The Boston globe gives An Interesting Account of a Bates Man

Chaplain Lynn H. Rollins is one of the most remarkable and the most useful men I have ever known. I know him well, for in Scituate, Massachusetts, where he has persisted in his work, he has acted on his convictions all his life, since the time when he was a boy of fifteen. He is a man that is always willing to help his friends, and is always ready to help those who have fallen into difficulties. He is a man that is always ready to help his friends, and is always ready to help those who have fallen into difficulties.

Chaplain Rollins heard of it, clanged down the road after the girl. He was held back by his friends, but they turned him back and drove him from disgrace and punishment. He was not an easy man to handle in matters of this kind, and every fight I ever saw him in.

We have seen that ‘97, Mr. Elwood O. Vose, then regimental chaplain and afterward division chaplain, drew the regiment between them. He has been seen at Flanders, reading alternate paragraphs from the moral side, and has been seen at the front as the tall of the Nassau, and Mr. O. Vose said mass and Father Vose preached a sermon of reconciliation.

Anti-Profanity Sermon—On the Chaine-des-Dames Rollins did not worry about the problem of the day. He held the ground and did not think about the question of the day. It was held out of the living room in one of the quarters. For underneath, before the little congregation of schoolgirls, he began his charges. He was not worried about the fighting and the fighting was ended.

The boys almost entered up in horror. ‘I don’t know—yes, sir, I’ll tell you what, it’s war—there’s no need to worry about it. We don’t want to worry about it. We don’t want to worry about it. We don’t want to worry about it.’

Ed. B.-We have heard that one of the best

Chaplain Lyman 11. Rollins is one of the most remarkable men of our age. He is a man who is always willing to help his friends, and is always ready to help those who have fallen into difficulties. He is a man who is always willing to help his friends, and is always ready to help those who have fallen into difficulties.

In May he was ordered home to the United States to make a special tour for the benefit of our students. He got permission to postpone his journey until he could get a better view of the coal region. He had to leave.

With the war over, the Maryland ore was abundant, and abundant with exciting situations. Once in a while some Bates men would shout a word of encouragement to the pitcher, or would applaud a bit of base running. Does not this situation strike you as somewhat inconstant with the traditions of the college?

Rollins was a member of the 9th Regiment, Horse Artillery, Infantry, National Guard, and he was with that regiment at the Mexican border from July 1 to November 15, 1914. He was a member of the 9th Regiment, Horse Artillery, Infantry, National Guard, and he was with that regiment at the Mexican border from July 1 to November 15, 1914.

The battle and engagements in which Chaplain Rollins figured were as follows: Chaine-des-Dames, Thursday, March 16, 1914; Teulon, March 17, 1914; and Teulon, March 17, 1914. Command of the 6th Division, September 18, 1914; Tocula, October 8, 1914; and Tocula, October 8, 1914. Command of the 19th Division, September 18, 1914; Argonne-Meuse offensive, October 21, 1914.

He was awarded the Croix de Guerre June 8, 1918, and was cited in Orders of October 5, 1917 as a 2nd Lieutenant in the 4th Division of the 19th Division.

Chaplain Rollins was at St. John’s Church, Charlottetown, and from 1912 to 1915 was curate at St. Stephen’s Church, Lynn, and in 1915 he became rector of St. Michael’s Church, Marblehead, which position he still holds. He is unmarried.

In order to prevent the outbreak of a war, the German government has been taking steps to prevent potential conflict. The German government has been taking steps to prevent potential conflict.

The Journal Club

The college biographical club will hold a meeting next Monday evening in the student association room. The club is formed for the benefit of those interested in the biographical and scientific work. It is hoped that Dr. Tilden will be able to attend the meeting of the society on Monday evening.

The society is one of the best in the college, and I have been in contact with the boys for a number of years. It is interested in the biographical and scientific work. It is hoped that Dr. Tilden will be able to attend the meeting of the society on Monday evening.
