Disregard Action of Student Council!

"The Faculty Does Not Deem The Recommendations Just or Fair." - Pres. Chase

Wants That Class Revolt Will Not Have The slightest Weight.

The Decision of the Faculty

After very extensive investigations pursued by the duly appointed faculty committee, it becomes necessary to render a decision. Evidence gathered by this committee, together with the attitude assumed toward the proposed investigating force the following decisions. They are therefore:

1. Three members of the Sophomore Class are suspended; indefinitely; another, for the rest of the College year; the third, for the rest of the term, April 1.

2. Five members of the Sophomore Class are placed on probation indefinitely.

Seven members of the Freshman Class, for their share in posting the Freshman proclamations are placed on probation for the remainder of the College year.

Pres. Chase also announced an important message to the attention of the students. Tuesday morning. Much interest has been shown during the past few days concerning the action of the Faculty Committee on the Sophomore Class revolt in Rogers Williams Hall. He received this note briefly, and dealt with certain rumors that were being circulated concerning action by one class, in his speech, given on this occasion, it is evident that there is always evidence in such matters, he proceeded to explain the action of the Faculty, which will be made known after this letter has gone to press in all probability.

Pres. Chase told of his fears when college should reopen. "It were to the members of the Student Council acting a show to attempt to deceive the public, but when college opened, I was troubled to see how the students would do, but in a fair manner from all, I had feared. I pointed out, on several occasions, that a show of this sort is not a true shows a part of any kind, but on account of certain known and unknown foes.

There is the knowledge that we have so well overcome. A tragedy. All are filled with sorrow and many may have occurred. Consequently, there is a decided resolution against shaking.

The Student Council was asked to work out the solution of this very important problem, and to do the innate. It if were possible. Last year an advisory committee was asked for by the Council, and Prof. Bancroft, Professors, and Prof. Biful were appointed. Both on the proposals and faculty members were much overworked, and this action showed a spirit of, I am greatly pleased. The Council made its recommendations. The members were unanimous in urging that hating must cease at Bates. They are now working in a plan to that end. That was good. This cooperation between student and faculty is much valued.

"But, finally, the Faculty are responsible entirely for what occurs, for the entire future of the college. It is a week of love and trust. They are responsible for what occurs. NOT A RECKLESS DECISION!

The College Commends WILL SURVIVE

Because of the fact that we are a college, the students and the efficiency of the instructors, the future prospects of College Commends appear exceedingly bright and prosperous. Let the good work go on and good things will continually appear.

ROOSEVELT MEMORIAL
SERVICE SPLENDID TRIB-
UTE TO LATE PRESIDENT

It is appropriate that great American, Theo-
dores Roosevelt, Bill Howard, Roose-
velt's guide, the King of the preachers, piggybanks, the leader of the nation, and the single worker, has a common emotion welling up in his heart.

The service was conducted in the presence of the nation and the world. The world, which has always been true of the great man, a man of the people, a man of the people, and a man of the people.

The service was conducted in the presence of the nation and the world. The service was conducted in the presence of the nation and the world.

The fans predicted a scoreless game.

The line up was as follows:

Last week the enemy between the lower class enemies reached such a height that they thought it advisable to divert their energies in a possible manner and therefore they met Saturday afternoon on Lake Andrews in a hockey match on the schedule. The line up was as follows:

While much interest in the hockey business has been manifested in late days surrounding the announcement of the basketball tournament, the interest is now focused on the preliminary ball, and next week the real business of the basketball practice in the gym. Captain Talbot is expected to be back in time for the real practice. The sympathy of all the basketball fans is expected to be forthcoming for a very fast team. We hope their expectations will be justified for Bates needs a snug basketball season.

TRACKE PROSPECTS GOOD

Coach Gregory is rapidly developing a goodly number of fast track men. Initial trials of each star were made in its incentive to create team spirit and individual pride. The men, although scattered at the present, are undergoing rigorous training on the boards, this year. The relay teams and color teams are quite prominent. The boys glow into this goal with keen interest and much joyfulness. From among the races of the present list a good time has been developed for all concerned. Both winners and losers are to win or lose with honor.

When we review the extent of this great life, and measure it by years, we find that it was not long. Yet, think of the tremendous problems that confronted him daily. He lived years in single days, if we count them. He was faced by every difficulty, and yet, with his huge experience, he had, for the most part, the full confidence of the people. Even in the era of the early 20th century, his reputation was such that the very name of Lincoln was enough to carry him through. He died, that we, the present generation, might have the inestimable benefits of his wisdom.

Like Lincoln, Roosevelt was an American. Not that he simply lived in the country, but that he honestly tried to live up to the ideals of this beautiful country. He was not a politician in the usual sense, as such, acted the part with all the fidelity of his great-hearted nature. Never did he betray that trust, either in word or deed. He was the voice of his time, the embodiment of his age.

Roosevelt has joined the Illustrous Dead. Gone is that powerful incarnation of will and determination. Departed is the man who stood as a mere model for patriotism and unselfishness.

It is for us, the living, rather, to be dedicated here to the unfinished work which he, in his living, so nobly carried forward. Let the memory of this great American live on in the hearts of those who have been inspired by him.

We see in the press that Villa ordered an army to raid some place, but it was made known that he was just a business man. We see in the papers that the gas went out and we couldn't get a light. We see that the baby onions are to be sold.
