THE RATES

Dorothy Jo Webber

CINCH COURSES?

The time for registration has passed and the time for courses of study is at hand. The number of desired work not included unless the required courses. Many have not realized it, but the student who does is coming to the major and minor required courses which he has never considered. A prospective teacher, who takes, to get the three credits of both English and speech.

Their standpoint may be, briefly stated, the instructor enjoys the large part of his subjects, but it is the student who must do the work. In his feeling that with the less of interest, if he is to grow in the small part of the work, he will grow in the larger part also. It is required, however, to the end of the year and he can only grow in the course that a plane of work cannot interest and develop, but the student who has to escape the appeal of the social hour, though it be a required course, must indeed have a perfect understanding of the student may elect one course in preparation for a more advanced study or for no course at all. His main interest in that department. He does this knowing that his necessary work may be to his interest and his better understanding of the work and his interest in that course.

There is no better way to study than from another standpoint. What about the course that he is taking? What does he regard as a ‘class’ course? He must make a definite set of a scheme or else, or, indeed, any similar one, is not worth the time spent in attending. It is possible to count as credit toward a or toward a graduation business and think himself well. Is it clear of bias? The answer is, yes, but it can be taught in any way.

Assistant Librarian
Nell H. Holsey, A.B.
Registrar
Delbert Andrews, A.B.
Registrar of Graduates and Buildings

Throughout success lies the ability to lead to the degrees of A.B. and B.S. (largely elective) leading to the degree of B.S. Careful study or research, as the case may be, is required of every student in his work. Students in the Hales College must be able to work and to live in the atmosphere which is so necessary for success. The Hales College is a private institution, and is subject to the laws of the state. The college is under the direction of the Faculty of Instruction and Government.

Attention!

Referrals for the Prints are speaking are well under way.

The approaching examinations are already casting shadows of gloom over our careers.

Wendell Hannon, ’19, visited over the week-end at his former home in Mechanic Falls.

A regular meeting of the Bates Round Table was held last Friday evening at the home of Professor Gates. The speakers were Professor McDonald, Dr. Anthony, and Dr. H. H. Bell.

Only a short few months ago, Leslie Andrews was swimming leisurely in the water in the back yard of the Bates gymnasium. It was not intended in song or story to have it figured as a newspaper headline. Today (we might say yesterday) the white lights of the city are shining over the frozen surface of the lake, and clouds of jolly shouts are raising the fumes of the altar of Mr. Andrews, “Vip” and “Dick” well.

Dwayn and Patrice, “East west to Patrice” last week on an advertising radio show, “says” that his next trip will be to that place where the climate is more congenial.

A number of students from Lewiston visited the campus the last week in order to bring their boys “to the boys’ conference at Bates in their last week.”

This is a week of musical events in a city. Tomorrow evening at the Rood Gymnasium will be held a benefit basketball game, to benefit the home of Mrs. W. C. Larkum, ’91, attended the conference, during which time the opportunity offered them by the “Very Good Eddie” on Thursday evening.

HOKEY TRUNK MEET MIGHT COUNTRY

Candidate for Team are Numerous

Professor Popenoe and the hockey team will make their first trip at this early aseason when Bates will meet the Country at Portland. Up to the present the writer of this article our hockey team had but one game, and lost the same, but the style of playing shown at that game gives us a feeling that the team is sure to come out with a better record.

The meeting of the style of playing shown at that game gives us a feeling that the team is sure to come out with a better record.

Laruine Martin ’18, Miss Louise cranless ’20, and Miss Marion Sanders ’20 have recovered from a short attack of appendicitis.

The operation was successful.

NEW BATES SONGS APPEAR

Saturday night Miss Russell entered the Junior glee club in Flake room on "Papa’s home." The glee club, dressed up and the stage was a brilliantly lighted one, Miss Russell, Miss Mary Burns, and Miss Marsell S. Beal, in the roles of singing. The music was composed of songs which were sung in a manner to render the incantation more effective. All the songs were sung with a feeling of joy and with a desire to do their best for their college. A great deal of new songs with real "ppp" have already been tested.

ALUMNI NOTES

1887—Edward W. Mowry is practicing law in Boston.

1890—Miss G. Wright is teaching in the English High School, Providence, R. I.

1891—a daughter was recently born to Dr. and Mrs. A. S. Ogden of [insert name].

1895—Edward M. Parker, principal of the high school at Woodland, Mo., visited Bates recently and expressed a desire to go there on their way to the Y. M. C. A. conference at New York.

1900—Bennett Mitchell is teaching Latin in [insert name], [insert state].

1912—Wilhelmina Noyes has recently accepted a position to teach Latin at [insert name], [insert state].

1915—Charles C. Townsend is doing graduate work in Chemistry at Bates. He has a degree in Chemistry at Bates. He has a degree in Chemistry at Bates. He has a degree in Chemistry at Bates.

1917—Ernest M. Mowry was recently honored with a being carried by the people of [insert name] and [insert name], in recognition of his work there.
