SOMATIC THEOLOGY by Rev. E. W. Pray...
STATEMENT

With this issue of The Bates Student the responsibility of its publication is assumed by the Class of 1924. The new Editorial Board hopes for the earnest cooperation, not only of its own class, but the entire college. This is no mere change of administration, but a fruitful issue of the student content. The responsibility the new editors carry is an integral part of their educational training. The students are the backbone of the college, and the student's responsibilities, including the control of the student newspaper, fall on their shoulders.

The board feels convinced that more recognition is due the students living off the campus. Accordingly, we have instituted a department called "Off-Campus Notes." This should prove of interest to students who attend these institutions and to those who own their own views on various matters of interest to the college as a whole. We hope this opportunity will be taken full advantage of and, through a wholesome discussion, contribute in its turn to the development of the campus.

The new board hopes for the earnest cooperation of the student body, for it is their college, devoted to their interests, and in their hands.

We again ask for your cooperation and honest expressions of opinion. The Student is, primarily, your paper. Because you have not been consulted in the policy of the past, feel that you have a right to express your views. Feature articles will always be welcome. Let each and every Bates student, alumnus, and faculty member give his attention to the publication of a free, free weekly.

THE FOOTBALL SCHEDULE

We are sure that the student body, alumni, and faculty most heartily endorse the football schedule for 1923, as announced just before the holidays. The morale of the entire school drooping the larger institutions from the list of opponents is not to be doubted. Too long has our college, with its three hundred men, rushed against institutions in the three or four thousand class. Any financial gain in football, in such a policy can never counterbalance the injustice done men in lining them up against such heavy odds.

The out-of-the-state opponents next season are Wesleyan, Tufts, New Haven Normal, and a Massachusetts Argus. Each of these colleges has an eleven which will respect as worthy opponent and one that will give our boys plenty of fight all the way through.

With such a leader as "Bob" Scott, and such fellow men back on the job as Kempston, Moulton, Rowe, Tarbell, Bergman, Aspasian, Price, Peterson, Woodman, and Fellows, we can look forward to a fine season.

Coaches Catts and Wiggan have the entire college behind them in their new policy.

We take this opportunity, on behalf of the student body, to thank the anonymous donor of $60,000 towards the Million Dollar Fund. It is a most generous gift.

We hope that henceforth the inhabitants of the men's dormitories keep their hands off the fire extinguishers except in the case of fire. They are expensive playthings.

Why not begin the New Year right and keep to the highways of Parker, and the other dormitory. Surely the janitors are doing their share. Let the rest of us do ours.

Remember that the "Open Forum" is really OPEN and will be pleased to hear from you.

Y. W. C. A.

We believe that the subject was passed to the faculty of the college. It might well be the subject, but which is willing to hear it, to be the concomitants of a war, and such a war as this may produce. It is not a dead issue, as it is usually lived one which might profitably be discussed.

The proportion of seven or eight minor points that have been raised against the fraternities have not been handled by either instructors or students, because the number is still too small. There is also the advantage of breaking the old lines. Bates men lack the "bit" to the new affiliations this year or to the old men, who are in charge of the World Fellowship Committee. At the usual meeting on Wednesday evening, Miss Ramsdell Scientific met at Cheney House last evening. The program was devoted to "Little Women."

WHAT OTHER COLLEGES ARE DOING

Interest is devoting to Brown University today has eclipsed most of the other athletic activities. This may be due to the fact that a new affiliation this year or to the general increase in the attendance of events. While Brown has no college fund for the support of athletics, it is well known that the institution is willingly to maintain voluntary contributions in exchange for a working man. Feature articles will always be welcome. Let each and every Bates student, alumnus, and faculty member give his attention to the publication of a free, free weekly.

DEBATING TEAM DEFÉATS YALE

The Bates Debating team made up of William E. Young, '21, Herbert Morrell, '21, and Herbert Qoogina attended a similar conference held at New York Public Library School.

Barnsbury Scientific.

All individual class pictures must be in at once for 1923. MacDonald, New York wiric, is spending this year in study at the New York Public Library School.
NEW HAVEN EDITOR ASKS HOW DOES BATES DO IT?

(Continued from Page One)

Bates wins suggests nothing else than valuable method. Bates has been doing the same thing as all Bates men. Their decision of argument was mathematical. The upholding of each point you were like the precision of a brick wall, on their whole argument was like a carefully rejected or accepted proposition, and by faithful training they had learned to emulate and mirror, in a single answer, point by point, and even sharp return on an antagonistic issue. As the stages of argumentation are in place, in which the Bates alumni in the audience shared, with the psychological mannerisms of their very words were certainly done so. It was home fighting, and the evening was not a campaign. So we repeat they actually believe at Bates there is a machine—nothing else—but a held people homely; such is the potency of merely a facilities delivery.

"It might be added that at Bates is a teacher of voice culture; year after year the boys are drilled in the delivery of tone, control of the vocal, the intelligence and emotion which are the marks of the great speakers and politicians. But it is not much of the system as in the vocabulary they speak, with their effects with so much as in the matter of delivering. The boys at Bates would be able to read the multiplication table—nothing else—but a held people homely; such is the potency of merely a facilities delivery."  

****** It is very important, this movement in colleges to equip men to the coming of their time. One who influences the thinking of his subordinates is apt to keep on after his graduates influencing larger groups.  

What "Bates Rooter" Says—

"I teach.

Because I would be young in soul and mind

Though years must pass and age my life contains,
And I have found so many ways to beg the ban,

The fleeting years, save by the magic charm

That binds me, youthful, to the youth I love,
I teach.

Because I would be wise and warn

From millions gone before whose torches I pass,
Still burning bright to light the path that will be trod and rugged, for each lad and lass,

Down-climbing to the unshod abyss

I teach.

Because in passing on the living flame

That ever brighter bums the ages on below

I have done service that is worth the name.

O but I say, "The flame of knowledge grows

A little brighter in the hands I taught,"
I teach.

Because I know that when life's end
And thence pass through the gate so wide and deep

To what I do not know, save what 

That the remembrance of no man will keep

In what I have done and what I have taught,
I teach.
