hockey season is rolling right along. Some of the games have been switched from Thursday to Friday or Wednesday, because of the conflict with house meetings. In this way W.A.A. hopes that more girls will come out to support their class teams.

The time between afternoon classes and supper is planned for the enjoyment and relaxation of the co-eds, and W.A.A. hopes that they will take advantage of the program.

Nangle Heads Committee

Jayne Nangle heads the committee in charge of sponsoring a college playday sometime in November or December. It has been decided to invite several girls from the other Maine colleges for swimming and indoor games.

Some Bates girls will attend, so it is wise to begin thinking about the event if you are interested. Plans for the open house are coming right along. A big surprise is in store for all who attend this short get-together in

UMaine Downs UNH; Bowdoin, Colby Lose

By Skip Marden

Bates' three future Maine series rivals played Saturday — a strong Maine team defeated the University of New Hampshire, 29-7; Bowdoin lost 39-12 to a powerful Amherst squad; and Colby was vanquished by the Springfield College Gymnasts, 27-7.

Maine Rolls On

At Orono, Maine won its third Yankee Conference game in as many starts by defeating New Hampshire, and appears assured of taking the Conference title providing they can get by the University of Connecticut this Saturday. The Bears outclassed the New Hampshire Wildcats on the ground, rolling up 14 first downs, with net rushing yardage of 238 yards.

Much of the yardage came on long runs; a 34 yard run by Thurlow Cooper, Maine's star end, setting up a touchdown by

the Union on October 26, from 5:30 to 7 p.m.

Some evening in the near future the Board will have a supper meeting at the Union. Peggy Leask is in charge of the menu, with many surprises in store for connoisseurs of good food. Special guests are to be Miss Drake, Miss Cain, and W.A.A. advisor, Prof. Walmsley.

The continued safety program is being extended by the addition of an available stretcher in the W.A.A. closet at Rand Gym. This is part of the program in conjunction with the ePhys. Ed. department and the infirmary.

In this manner W.A.A. hopes to avert any serious injuries or their after-effects. This and many other services are available to all Bates co-eds through their W.A.A.

halfback, Ray Hostetter; a 55 yard run by Hostetter; and touchdown runs by Thibodeau, a halfback (83 yards); by Bower (22 yards); and Nelson for (22 yards).

Parady Passes

In the air, however, Maine's Ken Parady, a talented passer, who should have had a better percentage than he did (6 out of 14), was out-shown by the Wildcats' Bob Troville who led the way to New Hampshire's only score.

Both lines played outstanding games, but the Maine line contained the Wildcats more consistently not allowing the long gains. The outstanding Maine players, to watch for on October 27 appear to be Cooper, a huge end; Parady, the quarterback; and the rugged Maine defensive line, Garabedian, Provencher, Denbow, and Tarazewich.

Strong Bowdoin Aerial Attack

At Brunswick, in front of 4,500 spectators, the Bowdoin Bears were defeated by a far superior Amherst squad, who, leading at the half (33-6), were able to use substitutes freely the remainder of the game. Gaining only 82 yards on the ground, the Polar Bears' best offensive attack was through the air, where Stover and Drenzek completed 17 of 35 passes for 193 yards.

One of the few bright lights for Bowdoin was the outstanding defense work of Dave Grosse and Peter Dionne. Having lost all three starts, the outlook for Bowdoin seems pretty dim.

Mules Lose

The Springfield College Gymnasts used a strong passing attack to defeat Colby 27-7, as the Mules were subjected to third defeat in a row. The combination of George Benedict and Les Plumb, end and quarterback respectively, clicked for three

The only outstanding play of the day for Colby was an electrifying run by Al Rogan, fullback, who ran a punt back 85 yards with excellent interference for a touchdown.

The only consolation for a badly beaten Colby team, still reeling from last week's 42-0 rout, was that the team they were facing is ranked among the top small colleges in New England.

STATISTICS

Rushing	Carries	Net Gain	Avg. per Carry

Bobcats Trample Engineers, 26-12

Garnet Face Middlebury In Last Game Before State Series Action

By Dick Pavaglio

Bates' fighting Bobcats return to Garcelon Field this Saturday to play host to the powerful Middlebury Panthers. Fresh from a hard-fought victory over Worcester Tech, the Bobcats will be seeking to preserve their winning ways against the Vermont gridders who are a much better team than they have shown to date.

