SUGGESTS THE USE OF ADJACENT PEAT DOGS

PROF. GEORGE M. CHASE POINTS OUT FOR THE JOURNAL WHAT AN ADVANTAGE IT WOULD BE IN THE SOLUTION OF THE COAL PROBLEM

In a recent interview with a member of the "Gnomi," staff Professor George M. Chase expressed his belief that the natural relief from the present fuel situation would come about if we could make use of the peat deposits which are so well known to botanists and are always accessible.

The peat must be used in such a way that it will be helpful in the near future. The peat will be used in the following way: The peat will be cut into small pieces and then placed in the ground to be used as a fertilizer. The peat will be used in the following way: The peat will be cut into small pieces and then placed in the ground to be used as a fertilizer. The peat will be used in the following way: The peat will be cut into small pieces and then placed in the ground to be used as a fertilizer.

The peat will be cut into small pieces and then placed in the ground to be used as a fertilizer.

BATES COLLEGE INTERSCHO- LASTIC DEBATING LEAGUE WELL UNDER WAY

PRELIMINARY DEBATES TO COME IN MARCH

Last Thursday morning in Chase Union two debates were held by the Bates Intercollegiate Debating League. The first debate was between the Bates students and faculty. The second debate was between Mr. W. W. G. Jones, a member of the Bates faculty and Mr. W. W. G. Jones, a member of the Bates faculty.

Mr. W. W. G. Jones explained the reasons for the debate and described the topic. He then presented the case for the faculty and explained why he thought that the faculty was correct. The debate was held in the Chase Union and was attended by a large number of students and faculty members.

The debate was a very interesting one and both sides presented strong arguments. The faculty won the debate by a narrow margin, but the students were not disappointed. They felt that they had learned a lot from the debate and that it had been a valuable experience.

The Bates Intercollegiate Debating League is well under way and promises to be a great success. The league has already held two debates and will hold at least two more before the end of the semester. The league is open to all members of the Bates College community and is sponsored by the college administration.

MUSICAL CLUBS HAVE SUCCESSFUL TRIP

BATES ENTERTAINERS ARE WELCOME EVERYWHERE

Last Saturday the members of the Bates Musical Clubs had a very successful trip to New York City. The trip was arranged by the college administration and was a great success. The trip was wonderful and all the students had a great time.

The trip was arranged by the college administration and was a great success. The trip was wonderful and all the students had a great time.
One page of a document is not fully visible, but the readable text includes:

**Committee or whoever does run the thing, I used to take-no consideration of anything unsatisfactory in such matters.**

**Social Life**

"Going to the Glee tonight, Bill, but I don't think it will be a success."

**The Commons**

All the Commons have been a fad especially. There have been so many forums for some time, the problem is just to get them all to meet for the purpose of giving us trouble as easy as possible. The common interest in the subject must be so that we cannot use the documents. No statesmen are entirely satisfied with the Commons, but it is the only way to keep up the interest of the students. It is the only way to keep them interested in the subject. It is the only way to make them think about the Commons. It is the only way to make them think about the Commons. It is the only way to make them think about the Commons. It is the only way to make them think about the Commons.

THE MOORE PEN COMPANY
14 Devenish Street Boston, Mass.

IMPROVE YOUR PENMANSHIP

Buy a good fountain pen of a size and pen point to fit your hand. A good fountain pen makes writing easy—makes writing a pleasure.

Better buy a Moore because a Moore won't leak and is always ready to write without shaking or smoking.
