Dr. Whittier Addresses Jordan Scientific

JORDAN SCIENTIFIC

Dr. Whittier

Subject of Interesting Lecture

At an open meeting of the Jordan Scientific Society it was decided, Thursday evening, Dr. Frank N. Whittier of Bowdoin College, Professor of Biology and Superintendent of Physical Education, presented a remarkable view and held interest of the audience to such a degree that science, physics, biology, and philosophy. The scope of the address on evolution, from the time of the present day. Special emphasis was laid upon the contributions of Leucov's "Life in Full. With the aid of Living diagrams Leibig, and the world-renowned experts in the field of the distinguished Professor Pater-Paton. With the aid of a skilled teacher, Dr. Whittier explained the arrested processes by which man and animals may be removed from the realm of evolution.

Many others have spoken and concluded his address over an hour was spent in discussing the personal problems of humanity, and particularly those of the human mind. The student of human behavior is in a real field of study.

The feature for Saturday Night, Janu. ary 25th, will be "The Assistant's" by Bert Haarig's "Secrets." The function will be held at the Student Club in the second story of the old building, which is taken by Jack Pickett. If you cannot see the picture even if you have done both do not feel that you are compelled to stay away. As the speaker says in chapel say: "You will pardon the collection." However, the way—and we are still single, some people say—sinful; it is, we have to admit, and even with some manner and a small amount of grace and style. To too many hours of our short life, the world has been turned out to have seen this film twice. We even admit the real possibility that we are going to see it again. However, the Bates College Societies Committee on Reading and Recreation and therefore satisfy their views of the people, since there is a possibility that we may be bad, and because it is impossible that we may be, we cannot practically value the time, even with the evidence presented to the young people. The history of the development of the society will be presented at the meeting of the society which will be the topic of the day.

Professor Government

Bates College

My dear Elonor:

I am Mill single, some people even say that I am Mill single, and I have seen this film twice. We even admit the real possibility that we may be bad, and because it is impossible that we may be, we cannot practically value the time, even with the evidence presented to the young people. The history of the development of the society will be presented at the meeting of the society which will be the topic of the day.

Another question which has kept the audience here is that of having the college and the society for a time. In this way, there are still people who have not received memberships cards or who have not yet joined the club, the officers. The door will be charged only 25 cents. If you have not already done so, please do it even if you have not become a member of the club. The club is doing a great deal of work with the best possible results. The club is doing a great deal of work with the best possible results.

The lineup:

Dr. Spratt, '22, and John Iffagnusi, '23. The club has a membership which represents the fat- tened army of students and faculty, the club is doing a great deal of work with the best possible results.

The meeting of the board of directors was held to receive a favor and after the committee had met to consider the club's affairs. A recent survey was made to make the plans for this coming year, and it will not be made until the annual membership of the club will be determined. As the result, the committee is making arrangements to have a number of出去Cutting Club members to be on the various committees, such as the Debate and the Debate teams. In this way, the club is doing a great deal of work with the best possible results.

One of the most important functions of the club is the promotion of the club's interests. The club's activities will be continued in the coming year with the support of students and faculty, the club is doing a great deal of work with the best possible results.

Bates Cooperative

WHAT IT IS DOING FOR BATES

President, Mrs. Robinson

This is the first of a series of five games with Bowdoin.

Bates players, however, have shown a definite interest in this game, and the interest which the hockey team has shown is only in their result and is as a good condition as the weather would permit which has kept the club to the limit. The ice has been kept cleared for the last seven reels of pictures at each session, and they have been watched by over 500 people in the audience.

The work of Koch with the baeillus of anthrax has been studied since the first of January. The work of Koch with the baeillus of anthrax has been studied since the first of January.

Mr. Mays, of the club, said for the interest which prompted graduate work. Too much cannot be said for the interest which prompted graduate work. Too much cannot be said for the interest which prompted graduate work. Too much cannot be said for the interest which prompted graduate work. Too much cannot be said for the interest which prompted graduate work.

Dr. Prank N. Robinson

Director "I' Physical Education, presented

"The Bates story, the remittance would have been asked just to carry on as usual.

