A GOOD YEAR FOR ATHLETICS?

The season has just begun, and already it is apparent that this year will be a good year for athletics. That prophecy may be accepted definitely by those interested in professional baseball. The regular season has just opened, and already the boasts of the Manges are being fulfilled. The New York Giants have already won ten games, and the Boston Red Sox have won six. The crowds are flocking to the parks, and the teams are playing with a determination and enthusiasm which is certainly encouraging.

In football, the season is just beginning, and it is difficult to predict the outcome. However, it is certain that the teams will be fighting hard for the championship, and the games will be exciting.

In track and field events, the athletes are performing at an exceptional level. The track meet is scheduled for next week, and the fields are being prepared for the event. The athletes are practicing hard, and the meet will be a great test of their abilities.

In conclusion, it can be said that this year will be a good year for athletics. The teams are playing well, and the fans are enjoying the games. The season is just beginning, and the rest of the year promises to be exciting.

AT CITY HALL

(Continued from page 30)

...the sharp-eyed judges threw
out several men who tried to stand
on the starting line. The race was
then started as scheduled, but Mr.
David高频 won the sprint heat by a
length and a half and was not
wanted a second time. At last,
with the exception of the last man
in the race, a white noise and a
yellow noise were sent up by the
hurdles and the donors breathed in
shudders.

There were only two heats in the
high hurdles.

When the starters lined up for the
60 yards dash, the first race was
then started as scheduled, but
caught up and pulled ahead of the
winners. The president of the first
race was turned over by a hurdle
and was not wanted a second time.
Tadashl Fujimoto, 19, gave in to
the heat with a time of 20.5
seconds. This is the first race in
his career which he has lost.
In the second race, the heat was
run by the same men, but
M. Bigelow. Special scholarships ($50
