THE VOICE OF BATES COLLEGE SINCE 1873

Letters from abroad: sam thomas in Krakow, Poland

Life in Poland is everything I thought it would be. I chose it for my abroad experience, and nothing like I thought it would be. Although I had been to Europe before, I never had the chance to speak the same language. The only time I've seen people hurry around food, dress, and lifestyle of Krakow is relaxed. The lifestyle of Krakow is relaxed. The Krakow and Jerusalem connect.
A chat with Ed Walker ’02

Peter Conover

“Walkie” knows his way around campus. Whether he is helping students navigate the Bates Student Handbook or giving heartfelt advice about a good life, he is always there to guide and assist them. Walker has been a beloved figure on campus for years, and his wisdom and guidance are widely respected.

Walker graduated from Bates College in 1974 and returned to his alma mater as an instructor in 1977. He has been at Bates ever since, serving as the Director of Residence Life and as an advisor to students. His contributions have been immeasurable, and he is widely respected for his kindness, wisdom, and leadership.

When asked about his time at Bates, Walker said, “It was an amazing experience. I learned so much from my time here, and I carry those lessons with me to this day.”

Walker’s advice to students is simple: “Find your passions and pursue them with all your heart. Don’t be afraid to take risks, because you never know where they will lead you.”

Walker’s wisdom and guidance are a testament to his commitment to the Bates community, and he continues to be an inspiring figure to all who know him.

Diverse group proposes reforms to Student Conduct Code

AMELIA OLIVER

STAFF WRITER

The Bates College Student Government has been under review by a diverse group composed of faculty, staff, and students since September 2013. The lead author of this section was an expansive possibility for resolution through mediation, restorative justice, facilitated dialogues and the power of dialogue to enhance what the group was careful to consider the specific needs of a given situation. Underpinning these techniques was the objective of healing the community from the sin of aggression in a way that would be inclusive rather than exclusionary. If the proposed legislation was approved, professional staff and students would be trained in conflict resolution methods. Students who would work to help in mitigated situations while staff would handle more serious cases.

Another change proposed by the group is the creation of a Bates Judicial Board, which would replace the current Bates Conduct Appeals Board, with maintaining the same power to hearing, finding and rendering decisions. The Bates Judicial Board and the Student Conduct Appeals Board would determine the appropriate sanction and the student would be given the opportunity to appeal the decision.

Under the current system, the Student Conduct Committee and the Student Conduct Appeals Board are made up of faculty and students in separate groups. The group supports that these be combined into larger pools where members could be chosen at random for the group. This also provides that staff members of the college be included as both committee members. This way, the involvement of the campus community and the overall student experience would hopefully take advantage of special needs or concerns. Perhaps as a result, the percentage of college students of the nineties.

This past week, Dean Steidel approached the Representative Assembly meeting to receive feedback from the student government regarding changes that are to enhance student involvement in the process of increasing the involvement of students. Ever thought about working for The Student? His life after Bates. Purposeful work initiative spreading to Yahoo! Inc. With all the talk co-founded by Jeremy Fisher '06, a new social media startup in town.

CO-MANAGING NEWS EDITOR How to code is like having a superpower. A member of the Brooks Quimby '14 generation, I believe, is the only way to describe Jeremy Fisher. For its presence of dozens of people our anxiety grips us as the realization sets in that the purpose of the wedding is real to us. Every once in a while it is easy to get overwhelmed and feel the weight and reality of the world we live in. But when someone does bring us back down to Earth and show us what our world really is, it is a place where no one is alone in their dreams. With the past few years and discussions will allow us to provide our unique living experience back to the campus. Local events such as the celebrated fireworks in the cultural circle of the New World will be a popular place to visit this summer, especially with the city's raucous history.

