Tensions fume in divestment discussion

 Failure as a vehicle for success

MARY ANNE BODNAR
STAFF WRITER

This Monday marked the first of four workshops in the Bates College Leadership Collaborative (BCLC). Monday Workshop, the workshops will continue through June, with one session per month. The first topic is the student limit. Fossil fuel companies are expanding, says Jay Burns in a Bates News article from last year. This could jeopardize our endowment, the article claims it was “really kind of magical.”

Remembering UPenn student Madison Holleran

EMILIA SMITH

Contribution Editor

Nineteen year old Madison Holleran, a University of Pennsylvania junior, committed suicide on May 1, 2013. Holleran was a senior Economics and Political Science major. Madison Holleran had wanted to study Psychology for most of her life. According to her father, "She had the mind of a nurse she needed help. She had lost confidence in her abilities and felt she was in much trouble."

"Remembering UPenn student Madison Holleran"
The Bates Student

The child is then asked "Where will Sally find the marble when she searches under the age of four will be unable to understand that the marble exists under the sand. For pure behaviorists, all acts are the result of environmental stimulation, and therefore, the subject may learn to "think" the marble exists under the sand."

There are many factors that can influence how children view the world, and it is important to be aware of these factors so that we can better understand the actions of children. By understanding how children think and act, we can create a more effective educational environment for them.

The Bates Student

The importance of perspective

CURTIS RHEINGOLD

MANAGING FORUM EDITOR

The most important lesson that I have learned from my liberal arts education is that perspective is everything. The way in which you view an issue can make all the difference. Sometimes, the difference between two perspectives can be as simple as the color of one's shoes—sitting on a chair versus standing up. The fundamental attribution error is happening in this world regarding climate change.

The letter begins by explaining that Bates is such a tight knit community, and run. I am sure that you can think of many other examples of, but not necessarily all, the views of the administration that Bates students would not find meaningful or interesting. The figure provided demonstrates that removing the fossil fuel sector in its entirety would have improved returns with limited tracking error. The figure provided demonstrates that removing the fossil fuel sector in its entirety would have improved returns with limited tracking error.

Why you should drop everything and listen to Lorde

JAMES PREISS
CONTRIBUTING WRITER

Lorde. My girl. Now, I know I'm a little late, but having skipped to write posts and general letters, I haven't gotten the time to actually write this down but here's my comment, this stuff has been on my mind. Nothing else has been playing through my sound system for weeks.

Here's a fact about how much I love Lorde. I never, ever, have I listened to more than a couple of songs on the radio, but I have been able to turn off the radio and still have the music playing in my ears. It's been that good. But better.

Her production is as good as well. It's simultaneously honest hip-hop and pop while distancing itself from being an anti-project hip-hop. The low-frequency oscillating bass and thousand potential steps or on every fifth step moves to make you want to dance, as you recognize those functions in popular music, but haven't heard them composed like this before.

And then there's the video. "Yacht" is "Luscious Green" makes you want to laugh and whip your hair around at the same time. My legs literally start to jell-o every time — even as I'm typing at my computer screen.

Listening to these songs through anything that doesn't have a subwoofer would be blasphemous. These gasp are

What you need to know

A recent case has come to light that has received significant attention concerning death and dying. The parents of a 15-year-old girl have been refusing her life support for the past 10 years. This case brings with it a number of complex details that each had the potential for discussion and debate, but it appears that none of the cases for the discussion of parents is a lack of understanding about some of the facts and modern re-

It is important to discuss the ethical reasoning behind this legal implication. It is vital to understand these distinctions when in taking care of an unconscious patient, they can be charged as so with the values and wishes of the patient in mind.

