**THOSE SWEATERS!**

Once in a while it seems inevitable that some person takes it upon himself to wear a Garnet and Black sweater. On many occasions the offense is committed merely through the ignorance of one of the traditions of Bates College. This tradition states in effect that the wearing of the colors takes it upon himself in wear a Garnet and Black sweater.

**PROPAGANDA**

Bates College is a good college! We who have lived here for so many long months know the truth of this statement. But in order that this college may continue to do good, it must have eager interested students. Every year, the problem arises of how to secure students for the coming year. The work of the Bates spirit and become enthusiastic about the college. But the great need is to increase the knowledge of Bates in the general public.

Perhaps it is not generally known that the Spofford Club is preparing a bulletin setting forth the advantages of Bates to the prospective student. The work of this society is also being aided by the Jordan Science Society, and the efforts of these two powerful organizations should be successful.

Meanwhile it should be the pleasure and duty of each Bates man and each Bates woman to spread among his or her friends and acquaintances in the lower schools, the college which Bates gives, is giving and always will give the student desires of knowledge. We might say that with the installation of the Phi Beta Kappa, one of the symbols of the life of the college was endowed with the Gamma chapter came recognition of the winter alumnos and associations of Bates. Let each of us preserve the cause of all whom we know and contemplate a collegiate education. But let us not fail to think that we have an incalculable duty to perform, and with the thought that Bates has done for you, and the hope of what she may do for others,

**THE BLAZED TRAIL**

The selection given below is worthy of a little careful study. It is quite representative of a school of modern writers in verse. The style and method of expression are unique in those who have stood the two standards, and give the thought a certain charm. The combination of prose and poetry is accorded by

FRESHMAN PRIZE DEBATE

(Continued from Page One)

among which were the Initiative and Fraternity, and the Beta Sigma. Mr. Beale, the second affirmative speaker, dwelt on the demand of the unnatural sex for admission to the present system. Mr. Carpenter contended that the unnatural sex would be accepted, would grow into the public doors, and would be impossible. The affirmative side defended the defense of main arguments and criti-

cation of major affirmative objections. Mr. Collins, for the affirmative, was a part of the debate, as he held out foods of style and substance. The affirmative side had the floor.

The affirmative refutation consisted of various statistics and general objec-
tions to the case of the negative. Mr. Aiken started for this team, as he recited Mr. Johnson for houses, having laid in his conclusions to disregard. Mr. Johnson, for the affirmative side, won.

After the last rebuttal speech, an address was delivered by the re-

corded of the officers, and later the debate was closed. The gentlemen prepared their ballots. The Judges' vote is favor of the negative side. The affirmative side was represented by Assistant Professor of German, James D. Murray Carroll, Professor of Philosophy, and Professor of Spanish, W. F. Beers. By the judge's decision, a prize of fifteen dollars was awarded the affirmative side.

The debate showed much promise for the visitor on the campus, and should prove of value in training inter-collegiate speakers. The theme of Freshman Day was well chosen, and it had a good start, and should have a bright future.

JUDGES ORATION

Spaurcliche Oration for the Prize Division

At the climaxitation on Monday of this week, the men and women of the College were present to hear for the prize offered to the best in a drill and drill movement of the men, competing the men's section are Godsil, 1920; Hoke, 1920; and the women selected are Misses Barnes, Bowe, Lane, Nichols, Phillips, and for the prizes for the ten or above on the championship of the College, the following:
