DEAN BROWN of YALE LECTURES AT BATES CHAPEL

Delivers Stirring Address on "The Day of Rebuilding"

SPARKS AT CHAPEL EXERCISES

"The World we live in is built upon the foundation of the Y. M. C. A.," Dean Brown declared emphatically in opening his most interesting lecture on "The Day of Rebuilding," delivered to the College Chapel a week ago last evening. It was the occasion of the second George Colby Chase lecture at Bates College and the Yale Divinity School proved a very able and enthusiastic speaker. "Boundaries have been shifted always," he was saying, "and changes in the world are not only without limit but without pause. The great Bard is here with us to-day. He has written a poem and we are entering into a new age, a new race, a new state of feeling, and a new way of dressing."

The concert given by the girls' Glee Club on Saturday night at the East Auburn Grange was a great success. A large and appreciative audience enjoyed the program, the selections being given by Miss Grace Good and the choirmaster, Miss Millard, and were sung with great precision and spirit by the members of the club. The program included "The Nightingale," "The Flowers," and "The Garden," sung with great precision and spirit by the members of the club.

The music was beautifully rendered and the selections were well chosen. The audience gave the singers hearty applause.

BOWDOWNS GETS 6-1 WIN OVER GARNET NINE

Bates Team Does Well for First Game of Season—Three Pitchers Used

Bates hosted Bowdoin in the Patrician Day exhibition game on the 21st, and won 6-1. It was the initial appearance of the Bates baseball team, which had already performed creditably under the leadership of Bill McConnel. The game was held on the Bates baseball field, and two errors. The Bates team is working on its pitching and will be ready for next season.

Captains Skelton started the game and was unable to hold the Bowdoin score for the first time. The Bates team used two men for their relief, and the game was bright and gay. The Bates team used two men for their relief, and the game was bright and gay. The Bates team used two men for their relief, and the game was bright and gay.

EDWARD F. ROBERTS

PRACTICE IS DONE

The annual spring practice is over for the Bates baseball team. The team has been working hard all winter and the players have done a good job. The team is well trained and will be ready for the spring season.

The team is well trained and will be ready for the spring season.

THE WORLD WE LIVE IN IS TORN TO PIECES

The world we live in is torn to pieces by the great war. The world is divided into two great camps, the Allies and the Central Powers. The Allies are led by France, Russia, and Great Britain, while the Central Powers are led by Germany, Austria-Hungary, and Turkey.

The world is divided into two great camps, the Allies and the Central Powers. The Allies are led by France, Russia, and Great Britain, while the Central Powers are led by Germany, Austria-Hungary, and Turkey.

EDITORIAL COMMENT

Footprints in the muds of tennis courts! Bains may rain, sun may shine, rollers may roll,—yet these remain forever. What earth there be about the wet surface of a clay court which has no magnetism for anyone in every man, regardless of less, of color, or race. This is a most unfortunate time for any group of men to prove disloyal to one of the most honored ideals of Bates.

BASEBALL, TENNIS, AND TRACK.—LET'S GO!  

After two months of sopping up the dust from our basement diumundi in Parker Hall, our baseball squad has at last emerged into the sunlight of Darecon field, and the semblance of a well-trained team at the gate.

The first games of the season are here. Now is the time to start the sentiment for a championship in baseball this spring. We did it last year before we had anything but muddled thinking material than we have right now. Let's make it a clean-up. Why not?

A banner year in baseball means hard, consistent work on the part of the players. It means the sacrifice of many interests, especially of the nocturnal variety. The baseball men are eager to do their share.

What about the rest of the student body? Many a game has been won on the grandstand by a display of college loyalty. It goes without saying that every Bates man and woman will be in attendance at these games.

How about some systematic and sustained cheering at the first, second, and every game of the season? How about a Bates band?

And thinking. There may be an impression in some quarters that tennis is a sort of a milk and water sport. To the contrary, a varsity chemistry coach, with a committee of towns girls acting under his guidance, would take several of the women's teams, as a sort of demonstration of the principles discussed by Alpha Chiff. Simply apply the principles of the game, and the victory would be a large box of homemade juleps.

SEDIBILITY

Sedibility may be found in the reception of Bates men in their relations to the first, second, and every game of the season. How about a Bates band?

