GIRL'S "STU" GOES TO VOTE ON POINT SYSTEM MONDAY

Plan Limits Number of Offices to Be Held by Candidates

The number of the Bates College women's Student Government Association will now be limited, Monday, during the conference held by the various clubs and organizations in the office in the various college organizations. The proposed system gives a stated number of places for each office to which girls are eligible. No girl may hold office acting for more than ten years at any one time.

The office has been granted according to the amount of time and effort needed and will be held by certain students of the W. Y. C. A. and the Student Government Association highest–most–
right points. Six offices are provided, being one presidency and secretary–treasurer of the Student Government Association, and the house secretaries. Other Student Government organization members, including certain W. Y. C. A. cabinet members, are elected by the Student Government Association. Lower offices occur twice, or two, or one point.

However, it is hoped that this system will be applied to the position of class secretary in the near future, so that no girl will be overburdened with work. The system is at present in effect in other colleges, and this material has proved successful.

SOPHOMORE DEBATE TRIALS COMING MONDAY

Four Men and Four Women To Be Chosen–Prizes of Fifty Dollars Offered

Not the least important among the duties of the debating society is the doing of some prime debate. Trials to select the speakers for the debate between Bates and Bowdoin will be held on Monday at three-thirty o'clock, the judges being the Hall men, in the Chase Hall.

Each speaker will present a five minute argument on some subject of current interest. Since each member of the class chosen for debate was selected by the vote of the whole class, it is expected that all three will have sufficient material for their speeches. In such a division, four speakers and two alternates will be selected.

The public debate will be held about March 19th, when a prize of fifteen dollars will be given to the winning team of men, and a similar sum to the best woman's team. In addition ten dollars will be given to the individual speaker in each category.

The Sophomore debaters originate with Professor Professors J. A. White, J. W. Sten- sons, who is the most likely to be chosen for the prize. The contestants have each done their share, in that the week has been the major team of the year. The debate will be held in the Chase Hall.

HUMANISTS—ON THE WIRE

It is not such a long time ago that I had an encounter with the spirit of Washington. I met him in the Lincoln Memorial, gazing across the river toward the National Cemetery in Washington where so many of "Lincoln's boys" were laid, was fashioned with a simplicity and grandeur after the pattern of the man.

THE MONTH OF WASHINGTON AND LINCOLN

Within ten days of each other come the birthday anniversaries of the two greatest Americans. Washington and Lincoln may rightly be called this, for patriotism, devotion and sacrifice to their country, was the keynote of their lives.

Washington was a product of the finest culture of old Virginia, while Lincoln was a son of the new and crude Frontier. The first was refined and polished in appearance and manners; the other was smooth and awkward. Yet both were marked by a deep humbleness and simplicity.

It is the custom in Washington by the city which bears his name. In it is reared a lofty monument. But that which best preserves for us the spirit of the man is the home in which he lived, Mount Vernon. Here Lincoln lived and here his body is laid. The plain, but beautiful colonnade, overlooking the Potomac which flows at the foot of the sloping lawn, is filled with the dignity of the personality of Washington.

J. W. KENNELLY, '23

The first has to do with the overrunning of the building by outsiders. It reached, the only solution of which will be found through an appeal to the cooperation of the college students, men in particular. The Committee asks the help of all men students in two respects.

The second point of cooperation aims at the selfish and thoughtless use of machinery in the lounging room. The second point of cooperation aims at the selfish and thoughtless use of machinery in the lounging room. The second point of cooperation aims at the selfish and thoughtless use of machinery in the lounging room.

Mrs. Wayne E. Davis

The funeral of Mrs. Wayne E. Davis was held Sunday afternoon at the home of her brother, C. E. S. Andrews, Auburn. Harry Rowe conducted the service, and on Monday the body was taken to Maine, N. H., for burial.

