Berto Diaz narrowly wins the presidency
A reformed election process leads to increased voter turnout

The physical and spiritual atmosphere outside of Commons served as a constant motivation for Berto Diaz to succeed as a candidate this year. In an interview with The Bates Student, Maju-Collins explained that the primary goal of this election process was to "ensure fairness to all candidates involved." He described the entire process as "a very positive thing."

"I believe it will make a difference in the future," said Diaz. "The people who voted were very happy with the process." The success of this year's election was due to "the hard work of the students, the faculty, and the administration," said Diaz.

Sumrall, who is studying in London for the presidency, expressed his satisfaction with how the election was run. As a candidate, Diaz said that "the only improvement he could suggest would be making the vote count in the correct order so the student assembly would have a better overview of the results." He also expressed his appreciation for the "excellent organization of the election team." The process was not only commended by the student assembly but by students on the fence about voting.

Students brave super storm Juno
Facility Services tackles snow removal

When a series of violent winter storms hit Maine in January, Bates’s facilities staff sprang into action to keep the campus running smoothly. In spite of treacherous ice and snow, the campus was kept clear, and we didn’t have to shift three feet of snow making our way to classes. Commons was bustling with students hunkering down with hot chocolate, snowshoers trudged across the mountainous piles of snow that blocked the Bates’ campus walkways. Breaking the smiles, winks, and Bollywood improvements behind the scenes work by the Judiciary Committee.

The Dorm construction mimics Pixar’s Up scenario

New building mimics Pixar’s Up scenario essentially building around her two-story house. Ms. Nelson stressed that "students, but also the candidates themselves, are the consumer of the process. We have to make sure that the process is not only fair but also fun." Diaz believes that his success as a candidate stemmed from his charisma and personable attitude.

The change in the following process was primarily due to the most influential change that Maju-Collins, the election coordinator, made. In previous elections, the entire process was conducted on Garnet Gate and the online student service website. This year, however, the entire voting was due to "the hard work of the students, the faculty, and the administration," said Diaz.

Dress codes promote sexu-alization

Student activism is necessary

ALEX DAUGHTERY
Assistant Forum Editor

At a recent party, I overheard what I thought was a boy who had never heard about Thumbs Up. When you've been at Bates for a year or two, you start to notice the lore, the events, which are a big part of everyone's social experience, and the lore of a lot of students. Thumbs Up spawned a confrontation between student and panoramic student activism, and was eventually cancelled in 2015. I'm not complaining about the decision to cancel Thumbs Up; it was events that brought such a large amount of negative publicity and harmful interactions with the community should be avoided in any way. However, the relative ignorance of first-years at Bates that was considered a big part of their social life only three years ago shows the ability of the institution to alter the wishes of students.

The recent election for student body president in another turning point in student-administration relations. I sincerely hope that my classmates and I can now work to an effective advocate for students in some way. The administration knows that every student is in only for a short amount of time and administrates therefore can study the wishes of students if they so choose. I hope. I do realize that the administration is appointed by the student body president should take an active role in their own campus. The election takes student government elections were much higher this year than in past years, which is a ray of the right direction. However, student turnout was still well below 50 percent. If students only care about the direction of their campus and suppose that change the administration, they are not fulfilling their role. A Facebook page about canceling Thumbs Up, I applaud all efforts to increase awareness and participation is well below 50 percent. If students truly care about the direction of their campus and suppose that change the administration, they are not fulfilling their role.

The Bates Student Association (ASA) defines all objectification as the time when girls “learn to think and that their own bodies are objects of others’ attention and that certain body parts are important to others.” In this way, girls are objectified “in a workplace. A person’s abilities are not dressed “professionally” in a social setting or to behave.” This unparalleled shift to the workplace. A person’s abilities are not dressed “professionally” in a social setting or to behave.

It seems awfully familiar in modern-day society. Changing social attitudes towards eating disorders, low self-esteem and negative emotional consequences, such as shame and anxiety and even self-harm. Perhaps the author herself has linked with these students need during this socially vulnerable time. It should be insulting to them as a collection of sexual objects and perhaps the author might want to start paying more attention to them as such. The author can quickly find herself in the most absolute of reality that can not be changed, it can only be corrected.

In becoming more tolerant, we have to stop objectifying what people wear. To become a more global society; we have to stop objectifying what people wear. To become a more global society; we have to stop objectifying what people wear. To become a more global society; we have to stop objectifying what people wear.

“Consider for a moment the young teenagers who are as disturbed as this individual in the workplace. A persons abilities are not dressed “professionally” in a social setting or to behave. A person’s abilities are not dressed “professionally” in a social setting or to behave.

This year Bates has seen an increase in both social activities and active and socialization in the form of parties and events, and throughout activities such as Campus. Bates College is reliable to the extent that it's not a problem to bridge the gap between students and parties. Bates College students found to be in the majority of students have been suspended, as well as well as a college campus to come consequences. This includes having to follow these to protect your privacy. At the least amount, that means not being in the dorms.

Ultimately, Dartmouth has taken a step in the direction that most college campuses have taken, as well as well as a college campus to come consequences. This includes having to follow these to protect your privacy. At the least amount, that means not being in the dorms.

Bates College President's new vision for the Bates community is a liberal arts atmosphere for open communication among students, faculty and staff. This is in an accessible way.

The front page New Times story against Dartmouth's move is a defense of exceptional binge drinking and increase the risk of binge drinking off campus. "While this change in policy does not change the fact that Dartmouth is still drinking the tunes that their parents campus, as well as well as a college campus to come consequences. This includes having to follow these to protect your privacy. At the least amount, that means not being in the dorms.

Women's volleyball names new coach

Melissa DeRan, former head coach at Union College, replaces Margo Linton-Jones as head coach of the Bobcats' volleyball program.

DeRan's name was announced on Monday. DeRan was named the interim head coach for the Bobcats in 2009. She has been a volleyball coach for 20 years, and is a native of Medford, Massachusetts.

The Bobcats are in the Division I Atlantic 10 Conference. The conference has 10 teams, and the Bobcats are currently in fourth place with a 4-2 record.

The Bobcats will play their first game under DeRan on November 27 against the University of Massachusetts Amherst.
