GIFT OF $25,000 FOR BATES

ARMS BY PRESIDENT CHASE

The second set of trials for the relay team that will be chosen to represent Bates in the Maine Championship Races was held last Wednesday, February 27th.

The trials were held in the track facilities on the Bates campus. The relay team consists of six members, with one member from each grade level.

The trials were administered by Coach Purinton, who lined a plan suggested by D. E. Andrews, captain of the Bates relay team.

The trials were open to all boys who are interested in participating in the relay races. The trials will be held every Wednesday afternoon until March 10th.

Senior Girl's Preliminary Debate

Preliminary trials to select the candidates to represent Bates in the upcoming State Debate were held on February 26th.

The trials were held in the auditorium of the school. The debate topic was "The Constitution should be constitutionally amended." The debate was conducted by Prof. Lomax, who discussed the authorship, music, and subject matters of the songs.

The trials were open to all students who are interested in participating in the State Debate.

SKATING RINK

Plan Outlined at Commons Monday Evening

The plan for the new skating rink at Bates College was outlined at the Commons on Monday evening, February 25th.

The rink will be located on the south side of the campus, near the basketball courts. The rink will be constructed of ice and will be open to all students.

The rink will be open every Monday and Wednesday evening, from 7:00 to 9:00 p.m. The admission fee will be $0.25 per person.

The new rink will be a popular addition to the campus, and it will provide an enjoyable recreational activity for students during the winter months.

The plans for the rink were developed by Mr. Brown, who is in charge of the construction project.
A NEW POLICY

When does the first issue of the new Bates Magazine appear? On October 16, 1915, there was a general one on the campus since the Bates Bulletin has begun to appear in a new form. The college has improved its regular magazine, and the students have asked for a more interesting and well-written periodical. Bates Bulletin is a name that will be kept to the story of the college work and, henceforth, this magazine will appear in a regular weekly issue along with the weekly news section, which was published on a semi-monthly basis. The magazine is a supplement to the semi-monthly magazine section, which we believe that the students have asked for. Bates Bulletin will be a weekly magazine, and the editors may be of major importance, and the editors will be chosen from the Sophomore class and a few students of the Freshman class. Every college of the college will be included in the publication of the magazine.

The new policy for the magazine includes an editorial board for the magazine, and the editorial board will be chosen from the Sophomore class and a few students of the Freshman class. Every college of the college will be included in the publication of the magazine. The magazine will be a semi-monthly publication, and the editors may be of major importance. The magazine will be a weekly feature of the college, and the students will be able to read about the college work in a regular weekly issue.

The magazine will be a weekly feature of the college, and the students will be able to read about the college work in a regular weekly issue.

SPOTFOOD CLUB
The first meeting of the Spofford Club after the Christmas recess was held Jan. 11. The program was furnished by Miss Johnson, Miss Lassie, and Mr. Westworth.

A COURSE IN PRACTICAL LAW
Alfred Bode, in a recent address and eveningí, or three evenings in the course of the month, explained the various forms of contract law: 1. To know the rights of others. 2. To make a contract. 3. To take advantage of opportunities.

The more one thinks of it the better he agrees with Mr. Bode. And it is in the nature of the case that no one must depend upon the fact that, in being informed regarding the law, the prepared corner will never béethe the business and general legal knowledge he has acquired. The more one considers it the more weighty becomes the explanation of Mr. Bode.

Nowadays holds meeting at the Quality Shop.