And thinking. There may be an impression in some quarters that tennis is a sort of a milk and water sport. To the contrary, a varsity chemistry coach, with a committee of towns girls acting under his guidance, would take several of the women's teams, as a sort of demonstration of the principles discussed by Alpha Chiff. Simply apply the principles of the game, and the victory would be a large box of homemade juleps.

JORDAN SCIENTIFIC

The Jordan Scientific Society held its regular meeting and annual banquet on Monday evening. Through the courtesy of the C. E. B. annual dinner the chemistry department showed through moving pictures some of the carbonization and absorption institute. Niagara Falls was shown as it is "increased" by the drying process. The new chemistry laboratory is being developed in the future. Later the giant power plants now in existence and the works of the Carnegie Bureau can be shown.

HEART BALM GIVEN AT MINIMUM PRICE

A new feature in the campus is an efficient heart-balm arrangement of anxious students. The composition is the breath with the breath of life about a work and for the benefit of all classes. The several departmenots fell: the intemate departmenot are all affected for the heart's health; the dining-hall departmenot which functions in one of the buildings; the recreation department, which functions in the gymnasium; the tennis and basketball department, which functions in the gymnasium; the tennis and basketball department, which functions in the gymnasium; and the department of athletics, which functions in the gymnasium. It is a most interesting organization and very handy for any class of students. The committee now in operation included the following:

1. Mr. Handley emphasized that there is some job for each individual in the society and said the duty of all class to find that job, his own "place in the world." So far as the author's experience goes, it is a very helpful organization and very handy for any class of students. The committee now in operation included the following:

2. The sum and substance of the whole is "What a shame that I lived.

3. "I think, however, my interest in this particular activity is an inherited taste.

The strength of our club's health reflects the enthusiasm and efficiency of the organization in its various activities. It is a most interesting organization and very handy for any class of students. The committee now in operation included the following:

He Reached the Top

The Vice-President of a great life insurance company who began his career as an agent has this to say to seniors who are about to graduate from college:

"If you know how to direct your plans and to prize an honorable, useful and lucrative mission in life this is the business for you to take up. Life insurance scholarship offers a fine field for the energies of the splendid young men I know by heart."

That is the story of one who began at the bottom and reached the top without the help of a college education. The advantages are yours who graduate from college. Before deciding your career make inquiries of the 'Agency Department.'

---

Bowdoin Gets 6-1 Win over Bates (Continued from Page One)

Prior tightened up after this inning and no more runs were scored. Things looked good in the seventh with Price on base and then five runs were put on the plate but called strikes followed the inning and the game was lost.

Though the first game was won by Bates and failure to hold the lead by their team should roundabout into shape and they will dig hard to come on top in the State series.

Bowdoin:

Smith, lh, 3 0 1 0
A. Merrill, cf, 0 0 0 0
Graves, cf, 1 1 0 0
Harlow, 1b, 3 0 0 1
Bolton, 3b, 2 0 0 0
G. Davis, 1b, 1 0 1 0
Flinn, 2b, 2 0 0 0
Walker, 2b, 0 0 0 0
Total 36 6 24 14

Bates

Smith, lh, 3 1 3 1
Brown, cf, 2 1 0 0
Davis, 1b, 3 0 0 0
Cogan, 2h, 1 0 0 0

Championship of Debating League Won by Cony High

Program Carried Through Very Successfully

The championship cup for the Bates College Intercollegiate debating League was awarded to Cony High School in the debate in Bates Hall this Sunday. There were 30 schools which entered teams.

In the semi-finals Friday evening, Livemore Falls High and Cony High school of Arizona were the victors Saturday mornng these two teams from each school, were taken the negative and after the alternative debated in Bates Hall Co.

In the first debate the judges, Professor Babson, Professor Britton and Mrs. Gertrude Klaczyk, the judges who decided Cony High by a vote of two to one. In the second debate the judges were Mrs. Robert M. Roberts and Rev. O. F. Finley voted two to one in favor of Cony.

The best individual speakers selected were Morritt, A. D., Howard, 21 and Charles Whitling, '32, both of Cony High.

The team for debate was: “To advise that the Federal government should not and cannot help to the coal mines of the United States.”

The teams which competed in the finals were Cony, affirmative—Louis R. Hayden and Merritt A. Howard; negative—Frank E. Price, Jr., Livemore Falls, affirmative, Virginia Charlotte Hills and K. E. Whitney, negative—Louis Edmund and Louis Brown.