Fusco Leads Panthers

The Panthers, under the direction of Coach Duke Nelson, operate mainly from a single wing formation that is sparked by 225 pound Dick Fusco and 180 pound fullback Floreal Lavin. Both have been pleasant surprises this season.

The rest of the backfield is made up of returning serviceman

Pete Aldrich, and right halfback Bill Holmes. Another pleasant find in the backfield has been freshman Bill Tryder who gained over half of his team's total yardage against Williams.

Johnson Heads Line

The forward wall is headed by Captain Harry Johnson at center. The guards are Jim Wallace and Ron Sundstrom, tackles are 225 pound soph Bill Ryan and Barclay Johnson. The end positions are held down by Ron Weisner and Milt Peterson.

Middlebury got off to a good start with a 21-6 victory over Wesleyan that was sparked by Fusco. However, they were upset in their next game by an underdog Worcester Tech team 7-0.

Saturday they were decidedly outplayed by an undefeated Williams College eleven 33-7.

Panthers Up For Game

The Panthers should be up for this game because they have been unable to defeat Bates the past four years. In 1953 Bates was on the long end of a 13-0 score. In 1954 the two squads tied 7-7 when Middlebury scored on a last minute pass play. Last year found Bates again on the long end of a 12-7 score.

Rated Tossup

The game promises to be a well fought contest between two evenly matched teams. It should also serve as a preview for Bates fans who are awaiting the up-and-coming Maine State series.

The Starting Lineups

Bates		Middlebury
Jim McGrath	RE	Ron Weisner
Dick Ellis	RT	Barclay Johnson
Wayne Kane	RG	Ron Sundstrom
Jerry Davis	C	Harry Johnson
Jim Geanakos	LG	Jim Wallace
Bill Tobin	LT	Bill Ryan
Pete Jodaitis	LE	Milt Peterson
Bill Heidel	QB	Dick Fusco
Bob Martin	LHB	Pete Aldrich
Fred Drayton	RHB	Bill Holmes
Paul Perry	FB	Floreal Lavin

apathetic towards government.

"They don't generally seem to be crazy about Franco," said Dick, "but realize that he has put the country back on its feet and are content to leave him in authority."

"Many believe in Democratic principles, but feel that democracy just won't work in Spain."

Enjoys Prado

The Prado museum was high on Dick's list of praises. It was a great thrill for him to see the original paintings he had studied in Cultural Heritage.

He found that there was much poverty in Spain.

"My Spanish family, particularly, could not do enough for me," he stated. Dick said that he has had a wonderful experience and wished he'd had time to see and learn more.

Dick repeated, "Spain is really a beautiful country."

Summer In Spain

(Continued from page four)

Bates College eating habits are very much out of vogue in Spain. Breakfast there is served anytime from 8 to 11 a. m. Lunch was eaten at 2:30 p. m. and dinner at 10 p. m. Dick was amazed at the enormous amounts of food the Spaniards consume. He was thought to have a very small appetite. One of his favorite dishes was called "Pavella" which consisted of saffron flavored rice with bits of ham, clams, shrimp, chicken, peas, and pimento.

Interested In Politics

Dick was greatly interested in the political atmosphere in Spain. He found that most Spaniards are

Stevenson

(Continued from page five)

He backs the Supreme Court decision on segregation in the schools, and feels it is 'our duty to find the best course by which the Court's decision can be carried out peacefully.

He believes in an America where "the liberties of all are safe because the liberties of each are defended, and where every man has the freedom to think, to speak, to doubt, and dissent".

Wants Peace First

In conclusion, I am quoting from one of Adlai Stevenson's speeches concerning the problem of peace. "Our greatest hope, our most consuming aspiration, is for peace. And finding peace and security in this seething cauldron of crises is a fulltime job for a fulltime President."

"There is only one sound formula for peace. It consists of a sturdy defense, a free and strong alliance and sustained resistance to Communist expansion — coupled with all possible assistance to help less fortunate people build their economic strength."

