Christian Teaching. There were about forty men present. The following is a brief of his very interesting and instructive address.

"Had I felt that I could render the service to the world and be directed by teaching, I should do it in some other profession. Strike for that kind of work in which I can best do something for the world. Teaching may not be as popular as the kind of work that you choose or to which you are drawn, but it is something you can do. It is possible to make the best of a poor thing.

"Treat all one's brothers as Christian. If you are a teacher, as a learner, as a man to know the world of teaching.

"The basis of teaching is to be a Christian. You must be 'Come now and let us reason together.'"

THE BATES STUDENT, THURSDAY, MAY 18, 1916

The annual meeting and banquet of the Connecticut Valley Bases Alumni Association was held May 3rd at the hotel. The Rev. Frank J. Watson was guest of honor. There were over 100 in attendance.

President and instructor.

The following new officers were elected: President, G. L. Graves; vice-president, R. S. Hay; secretary, Miss Grace V. Thompson; treasurer, Miss Grace V. Thompson; executive committee, Miss Grace V. Thompson, Miss Fraser, Miss Amber Perkins, 43, R. S. Watson, Jr. This is one of the strongest if not the strongest of the Bates alumni associations.

JORDAN SCIENTIFIC SOCIETY

PROF. RASMUSSEN LECTURES ON FOURTH DIMENSION

A meeting of the Jordan Scientific Society was held in the Jordan Hall, Thursday, November 12. Professor Rasmussen gave a lecture on the topic of "Mathematics and Physics in the Fourth Dimension." The principles of mathematics enter into the study of nature; mathematics is not entirely dependent upon actual manual for its means of getting a living. The profession of a schoolmaster can depend upon no mental powers which can sometimes get to a man's hand in others that cannot be employed in other ways. Such is a belief in the work, and the world is full of such men. Science of what if it were possible. Abstract Geometry, a subject of the greatest importance to Science. Through it we have to build up our abstract and subtle notions.

The geometry of Euclid presents space of one, two, and three dimensions; four dimensions are bounded by planes, five dimensions by planes and solid bodies. What do these solids do? If a point moving in a straight line direction in four dimensions, it will move in a direction at right angles to its three dimensions. A solid, it may be supposed by analogy, that a moving in a direction at right angles to every one of its three dimensions will be a fourth dimension. Through we have to build our abstract and subtle notions.

The principles of mathematics enter into the study of nature; mathematics is not entirely dependent upon actual manual for its means of getting a living. The principles of mathematics enter into the study of nature; mathematics is not entirely dependent upon actual manual for its means of getting a living. The principles of mathematics enter into the study of nature; mathematics is not entirely dependent upon actual manual for its means of getting a living. The principles of mathematics enter into the study of nature; mathematics is not entirely dependent upon actual manual for its means of getting a living.

eight miles from the Boston (Mass.) State House situated in superb

Each girl represented some athletic, music, or literary interest. In 1868 there was introduced a science department, but in the Pros.

Gymnasien were originally founded in 1866 and have been changing gradually into the Prius.-Verein. Monday evening. May 15, the school is held.

The Hamburg-American Line is a private corporation owned by the heart of the Kaiser and his people, as their duty. Founded in the wooden ship "of Millionaires," it has banded the way for German trade and supremacy in the oceanic region of the earth. Bifallos is a self-made man. He was born into the trade in which he was one day to be a world's figure in the line of a humble subaltern. As a lad he went to England where he learned the trade. At the age of twenty-five he was elected manager of the Hamburg-American Line in 1895.

DEUTSCHER VEREIN

Papers by Kettner, 16, and Hopkins, 17.

Kettner was chosen as a subject "The German Gymnastics." He said: The German Gymnastics is the present form of physical training for entrance into the University. The curious mass of matter, the germ of a unit of material. Thus the writings of the健身房 are primary, the writings of the健身房 are primary, the writings of the健身房 are primary. With this form of culture, the idea of desti-

In his address, Professor Rasmussen also expressed hope for the continued growth of the gymnasium and its contribution to the education of students in the future.

THE NEWTON THEOLOGICAL INSTITUTION (FOUNDED 1825)

Eight miles from the Boston (Mass.) State House situated in superb grounds of 50 acres belonging to the institution.

As an Episcopalian, Professor Rasmussen delivered Convocation and Lecture Rooms, Beautiful Chapel, a Noble Library, an Unparalleled Library Building, and Equipment for Laboratory Work.

The convention committee wishes also to take this opportunity to thank both faculty and students for their generous contributions to the society.

PROF. WATSON TO GO TO BROWN

William Watson, who has taught for the past two years has assisted Prof. Jordan in the Chemistry department, is to go to Brown University next year as an instructor in Chemistry. All students who have worked with him will wish him the best of luck in his future.

ALUMNI NOTES

1866—Professor J. W. Gulf of the Cincinnati is an Emeritus Professor of English.

1869—Rey., and Mrs. A. C. Townsend are residing in Hamilton, Maine, where Mr. Townsend is pastor of the Congregational Church.

1879—Mrs. Leila Pymouth Drake is represented by N. H., Balch, & Company, she is a member in high grade investment banks.

1885—Mrs. Mary Beardsley Robertson of Ohio, who is a graduate of the Colby College, is a member of the Board of Trustees of the Newton College of Women, Washington, D.C. The Club has a membership of 175 girls in 14 of the leading colleges and universities. On the execu-

1910—Charles E. Merrill for the last few years principal of the high school at Newton, Massachusetts, is to move to his new position in business. His heart of the community.

