EDITORIALS

OP OF DISCHARGED MEN

The Editor of the Student in response to many requests from the men lately in the service of the United States Army, N. A. T. C. men especially, has endeavored to secure as much as possible concerning the discharge of disabled soldiers and officers, and to lay before the desire, the former Commanding Officer of the Bates College Students' Army Training Corps was consulted Lieutenant Merrill has sent for specific information concerning this matter.

He advised the writer that the men who were not in the honorable discharges, papers so valuable to a man who has served his country, to the proper authorities until more specific information is received, and declares that nothing will be lost by waiting a week or so. In the present confusion and unsettled state of affairs, it would be highly desirable that the cause be determined, before he is used by another. Concerning the matter of uniformity, the Commanding Officer advises the men to hold their clothing until the reply to the request be given by the authorities of the Northwestern Department. If possible, the answer will be here the latter part of the week. As soon as information arrives, the message will be posted on the Bulletin Board.

THE BLAZED TRAIL

The blazed trail is omitted in the current issue because of the inability of the Local Editor to assume his full work again. Next week, however, the column will be opened. It is up to the readers of this paper to furnish suitable material for this section of the newspaper. If the column is not satisfactory, it is your privilege to disregard your blame to your own paper, and to demand a better paper. If you have an essay to contribute, your appreciation would help somewhat as a guide. This is your paper. You share in the responsibility: don't shirk your task.

THE SECOND THOUGHT

Have you ever heard of such a term? Have you ever applied it to others, but to yourself? The Editor issued the required call for candidates. A few men responded. The Bates Student cannot, however, run on such a small staff. It may be that the editor will fill this place left by the members of the present board when their term is over. Girls are also included in the call for candidates. The Assistant Editor will render applications for places on the staff at any time. Both men and women of the Freshman class should take a second thought. They should make an inventory of their journalistic abilities. Then, they should sign up with the Student. All out. Last call is the fiftieth of March. First applicants will be considered first. The chance is yours, are you making the most of it?

THE GRADUATES

To all the seniors: Assistants in the high school.

Bates in the class of 1900. He expects to be discharged from the hospital in Vancouver and will probably settle in Portland where he will specialize in Internal Medicine.

At all events it will not return to immediate practice but will undertake a flattering and exceptionally superior opportunity for post graduate study under one of the most capable specialists in Internal Medicine in New England, which has just offered him. It is a sign of great contentment and satisfaction. Dr. Powell is an accomplished and charming man, and an easily and naturally a leader in his profession.

THE WEEK'S ISSUE

On account of the track meet coming next Thursday, and the usual interest centering around it, the Student will not be issued until Friday evening. It will contain a full report of the meet.

Now that we are on the subject, a reminder that the track meet is a distinctly Batesian affair not to be missed nor to be stayed. They are in their prime and they will carry their own in. We at least can do to turn out, one every one, and give them all the encouragement that is in our power.

In the fight against venereal disease Captain Powell worked for right hands and was an open torch under constant fire. It was at this point that he was severely gassed, and three weeks passed before he was able to return home. In September, however, the condition improved, and Captain Powell went to France with the 103rd Division, under duty with his regiment. During this period Dr. Powell was not only responsible for the treatment of all officers of the regiment, but was also a medical officer of the 103rd Division.
