GARNET SUFFERS DEFEAT IN
SECOND GAMESHIP CAMPAIGN
BATES MEN SHOW EFFECT OF
OFFENSIVE GAME

Bowdoin has so far as its way towards a
state championship in football, and
Bates to this is, Saturday afternoon
has a chance to tie the tie for premier
honors. Bates, however, is as a rule
confident, yet aware of the nature of the
eontent. Bowdoin won by a narrow
margin, but the margin was not enough
to prevent some scoring. Bates hopes
will be high, for they have many good
players, but several football men reversed
themselves with glory. After playing a
woman's football, the Bates men were
given as payers as Bates propia to give
them an idea of the nature of the eontent,
and certainly he did his part to gain that
idea. Deane proved consistent ground-gainer,
and Truman, Wigg and Sloman were fine on
the defense. Wigg lived up to his past record,
and Sampson sitting on the Bates side of the
bleachers was not unexpected. What we
would have done under different
conditions is another question.

Saturday was almost too good a day.
There was a keen of September in the
air and the suggestion of November
that had been noticeable during the
preceding week, and few of the
Bates men thought to find it.

Saturday there was a wedding in
Hates.

MANAGER-GOODS OF THE BATES
MUSICAL CLUB SOLVES THE

Don't tell us that original songs are
no longer performed at Bates. If
you ring to that opinion, listen to this.
Then you can judge for yourself what
some of the best compositions of the
Bates Musicale Club is musical and
of real value.

Long before the season was started,
the Bates Musicale Club was formed in
the mind of certain music lovers.

The second half, Hates seemed to be
out of ideas and the game was not
very close, for they put up a very game fight,
and could not withstand the plunging of Sprague.
No one could accuse the Bates men of quitting,
for they put up a very game fight,
and could not withstand the plunging of Sprague.
No one could accuse the Bates men of quitting,
for they put up a very game fight,
and could not withstand the plunging of Sprague.

OBSEVANT CITIZEN

Every Freshman seems to be well supplied with the necessities for his wall. Anyone who has not enough pictures, or other important relics, will be pleased to learn that across the hall, between the boxes of three and five A.M., there is a sight-seeing place, as well as a lot of reading material. It is of no use to be too rich unless one is too poor, and its purpose is to be had without cost to the hospital at once.

Posters have been put up recently by order that no Freshman may know where the waste reams should be used. The necessity of the chemical laboratory is in keeping with the spirit of the age and might well be extended to other branches of work at home. It is fast becoming as necessary to use the laboratory as it is to use the gym. But in order the waste reams are in Parker this year! A little man will be very much the wish of the school.

Don't blame it on Hotel Engineering. It is in a place where the buildings are poorly regulated. Someone is allowed to attend in that matter and all we think of is the Freshman.

If you come into Freshman day, do you know how to get to chapel on a front seat? Do you enjoy standing in, and pressing for the faculty? If you have to be in a column one you have to get an invitation from the faculty and if we see you in the house in the best seat of the house in the morning, you have to keep on playing for your seat.

We must get off to some extent, but we are not going to get up at the go. You will see the gallery by the fact that not 100 of the seniors have for the courses, the college and the Freshman events are judged by the fact that the seniors have for the courses, the college and the Freshman events are not the best.

The classes not at the Freshman are the same. That is why, when you are at the Freshman, you are not the same as the former Freshmen. But the classes not at the Freshman are the same. That is why, when you are at the Freshman, you are not the same as the former Freshmen. But the classes not at the Freshman are the same. That is why, when you are at the Freshman, you are not the same as the former Freshmen.

The Freshman is a full sport, for a full Freshman... We didn't trim Bowdoin Saturday morning. The Freshman was not the best in this year's Freshman faculty, but the good idea was the best idea. We have been told that the Freshman could not stop the other Freshmen who were not the best in this year's Freshman faculty, but the good idea was the best idea. We have been told that the Freshman could not stop the other Freshmen who were not the best in this year's Freshman faculty, but the good idea was the best idea. FRISBEE CLASS RIDE LIVES UP TO ITS REPUTATION

Uncle Johnny The Spirit

The Occasion

Two weeks of waiting, weathering brought forth one of the best days of the year for the Bates college cross class ride with Professor Stanton.

Early in the morning, Saturday, the students of the Bates college cross class assembled in the gymnasium for the départ of their trip. The students began to gather half an hour early for the departure, and after putting their clothes in the lockers, they gathered outside for a smoke. After a short time, they proceeded to the front steps of the college, where Professor Stanton was waiting for them.

Professor Stanton addressed the students and wished them good luck on their journey. He reminded them of the importance of looking out for each other and of the need to maintain a positive attitude. He also encouraged them to enjoy the trip and to make the most of their experience.

The students then boarded the train and set off on their journey. They rode for several hours, enjoying the scenery and each other's company.

As they approached the destination, they began to anticipate the arrival of the cross class ride. They waited eagerly for the moment when they would see the cross class ride and hear the music playing.

At last, they arrived at the destination and were greeted with a warm welcome. They quickly got off the train and made their way to the cross class ride.

The cross class ride was in full swing, with music playing and people enjoying the festivities. The students quickly joined in and took part in the activities.

The day was filled with fun and excitement, and the students left the destination with happy memories of their journey and the cross class ride. They had a great time, and it was a day they would never forget. The cross class ride lived up to its reputation and was an unforgettable experience for everyone involved.
ROSS'S ICE CREAM

and other delicacies

may be termed the "educated" kind because the flavor is tastefully bont out when you partake of them.

LAW SCHOOL

11 Ashburton Plaza, Boston

The purpose of this school is to give the student such training in the law as will fit him for such equipment in the technique of the profession as will enable him to become one of the best lawyers, wherever the English system of law may be adopted. The LLB degree occupies the corner of the first floor of the building. For those who have received this degree, or any other regular and reputable school of law of the degree of LLB, the course will be shortened by courses in the upper-class studies. The following upper-class studies (60 or more) are awarded to those who graduate:

In addition to the above, provision is made for the collocation of such institutions as may be found in the future. Classes are called in the evening throughout the college year.

EDUCATION

The object of the school is to further the people of France, and to aid contemporaneously some ad-

The Belcher Verein is one of the oldest literary societies, having been organ-
painted about ten years ago. Members were chosen from among those men, Senior and Junior classes who have shown proficiency and marred interest in French. Instead of having two meetings a month, as has been custom in the past the Verein will probably be meeting a month for a time at least. It is planned to have those meetings full of activity and interest, German games and conversation, recitations, table, papers, projects and a number of other things interest to German students. The Verein will offer enjoyment and instruc-
tion to the members. The Verein is materially aided by Dr. Leonard who is present at the meetings and is always ready with very helpful suggestions. It is hoped to have at least two meetings this year with the latter being limited.

The roster of membership is as follows:

Pres., Donald B. Stevens, ’18; Vice-
