BATES FALLS BEFORE CRIMSON
BADLY TROUNCED BY HARVARD

FIRST GAME OF SEASON RESULTS IN 53-0 SCORE

Bates fought hard to withstand the beating of Harvard Saturday afternoon, but fell to the score of 53-0.

Bates was in the game from start to finish but was beaten by a superior team. Bates was out played by the lighter Harvard team and the result was expected. No one who saw the game could say that Bates was not putting up a better fight than was expected.

The game lasted for four quarters. Bate's first two touchdown passes were scored by Captain Shattuck and Captain Kerwood. The third quarter saw Bates take a lead of 3-0 which was not surpassed.

The third quarter saw Bates take a lead of 3-0 which was not surpassed. The fourth quarter saw Bates cut the lead to 7-0. The final score was 53-0.

BATES SPIRITS REVIVE AFTER FOOTTBALL

INSPIRING MAINE RECEPTION

Bates spirit is on the rise after a bad game against Harvard. The game was expected to be close but Harvard was too strong for Bates.

The game lasted for four quarters. Bates was out played by the heavier Harvard team and the result was expected. No one who saw the game could say that Bates was not putting up a better fight than was expected.

The game lasted for four quarters. Bates was out played by the lighter Harvard team and the result was expected. No one who saw the game could say that Bates was not putting up a better fight than was expected.

Among the most important social functions of the college year at Bates is the annual Freshman Reception. This event is the first to greet the freshment class of '21, given under the auspices of the Young Men's and Young Women's Christian Association, was the first great occasion to be enjoyed by the new Chae Hall of which Bates is becoming justly proud. A word or so about this magnificent building might not be out of place at this time.

The Commod

To launch the Bates Student [and] to succeed for another year without some reference to the Commonds would be such a radical departure from time honored custom that we might find the step a little painful if this thing, the pastime of cramming, so sturdily fostered thry the years, has been eliminated definitively. It is with greatest pleasure that we, word of criticism has reached our official ear, no criticism either of the food or manage- ment! Fine! On the other hand, comments on the ex- treme responsibility of the students to maintain an unsullied name for the school, and the courtesy of the management are numer- ous and, we believe, well-founded.

The outlook is promising. President Taylor of the College, who will have just terminated her fellowship under the auspices of the M. E. T. Foundation, is soon to enter upon studies at Harvard University. We have a responsibility. We might as well admit to the public what we have long been conscious of—that the success of the new year is a sure guarantee of the future. The outlook is promising.

The Commons, the guardian of the papers, has increased the attendance from around one hundred to over one hundred-eigh- ty boarders.

We congratulate the management of the Commons on the selection of her successor. A sentiment of hearty cooperation between the new manager and the students is in the air and has existed for a long time. The unusual conditions resulting from the absence of Sanford High School last year are "Bob" Jordan '21, Harry Potts '20, and John Dean '20. It was with keen regret that we learned of the pass- ing of Sanford High School. President Jordan '21, Harry Potts '20, and John Dean '20, who have made a wise decision. If events move in ac- cording to plan, we will have the privilege of attending our school in the coming year.

The Commod has increased the attendance from around one hundred to over one hundred-eighty boarders.

BATES TOWNSEND CO.

A MEETING OF THE JORDAN SCIENTIFIC SOCIETY

The next meeting will be held two weeks from yesterday. Mr. Garrett and Mr. Allen Rine will speak.

BATES TO HAVE BAND

If after Thursday evening Don-ald K. Woodward '21 presented the seventh society in the college to erect the town in their athletic activi-

ties. The dominance of such music was, and this demand wise to all men, who could play any set of hand instruments, be a part of the organization of a real College Band.

Malcolm T. Totley '26 gave a brief outline of what we are to expect this season in musical activities. He man-
gaged the clubs and is at present ar-
ranging a scholastic program which may be one of the very best ever exhibited.

He expects the normal rush of dais for the term, and wants a large force to try out, thus obtaining the best possible results.

BIOLOGY DEPT. POPULAR

LABOR REGISTRATION IN MANY PLACES

This year's fair is to be a record breaker for the biological department at Bates. Prof. Pom-
eroy and Professor Instructor Sawyer, recently returned from France where he has been engaged in very im-
portant scientific work, are both very busy laying down the ba-

rings for the various classes in the various sciences. The Investigative Laboratory of the Yesternotes Zoology have an unusual enrollment. In spite of the informa-
tive conditions, both Histology and Botany are being offered, not to men grow on the campus, but to the Biological Department, and the subject of Botany is given twice. Botany reports a hall class, and the subject of Botany con-
ected with the Botany Dept. in offered under Mr. Lawson.

With General Biology starting every semester, the facilities of the depart-
ment cannot be used to the strictest. A pressing need for more equipment is felt, too, and the work may suffer severely if the necessary instru-
ments cannot be used in the closing, the class to which Prof. Pom-
eroy belongs has raised a sum of money which will be used for some such pur-

poses, but more must be raised in order for the proper program to be carried on. One of the best in this section of the country, may not be seriously affected.

HOPE TO ENGAGE SID PEET

COACH FOR TRACK

With the college again open, the com-

mittee on athletics is working hard to

secure Mr. Toty. Formerly a Track coach at Catholic College, he is to be the first man that is expected to be

recovered from the material, and

Mr. Toty is expected to be available this year. Capt. Baker is very optimistic, but wishes it distinctly understood that no team can be picked which will walk away with the State honors unless a great deal of hard work is put in by the track team.

The material on hand includes, as

well known by those especially interested in this branch of the game,

Capt. E. S. Baker, who showed up well in the Harvard-Princeton game. It is expected that Mr. Rayner, who is used to theinder part, should be the star of the team. He is the only man who has been able to line up the "Bates" trio in College; A. Levine, of Wakefield who has run the marathons with such an ease that he seems to have no bounds, and Fred Lindley, Newton Loomis, an ex-