1911—Charles E. Lord is principal of the high school at Paterson, New Jersey.

1912—Judge Williams, who is a member of the House of Representatives, was in the Leoti Industrial Memorial Home School at the opening of the school year.

1913—Catharine L. Chase is principal of the high school at Orono, Maine.

RUN THE INK BLOTS OUT OF TOWN

LOCALS

This is the season of the year when the big things are being put on the end stage. Of course, the estimation of all this will be Commitment, but even now the little things are giving way before the spring events. So if you do not find the name of the author of your friends in the local columns, look elsewhere in the paper for activities of a minor order. There is a chance for all in a special way, with a band leading to 60. If you are disappointed in the survey for several reasons, then it’s not our fault.

Ross has a fine representation at the meet at Bates Field where there is a fine batch of athletics doing their best for the college, but there were many to cheer their efforts and the band was there with the Bates Song. We shall not try to enumerate those who went or all the absent who joined with us at the boards assigned to Bates. There were many, many praises to Bates.

Now that the trees are beginning to grow we now should not be able to see the birdhouseplans on the campus whenever we go there. The birds will take kindly to the trees. It is simply a matter of the many little touches that are rapidly changing the campus for the better in a season of ways and years.

Manager Webb of the tennis team has made an innovation on the tennis courts by using tape rather than line to line out the fairway courts.

E. L. Ross, who is brother from Baldwin High as a guest recently.

Lester Buffki, ’15, has been obliged to give up his account of the serious illness of his mother.

W. H. Morgan, ’14, was on campus recently with a baseball team from Me-Wicke Falls High. They were in coaching.

Monday evening, May 11, the Choral Male Quartet gave a concert at Mechanic Falls.

The entire college will be happy to know that President Chase is recovering from his severe illness.

Since the Freshman girls were the first to join their athletic association, so, as a custom, Saturday afternoon, the girls will hold Achin trials on the lake and supper down by the river. The party started about four o’clock. Two good fires were built, and a supply of bacon, eggs, sandwich, pickles, hot, and macaroni was served.

After supper, Miss Bell told thrilling stories of her experiences in France and America. The girls reached home at eight o’clock. It is agreed that everyone will go to the meet at Bates.

Among the Bates girls who attended the Maine Intercollegiate Track Meet at Brunswick last Saturday were Misses Ruth Parkes, Marguerite Goodwin, Lois Perry, Class of 1907, Emily Cartwright, Class of 1910, Marjorie Drakes, Miss of 1911, and Misses Laurence and Helen Munns and Laura Finlay.

Friday evening, May 11, Bates College Dance Club gave a concert at Turner.

As a result of several membership meetings in which submitted material was considered, the Spofford Club admitted six new members last Thursday night: Miss Genevieve Dunlap, Miss Ida Chase, Miss of 1904, Misses Alice Goodwin, Miss of 1911, and Misses Alice Goodwin, Miss of 1912.

Maine wins 22nd Annual Intercollegiate Meet at Brunswick

(Continued from Page One)

Miss Huston injured his ankle on his left foot in the qualifying round in the high jump and consequently was unable to reach the finish. Sampson of Bowdoin took first place at 9 feet 6 inches.

Leadbetter of Bowdoin throw the hammer 135 1/2 feet, a really commendable feat. This is about 20 feet better than the distance in the Yale-Harvard Meet for the same event and falls short of Bailey’s Maine Intercollegiate record by about seven feet. Leadbetter, Colby and Stanley of Maine both possess the 130-foot mark.

Maine hold a complete monopoly in the two dash events and the broad jump, taking three places in each of them. Barrow, the only Maine man entered in the sprints, was beaten by a small margin in an attempt to win third place in the century. The little fellow

was a good case and with another year of coaching should make the best of them both.

As the whole the Bates team showed considerable improvement over last year, and has been in the process of development that should still improve in future meets. Pickhahn and tree, this year’s point winners, will not be back next year owing to graduation, but the others who scored points are still young, academically speaking, and form the nucleus for another fine team.

SUMMARY

200 Yard Dash—Won by River, Maine; Zeigler, Maine; Draney, Maine, second; Draney, Maine, third. Time 21s. 4s.

800 Yard Run—Won by Bill, Maine; Crosby, Bowdoin, second; Denxey, Maine, third. Time 26s. 5s.

Two Mile Run—Won by M. Thompson, Bowdoin; Gregory, Bates, second; Fure, Maine, third. Time 6m. 2s. 6s.

320 Yard High Hurdles—Won by Savage, Bowdoin; Fure, Maine, second; Webber, Bates, third. Time 4m. 5s.

220 Yard Low Hurdles—Won by Savage, Bowdoin; Ferey, Maine, second; Webber, Bates, third. Time 28s. 4s.

110 Yard High Jump—Won by Fure, Maine; Baxter, Bowdoin, second; Fure, Maine, third. Height 6 ft. 14 in. (New Record).

High Jump—Won by Palmer, Maine; Baxter, Bowdoin, second; Fure, Maine, third. Height 6 ft. 6 in. (New Record).

Pole Vault—Won by Sampson, Bowdoin; Warren of Bowdoin, Butte, Maine, second; Deere of Bates, third. Time 4m. 15s. 6s. (New Record).

Shot Put—Won by Allen, Maine; Landheeter, Bowdoin, second; Adams, Bates, third. Distance 46 ft. 35 in. (New Record).
