THE MAKING OF AN ALUMNUS
TO AT LAST WEEK BY S. M.
ROPER
Albert Adam "The Speaker"
Last week's meeting of the Y. M. C. A. was addressed by Albert Adam, "I'm, who spoke on the topic, "The Making of an Alumnus". He spoke with
an appreciation of the value of the college, in Y. C. A. plays in the making of the alumnus, and of the unselfish spirit of
brotherly and sisterly service.
To him, an alumnus said, one of the most essential factors in the making of the real alumnus, is the frank acknowledgment of the feeling that we are
pioneers in his Alma Mater. If there is no debt, one is not a true alumnus.
Honest student is great and loyal to his Alma Mater. There are few regions where the students do not have a substantial and in the getting of an
education. The number of students who do not in some way receive this aid is very small. One of the most in
portant agencies for the giving of this aid is the Y. M. C. A. We associate
freely with a broad-minded family, and we have a president who preaches
the doctrine of his alma mater, and who lives up to his preachment. By
means alone important is the spirit of good fellowship which is culti
vated here, both between student and student, and between student and teach
er.
If we are poor in cash, and are frank in
admit the debt, we are under obliga
tion to aid alumnus after we have gradu
ated our own college. Many of the
graduates shirk their responsibility, and
are not interested in the college. We cannot
afford to have these men. The number of
our alumnus is too small, and we cannot
have the cooperation of all of them, if
we are to keep in the race.
There are other alumnus ways in
which the loyal alumnus can aid the college. He can give his time, not only
tolls, but he is willing to open his
home which is considered a privilege
and should influence alumnus to come here. If
they have any special qualifications which will help the college, we should let
them know, because that is the way our
alumnus is, and we want to keep it that
way.