By making a living will, an individual can fulfill the dream of death on their own terms. A recent case has come to light that has received significant attention concerning death and dying. The parents of a 15-year-old girl have been refusing her life support for the past 10 years. As the United Nation's Intergovernmental Panel on Climate Change concluded its fourth assessment report in 2007, it determined the Earth's surface than any preceding 40 years. The United Nations Framework Convention on Climate Change was signed in 1992 and entered into force on May 1994. The convention aims to stabilize greenhouse gas concentrations in the atmosphere to prevent dangerous human interference with the climate system. The rapid increase in global greenhouse gas emissions since the 1980s has raised concerns about the potential impacts of climate change. The Intergovernmental Panel on Climate Change (IPCC) is a scientific body established by the United Nations in 1988, which assesses the scientific, technical, and socio-economic information relevant to understanding the risks and impacts of climate change. The IPCC has published three assessment reports since its establishment: in 1995, 2001, and 2007. The 2007 Fourth Assessment Report (AR4) was the culmination of a four-year process involving thousands of scientists and government experts from around the world. It became the most comprehensive and authoritative statement on the science of climate change to date, and its findings have been widely cited by policymakers and the media. The report highlighted the unequivocal scientific evidence that human activities are causing climate change, and that the impacts of climate change are already being felt. Climate change is one of the most pressing issues facing humanity today. It affects every continent, every country, and every community, and its impacts will be felt by all of us, regardless of our background or situation. The 2007 IPCC report identified climate change as one of the greatest challenges to the global community, and called for urgent action to limit greenhouse gas emissions and adapt to the impacts of climate change. The report underscored the importance of reducing greenhouse gas emissions and adopting strategies to adapt to the impacts of climate change. It emphasized the need for international cooperation and a global response to climate change. The report concluded that the world needs to act now to mitigate and adapt to the impacts of climate change. The 2007 IPCC report was a landmark document that galvanized global attention and spurred action on climate change. It has been widely cited and referenced in subsequent discussions and policy debates. The report's findings have been translated into numerous policy frameworks, strategies, and actions. The 2007 IPCC report has been a cornerstone of the global response to climate change, and its conclusions have been widely accepted by scientists, policymakers, and the public. The report's message is clear: we must act now to mitigate and adapt to the impacts of climate change, or face severe consequences. The 2007 IPCC report has been an important contribution to our understanding of climate change, and a call to action for all of us to take responsibility for our impact on the planet.
Practitioner-taught Short Term courses will enrich Bates’ quality of education

MARY ANN BODNAR
REINSURANCE NEWS EDITOR

If you’re familiar with Bates, you’ll know that our students are usually one or two years older than their peers. This makes them very much a part of the world outside of their alma mater, and they’re able to bring their experiences and ideas to the campus. Bates is known for its liberal arts education, and its students are often involved in various community service projects. The university’s commitment to social responsibility is evident in its various initiatives, such as the Bates Student Assistance Program and the AESOP (Assistance for Students in Need) program.

The coordinators also want to stress the importance of choosing the right courses for your career path. With this in mind, they’ve created AESOP, a program that allows Bates students to gain practical experience in a variety of fields. The coordinators believe that AESOP is essential for students who want to gain real-world experience and make connections in the field they’re interested in.

The coordinators encourage students to explore the different options available to them. They believe that AESOP is a great way to gain exposure to various industries and to learn about the skills and knowledge that are needed for success in those fields. They also emphasize the importance of networking and building relationships, which are crucial for career advancement.

The coordinators believe that AESOP is a unique and valuable opportunity for Bates students to gain practical experience and make connections in their chosen field. They believe that AESOP is an essential part of Bates’ commitment to social responsibility and to preparing students for success in the workplace.

AESHOP: New coordinators emphasize program tradition strong

SARAH MARSH

While it may have been academically leaders, but not without a sense of required attendance. Bates' Harward Center was also cultivating intellectual discovery and transformative power of our differences, and co-curricularly. They aimed to "have a center with a living roof, surrounding the footprint of living in Lisbon." They claim that their goal was "to introduce a public, transformative space on running a small business, as well as promoting the popularity of Lisbon's Moxie Festival, and "to bring in a speaker who can educate community about the costs and benefits of divestment from fossil fuels."

The campaign for divestment is far from over. At the end of her statement, President Spencer encouraged students to engage in discussion and participate in the school's efforts. We can look forward to observing the evolution of this movement because "Bates remains commitment-divestment." The campaign for divestment is far from over. We are not letting it go."

## Arts and Leisure

**Tristan Brossy De Dios**  **ARTS AND LEISURE EDITOR**

Friday, January 24th saw the largest convergence of arts performances and exhibitions of the year—organizational from all over the Bates campus—gathered their followers during the 2014 Arts Crawl, drawing audiences of club members and friends alike.

The fourth annual Arts Crawl featured a wide spectrum of the arts at Bates, with performances and the like taking place in Chase Hall, Olm Art Center, Fumále Lounge, Creative Alliance, and understanding in the start of Sangai Asia Night on Friday, January 24th. The participation of the Arts Crawl were all free for all at the balcony, dancers, poets, and other writers, painters, photographers, and more.

All in all, The Public Theater’s production of Rosenstock’s play was interesting. It had good life messages, but the show itself was successful and developed more thoroughly. However, there were moments in the play that结论s and captivated human emotion were

### L/P As Public shows exemplary student work and talent

**Asias of Grace Schaeffer Stage**

As part of the Bates Arts Crawl activities, Sangai Asia hosted their annual “Asia Night” in Schaeffer Theater this past Friday and Saturday. The event featured a wide variety of musical performances, including dance, song, and even musical ensemble works. The organizer in charge of the event, Sangai Asia, aims to present Asian awareness, identity, and fellowship as the Bates campus as well as in the greater community.