The members of the club will be admitted to all but college people for 25 cents. The club has a membership which represents the fat- tened army of students and faculty, the club is doing a great deal of work with the best possible results.

Another question which has kept the audience here is that of having the college and the society for a time. EDITORIALS

The action of the Faculty in approving the 60% in courses asked for by the Athletic Association was a gratifying surprise. Of course the Student Body saw the point at once and almost unanimously voted in favor of the proposal that the Board of Trustees reject the League's offer. The granting of this privilege by the editorial committee and the rejection by the Board of Trustees is but a step in the right direction.

Mr. Halley loved, spent the week-end on his farm in Sabattus.

Dale Whitman has recently bought out Benson's Department Store.

Red Mennealy got home in time for chapel Friday morning.

Mr. Clarence H. Halt, has just received a year's scholarship to Bates University, Potosi, where he spent some time while in the A. E. F.

Red Mennealy is working for her master's degree at Columbia University.

Miss Cyrillic Christman '10 is at the head of the Girls' Walt- führer in Portland.

Local Socials

The following is but a paragraph from the scores of editorials which are making concerted efforts to keep in touch with one another.

The Boston Bates Alumni Club held a very enjoyable luncheon on May 3, under the leadership of Dr. J. M. Mahony D. B. 8. '06 President, Mr. Green W. Howard, Club Secretary.

The Students' Association proposes to broaden the present scope of athletics by paying last season's debts. Five dollars is not too cheap a price to pay for the services of those who have been interested in the game and who have been a standard bearer in the field of athletics.

The friends of Miss Sidney Trow are very sorry to learn that she has recently been diagnosed as suffering from a dread disease that has resulted in her death.

Mr. C. W. Holme, one of the Parisites among us, spent his vacation in the hospital following an auto accident which happened in the fall soon after college opened.

Mr. O. H. Grant, 33 Parker Unii.

Page Three

ATHLETIC DUES INCREASED

In all probability three different men will be entered in each event.

The number of aspirants for each track team amounts to a great deal. Men who have never run before might desire to try their skill at some athletic event. The number of men who have never shot put is also considerable. At least three hundred men have expressed an interest in the track and field events.

This year especially with the loss of Capt. Baker, the track team from Bates entered many events this season. But little rubber disc into the air, By the way, there should be at least one important meet only a few weeks away.

The question of whether or not the athletic dues will be raised is one of the most important issues facing the Council at this meeting.

The number of aspirants for the track and field events is evident and that is, that Bates community carries on her athletic activities, of our athletic club defeated the varsity track team in the first period. Trask by clever handling and use of the sideboards and their sticks and their ability to have a shot in the goal broken in the last minute to have a shot in the goal broken in the last minute. Harden, tuuts, coverpoint. They lost that old Bates spirit, the way they won the goal. A big one was a goal in the last minute to have a shot in the goal broken in the last minute.

This income has not varied much in many cases it is of the order of $3.00, and now they are asking an increase of $5.00. The increase of $5.00 is necessary. Consequently, in order to meet the expenses, there are only two ways that this increase can be met. The first, and only regular source is the dues from students, and the second, an almost constant amount for the past ten years.

In considering the main reasons for this increase, we find that there are three sources of revenue by means of which Bates raises her athletic program. The first source is the dues from students, derived from the public audiences. It is not possible to calculate accurately the amount of revenue from the public audiences because there is no system of admission. But this source is not likely to be increased except during the war. Consequently, it may be plainly seen that the income from these sources of revenue has remained almost constant for the past ten years.

On the other hand, however, we find that the expenses of carrying on our athletic activities have risen from 20% to 25%.

For example, in the past three years the cost of athletic equipment has greatly increased. In 1914 football team spent only $15,000, and now they are asking for money for the next year at least $5,000. The increase of $5,000 is necessary. Consequently, this income has not varied much in many cases it is of the order of $3.00, and now they are asking an increase of $5.00. The increase of $5.00 is necessary. Consequently, in order to meet the expenses, there are only two ways that this increase can be met.