69 SABATTUS STREET

Two Last Minute TD's Insure First Victory

By Pete Alling

The Bates Bobcats came roaring back in the second half with a scoring outburst of 20 points to submerge Worcester Tech, thus assuring themselves of their season's initial victory by a 26-12 count.

Engineers Score First

The game, played on Worcester's sun-soaked field, saw the Engineers draw first blood with a first period touchdown, which pleased their homecoming crowd no end. However, the 'Cats retaliated mid-way through the second stanza to knot the score, 6-6. Burly Bob Martin put the 'Cats ahead to stay seven minutes later with a two yard plunge which capped the victors' spurt from the 15 yard line. His conversion was good so the scoreboard read 13-6 until the beginning of the last period.

It was then that diminutive Don Ferrari completed a 19 yard pass to halfback Paul Kerrigan for Tech's final TD. Ronnie Pokraka was unable to kick the point after touchdown because of a high pass from center.

Two Late But Quick TD's

The majority of the fourth period saw the 'Cats eating up 70 yards to score the clincher with only 2½ minutes remaining in the contest. The prolonged drive ensued the kick-off which followed the Tech touchdown and was climaxed by a 2 yard quarterback sneak by sophomore Bill Heidel.

Freddie Drayton then intercepted a misguided Tech pass on the very next play from scrimmage and streaked to the losers' 30 yard line where he was finally pulled down. A clipping penalty sent the ball back to the 45 but Johnny Makowsky more than regained the lost yardage by rapping through the Engineers' line and secondary for a 30 yard thrust.

Burgess Bucks Over

A fifteen yard penalty levied against the hosts for unsportsmanlike conduct moved the pigskin ahead to the one yard line where freshman scat-back Jack Burgess dove over for the tally with only five seconds remaining.

This scoring spurt in the closing minutes of the tilt suddenly iced the game and, as a result, the Hatchmen were a jubilant bunch coming off the field.

Lussier Intercepts

The Garnet began to disappoint its small but colorful band of followers in the opening canto when WPI opened the afternoon's scoring by capitalizing on a misfired Bobcat pass which Don Lussier ran back 17 yards to the 'Cat 19 yard stripe.

After several line bucks sophomore halfback Ferrari, from Athol, Mass., scampered off tack-

kle for the last ten yards to pay-dirt. The attempted conversion off the toe of Pokraka was wide.

Martin, Perry Show Way

However, with Co-Captains Martin and Perry showing the way, Bates drove 44 yards via their bruising ground attack to tie the game. It was Marblehead senior Martin who finally scored from five yards out. His attempt for the extra point was blocked by the charging Worcester line.

A dropped pass from center by Lussier, who was back to punt, gave the 'Cats the ball on their opponent's 15 and set up the visitor's second touchdown.

Bobcats Clinch

The Engineers threatened on the next succession of downs but fell short on the Garnet one yard line on fourth down after moving 67 yards in an attempt to knot the score. When Tech finally did tally their second touchdown, Bates waited until the final two and a half minutes to score their last two markers which blew the game wide open.

Instrumental in the strong play of the supposedly green Bates forward wall were John Liljestrand, Bill Tobin and freshman Dick Ellis, as were the four ends, Jim McGrath, Pete Jodaitis, Jim Kirsch and Brian Flynn. The entire line clearly out-blocked and outcharged their heavier counterparts.

Play Panthers

This Saturday the Hatchmen play host to the Middlebury Panthers with Bill Tryder and Co. The victorious 'Cats, off with this exciting win at the hands of WPI, can be expected to continue their winning ways and thus enter the State Series with two victories under their belt.

The summary:

Punt avg.	34.2	36.0
Yds. penalized	55	30

Q. Why Are Viceroy's 20,000 FILTERS Made From Pure Cellulose?

A.

Because cellulose is a soft,
snow-white material...
the same pure, natural substance
found in many of the good
foods you eat every day.

Only the exclusive Viceroy tip contains
20,000 tiny filters made from pure cellulose—
soft, snow-white, natural—*twice as many filters*
as the other two largest-selling filter brands.
That's why Viceroy gives you...

The Smoothest Taste in Smoking!
Smoke Smoother **VICEROY**