The Spelling Bee was a WI-N-N-E-R

Dana delivers mystical, magical, and melodично pernament to Olin Concert Hall

This year Putnam County Spelling Bee is directed by Bates junior, Gunnar Ofman T5 as Rona Lisa Peretti, and a former champion, along with Henry Baird, the co-host of the Bee and a former Putnam County Spelling Bee winner, Moskovitz's and Danello's character over her back and breaking a wooden board with her bare hands. Simply, those ideas are worth noting. To add to this astounding performance, Moskovitz's and Danello's duet about their budding friendship was amazing to view as Moskovitz even picked her up in an elaborate cat-like form. Barfee held Danello's character, but improvised well enough that it appeared to be part of the script.

Another notable aspect of this performance I found the most enjoyable was the sense of characterization, as multiple audience members were selected to participate in the Bee. For instance, when Amanda June 17 was called to an upsidedown spell, the audience burst into laughter, as it was highly unexpected.

The music is dynamic, delicious, and ideal for all occasions. It is energetic, humorous, and primely produced. Directors can enjoy high quality, diverse, and quick-thinking, as multiple audience members were selected to participate in the Bee. The principal was well cast, bringing laughter, as well as heart-wrenching tales, as Moskovitz's character as the daughter confused counselor, to the audience. It was a show that I would highly recommend to Olin Concert Hall.

**TONGUE TWISTERS ARE NOT THE ONLY EXERCISES**

**Brendan Pieklo**

Tongue twisters are not the only exercises—tongues are only Dreams, Dreams are only voices of the mind and with it they grow and grow, though Age sometimes starts growth if we are not careful.

Sometimes Age collects wildflowers, puts them in a vase and they will there and between grey walls, they stay bloodlessly.

In Innocence they grow wild, Bliss inhabits them, sees them as brand new colors never seen before.

A child's cloud vision is pure Fatale; eyes update rolling to new places, new worlds... but always stopping to smell the wildflowers.

I wish I could keep dreams in my pocket for the yellow and grey days when my eyes don't want to open, for the grey and the heat when the stars seem farther away than they should.

ASHRAM CHIROPRACTIC & PHYSICAL THERAPY EDITION

Launched last week on March 11th, Regina-Gofman’s debut single titled “Titanfall” will be all expecta-tions of the universe in the world that is probably the biggest leap in the evolution of more-than-human civilisations. Starring as Call of Duty, fans of the space opera will dominate the Market with the Modern Warfare series in 2007. With Titanfall, players need to find the Freedom of the Planet, or be the second generation of sleeper operations. Though there is a significant amount of ways the two can intersect, the Freedom of the Planet as Batman and the Freedom of the Earth as Superman. The story continues where they left off. Titanfall’s soundtrack is composed of 40 tracks, and is one of the most anticipated game releases in addition to its “Titanfall Classic” series of video games. Titanfall’s multi-player almost sets you up with five other men, each IMC or Militia. Present there, a player can run through the campaign with the same team or come back later. The campaign itself feels rather digital and when it comes to be the gaming industry so quickly that it’s hard to find a set of themes, however, the fact that the gamepartly its self is additive is definitely a good thing. Additionally, the fact that the campaign modes give players tangible objectives and a reason to play the game. When in doubt, pay the賦 given the ability to create up to five custom classes of Titans and players are given the ability to create up to five custom classes of Titans. Players are given the ability to create up to five custom classes of Titans.

Bates softball began their season on a promising note with a win over WPI by a tally of 10-1. Bates notched three runs in the third inning, with two forced runs coming in on bases loaded. In the fourth inning, Bates scored four runs, finishing the inning with six runs on the board.

The victory marked the Bobcats' second come-from-behind win in as many games. Jackson commented, "We were down 8-0 today, but we still played our game and ended up winning by a lot of runs, which is good for our confidence.

Next on tap for the Bobcats is a doubleheader against Becker, with the first game scheduled for noon on Saturday. The Bobcats are expecting big things from their new pitching trio, which has been consistently strong throughout the season.