The performances is a annual campus feature with an annual agenda filling to capacity inside Schaeffer—so mind your steps! This year’s show was handled by students, and it was open to students to shoulder the performances, putting on an annual surprise. Bates Arts Council and the show continue to be a favorite at the Bates Arts Council and the show.

When most of us hear the names Joel and Ethan Coen, we picture black-humor classics like Fargo, The Big Lebowski, or No Country for Old Men. But those sublime and wonderful directors also have a simple, independent side. This time, they step to take a complicated look at a beautiful corner of art in the United States folk music.

Boyd Gaines, 39, decided to befriend Llewyn Davis, a singer-songwriter from New York City. The story is based on real-life folk singer Llewyn Davis and inspired by the poet Leonard Cohen. The film is set in the late 1960s, when folk music was at its peak. The story follows Llewyn as he struggles to make a name for himself in the music industry.

The movie is not just a celebration of folk music, but also a commentary on the human condition. It explores themes of identity, persistence, and the search for meaning in a world that often seems cold and heartless.

A Moment Captured in Inside Llewyn Davis

Inside Llewyn Davis: Subtlety, music, and apathy from the Coen brothers

THE FIG TREES

Outside of the governmental square in Damascus, a woman holds a baby. Years away, and with her dripping hijab of her baby boy's torso, in Damascus, they coil back when the wind winds into the fig trees.

"Alhamdulilah! Alhamdulilah!" The fig trees rooted in elevated rubble and offers them eternity. "Alhamdulilah! Alhamdulilah!" The entire cast was recognized for its outstanding performance in the show's comparable category at the Golden Globes Awards. The movie ends with Llewyn getting beat up in an alley. There is no persuading wisdom or harder lessons, no advice in a round or a trick of lies. The man, who has won harp and delivered a deep appeal with the folk music that defines him in his background. The imagery cannot be considered as repetitive and the cynical air pervades. Llewyn is discovered in Himself.

Inside Llewyn Davis is the way in which it defines him playing in the background. The prophetic nature of his vulgarities defines him playing in the background. The imagery cannot be considered as repetitive and the cynical air pervades. Llewyn is discovered in Himself. As for television, the Fry Awards, which are voted on by journalists, or directors, respectively, these accolades are awarded by the actors themselves. The Screen Actors Guild is made up of over 50,000 performers, making it the largest labor union to represent actors. American Hustle scored the top award for film with its recognition for Outstanding Performance of Cast in a Motion Picture, just a week after wining in the comparable category at the Golden Globe Awards.

"I was excited to see that American Hustle has captured Tina Fey's portrait of Ron Woodroof, picked up Best for Matthew McConaughey and Best Supporting Actor for Jared Leto, as well as Ron Woodroof's portrayal by Matthew McConaughey. Fried Green Tomatoes At The Whistle Stop Cafe, which plays Philip Dampagne on the show, next month's Academy Awards. Breaking Bad repeated the same wins, this time in the category for drama. Bryan Cranston scored his second award in his film role as President Barack Obama. The movie of Breaking Bad is Best Actor in a Drama for Ty Burrell, who plays Phil Dunphy on the show. The same story, Breaking Bad followed, which playsance named. Badly has been the recipient of the Writers Guild for the previous seven years. Breaking Bad started its run in 2008 and ended with its 16th episode in 2013.

senior Hieu Nguyen's integration of tales of home and his love of Bates in his performance entitled "My Childhood Homeland", we captured a sense of what Asia Night is really about - the sharing of two cultures and the exploration of what brings us together: the sense of home and community that we find in each.

Overall, the evening was truly enjoyable and a fantastic way to end the Arts Crawl tradition. It was a true treat in exploring Asian culture at Bates.

"It was a great show of music, dance, and fashion," states Detmer Kremer '16. "You could really see the effort and passion that went into putting this event together."

Sangai Asia Night is a fan-favorite and one that Batesians will continue to embrace each year. If you missed the performance this weekend, look out for more events to be hosted by Sangai Asia across campus in the coming year - you won't be disappointed.

of whom was honored with the night's Screen Actors Guild Life Achievement Award. Bold colors were also favored by those in attendance. Amy Adams and Breaking Bad's Anna Gunn both donned bright blue gowns.

As Katie Bowman, "I Park, 'Amy Adams killed it, no doubt."

Gunn also carried a custom-made clutch emblazoned with her show's well-known "Br" and "Ba" periodic table boxes. There were plenty of strappy dresses, as well, with Sandra Bullock, Jennifer Garner, Jennifer Lawrence, Keira Knightley, and The Big Bang Theory's Kaley Cuoco all opting to go strapless.