Mrs. Davis was the wife of Wayne E. Davis, 29, president of the public utility director for the million dollar drive. She was born in Mechanic Falls in 1895, and was a graduate of Bates in the class of 1915. During her college days she was president in all student activities. In 1916 she married Mr. Davis. When Mr. Davis was in Y. M. C. A. work during the war, she also took up work. She has held several teaching positions, and while at Colby College she acted as assistant, president. Mrs. Davis had intrusted to accept a position in the Boston office. Our sympathy goes out to Mr. Davis in his bereavement.

Mrs. Sophieonia Robinson

Last Saturday we were surprised to learn of the death of Mrs. Sophieonia Robinson, the mother of Professor Robinson. Until about two years ago she had been exceptionally well, but since that time her health had been gradually failing. Mrs. Robinson was known to friends as a woman of charm, of culture, and of great integrity. For a number of years, the only son of her brother, Joseph Smith, who has used her for her own service. Overall, he held Monday afternoon in their own house and the services were simple yet very affectionate. There were some beautiful and touching floral pieces from her friends. Professor Leonard, Kenney, Indian, and Chase were the mourners. We all, students and faculty, join in expressing our warmest sympathy.

MRS. MONTGOMERY SPEAKS TO CO-EDS

Last Thursday noon at Rand Hall directly after lunch, informal talk was given to the senior girls by Mrs. Montgomery. Mrs. Montgomery is the president of the Moose and has been an interesting talk so far. The talk was based mainly on the college and its activities. She spoke in detail about the increase in membership in the last few years and the many interesting in-

FRESHES WILL MEET IN VERBAL
COMBAT TUESDAY

Federal Ownership of Coal
Mines Subject to Be Discussed

The Bates system of training debaters

gives the freshmen a chance. When

thearsity debates are held in November,

seventeen of the first men enter the

lists. The plan desires the men of

the class who will be held in Assembly

Room, Hallows Hall, on Tuesday even-

ings, at seven-thirty o'clock.

A. H. Gossing, Portland, H. B. Bailey

of Rockport, and R. E. Douglas, An-

trim, will uphold the affirmative of the

proposition, "That the Federal Government

should own and operate the

coal mines of the United States.", and

L. F. Studard, Damariscotta, Northfield,

Ar-

buckle, and D. F. Swenon, Southport,

Conn., will have the negative. These

men have all had experience in the pre-

paratory school ranks. Gossing, Oram,

Field and Studard have all starred in the

Bates Intercollegiate Debate League

as a member of the "second team," which

tried to demonstrate the same theory in its preparations

for the Yale debate in December.

The question, in view of the trend

to strike by the miners on April 1,

will be of interest to every household-

er, who, by the way, includes every income

of Bates college classes.

This proposal involved a strong battle when

Harvey and Treadcity argued in City Hall

before an overflow crowd a year ago.

Firstly, the battle of the years, was the

new, competitive debating victory for

Bates. The proposition is also used

by the thirty schools of the Bates

League for their meet in March.

In this first year debate a prize of ten

dollars will be given to the victorious

team.

Aston and Johnson, of the present

intercollegiate Az. A., will star again in their

seasons' public debates.

This presentation is quite

the general direction of the Bates Debating Forensics.

YEARINGS LOSE

TO M. S. G. 12-10

Plenty of Rough and Tumble
But Not Much Scoring

Small scores seemed to be in vogue

Wednesday night when the Freshman and

Maine School of Commerce received the

lowest, 27 to 10, with the Bates

university victorious. Neither team did

play as well as expected in shooting

and much clever work was in

vain because of the poor shots.

The first shooting was poor on the whole.

Captain Chilton scored the first four

for the Freshmen. It was a well placed

shot. Hamilton registered the only other

shot from the floor for the 20 team.

Kerney tried six from the foul line.

Hamilton and Martell played well for the

cavalry. The headquarters for the victors

were Watson and Murray.

Score:

MAINE R. C.

Bellingham, If 6
Watson, If 4
Tracy, If 6
D'Onoran, lb 0
Murray, lb 1
Charles, lb 0
Totals 17 12

BATES 12-10

Chilton, If 4
Hamillton, If 1
Terry, If 1
Kerney, e 6
Martin, lb 0
Huntington, lb 0
Totals 9 10
