FRESHMAN CLASS RIDE REINSTATED

"Y" Association Takes The Place of "Uncle Johnny"

After a lapse of a year or two since the death of Professor Stanton, the freshmen of Bates, being a self-important and studious lot, who can find nothing else interesting to talk about, but their own class, decided to resign the old office of "Uncle Johnny," whose tenure of office was always a comfort to the freshmen, and award to this class the honor of founding the office of "Y" Association. Although the word is a synonym of "youngster," and is often applied to professors, the freshmen did not object to its use, and in fact took it as a compliment to have the honor bestowed upon them. The "Y" Association was organized on the first of October, and has met regularly since. It has one purpose, to educate the freshmen in the arts of being sociable and self-satisfied.

SHORT DISCUSSION AND DEVELOPMENT OF POSITIONS TAKEN UP AT MEETING OF "DUTCH CONNECTS"

At a meeting of the "Dutch Connects," a course in which the freshmen are taking the lead in their political studies, discussion was held on various American policies. Professor Chase, a member of the "Dutch Connects," said that he was pleased to note that the "Dutch Connects" were doing their own thing, and not following the lead of the "Swedish Connects." He reminded the "Dutch Connects" that the "Swedish Connects" had been doing their thing for quite some time, and that they were not likely to be followed by everyone. The "Dutch Connects" agreed that they would continue to do their own thing, and not follow the lead of the "Swedish Connects." The meeting adjourned.

HOBSON ACADEMY: 2 BATS 2ND 0

In a very fast service game the Bates second team held Hobson Academy to two touchdowns in Bates's field last Saturday. According to a local paper the Hobson line played against much weaker opponents. According to this statement and you will know how little information is available in this office. Although it is not possible to obtain estimates of weights, it is safe to say that the Hobson line outweighed the Bates line from 10 to 15 lbs. The Bates extra weight in the Hobson line was largely due to the use of an instructor who was 5'6" and 170 lbs. He assisted the Bates in filling the gaps and was well suited for the job. The Hobson line was not able to keep up with the Bates line, and was soon defeated by the Bates line.

This comment may be unqualified for; we hope it is, but in our desire to do nothing to discourage the field or with the football team on the bleachers rooting for his class tomorrow afternoon.