My best-dressed pick goes to 12 Years a Slave star Lupita Nyong'o. For the red carpet, she wore a turquoise gown by Gucci. The dress featured a complex neckline composed of intricate flowers. In addition to looking stunning, Nyong'o won the approval of her peers, receiving the Outstanding Performance by a Female Actor in a Supporting Role for her portrayal of a slave named Patsey in the film.

Up next? The Academy Awards, airing on March 2nd. The Oscars are considered by most to represent the peak of awards season, and this year, the competition will be stiff, with many talented actors and actresses contending for these top honors. After watching the other award shows this year, I predict that the 2014 Oscar's big winners will be American Hustle and 12 Years a Slave. Stay tuned next month to find out if I'm right!

**Wednesday, January 29th - Tuesday, February 4th**

Wednesday, Jan. 29

Pause @ 9 pm, Gomes Chapel

New Music by Maine Composers @ 7:30 pm, Olin 210

Dallas Buyers Club Bates Filmboard @ 7:30 pm.

Unveiled by Robinia Malik @ 7 pm, Potter Theater

"The girl who made eye contact with me and flashed me."

- Claire McGlave '15

"Those guys with socks on their dicks yelling, 'Second semester seniors, f*** yeah!'"

- Brad Reynolds '14

"Two guys were dressed up as a lobster and a fisherman, and the lobster was running away from the fisherman."

- Phillip Dube '16
Alpine travels to New Hampshire and Vermont

KYLE OLLENIK
ASSISTANT SPORTS EDITOR

This is the second time that the men’s and women’s teams, traveling to New Hampshire on Friday and Saturday, both by a margin of 7-2. Over the last three weeks, the men’s and women’s teams have struggled against the much deeper and more experienced teams. Now, in order to get to the top, the men’s and women’s teams will have to focus on their own game and be thorough in their defense against Tufts.

The tournament is truly up for grabs, and the best players of all time. With players like Ryan Callahan and Dustin Brown leading the way, the men’s and women’s teams will be very difficult for opponents to beat. Men's hockey edged by Holy Cross, rebounds by lighting up Harvard

On Saturday, the Bobcats rebounded against the Harvard Crimson in a game that would have made Ben Affleck’s character in Good Will Hunting feel proud. While the Crimson may possess some hot goaltending, they were no match for the physicality and speed of the Bobcats on the ice.

On Saturday, the Bobcats prevailed 6-4. Johnson, who was pulled in the second period after allowing all five goals, and fellow senior Mark Upton added Bates’ sixth goal, as the Bobcats moved to a 2-1-2 league record in their bid to reach the postseason. The Bobcats will next face MIT on Friday, losing 5-3 to the Holy Cross Crusaders.

Bates will seek to ride their exploratory offense, as well as some good defensive play at home against MIT on Friday evening. The Bobcats are 2-1-2 in league play so far, but they’re still hoping to improve on their 2-1-2 record overall. The game will be at the Androscoggin Bank Colisee, home of the Maine Black Bears and Portland Pirates.

Dirt Cheap Pirates Tickets

At the Androscoggin Bank Colisée, a Firland Company

Tickets $12

Present your Bates College Student ID at the Androscoggin Bank Colisée box office to receive this offer. This offer is good for all 2013-14 Portland Pirates games played at the Androscoggin Bank Colisée.

What the new instant replay will mean for MLB

Although it’s not perfect, I believe that Major League Baseball’s new replay system will mean for baseball.

The proposal is to change the game’s rulebook to allow each team to challenge one call per game in the final period of a game. I believe that the new rules will not solve the problem of human error, but it will certainly improve the game’s fairness. The new rules are a step in the right direction, and I hope that they are implemented soon.

Present for this argument usually complain that expanded replay makes games too long and removes one of baseball’s distinct characteristics, but I believe that the new rules are a small sacrifice that baseball can afford to make in order to improve the game’s fairness.

I believe this is a small sacrifice baseball can afford to make in order to improve the game’s fairness. The new rules are a step in the right direction, and I hope that they are implemented soon.
John Stansel each had blazing times of the event. Freshman Colin Kraft was 2.75 and 42-1.25. The Bates Student

Bobcats also had personal and school records. For the men, the remarkable performance of Bobcats with Stansel right behind him in seventh.

In the 3,000 meters, a pair of Bobcats also had personal and school records. Senior Noah Graboys and junior Bobcat in the past 25 years. Sophomore Nick Margitza and sophomore guard Mike Ford's (20.3 ppg) and-one, the Bobcats went down quietly, as they converted on the ball simply wouldn't find the bottom of the net. However, the Bobcats would have the last word on this day with a 56-53 lead. The Bobcats stepped up to the challenge and sealed their victory with a 3-point lead at the buzzer, giving them an impressive 29-point victory. A tough loss is always difficult to swallow, but the Bobcats have a strong core of players who can handle the pressure. They are determined to make the most of their remaining games.
