The Great War brought many changes in the colleges of the United States yet perhaps none of them have been as striking as the sudden growth in interest in rifle shooting as a regularly constituted college sport. This is due to a wide variety of causes. The chief reason seems to be that during the war many Americans who had never owned rifles before were suddenly forced to use them very frequently with it. What is more, they were dependent on their rifles and the skill with which they used it for their own lives and many of them learned to love their rifles. At the end of the war they did not wish to give up their newly acquired art altogether and welcomed the chance to practice it at colleges.

Then, too, there came to many people all over the country the realization that the best prepared men are the ones who are the most responsible people in peace. There could be no better preparation than a general knowledge of shooting among the college men of the day.

Men who have never shot to any great extent but wish to gain some understanding of the great sport may find it helpful to approach the subject through the following editorial.

**MUSICAL CLUBS**

**RIFLE SHOOTING AN INTERCOLLEGIATE SPORT**

BY WILLIAM R. RIDGE

Manager of the Intercollegiate Association of affiliated Rifle Clubs

The Lewiston Journal, through its Editor, has done a fine piece of work in gaining a considerable amount of interest in rifle shooting among the college men of the nation by sending each year a certain number of recognized college teams (not R. O. T. C. teams) to the National Matches in the summer. The service is all the more worthy in that it will go practically to every small college. Yet those who are really working for the sport will never even be as familiar with the rifle as those who are really working for the sport will.

OPENING GAME OF TRIP A THRILLER

Coach Wiggin’s Outfit to Meet Princeton Next

West Point, N. Y., Jan.–Feb.—Bates defeated Princeton 2-1 here this afternoon in a slip-and-chuck battle. It was the first game of the year. The Maine boys turn up a couple of fresh faces tonight, and Princeton found his task on Tuesday night. Victory was the only score of the night, and the game was a conflict of skill and strategy.

**CONFIDENCE**

In the store where you are dealing is an important consideration. A store that has a high degree of confidence in the quality of its merchandise will be more than willing to stand behind its guarantee and give you the best possible service.

**CONGRATULATIONS ON THE NEW BATES CO-ED DEBATE TEAM!**

The Bates Co-Eds have a bright future ahead of them. They have shown some skill in debating and it is expected that good results will be obtained.

**OPENING GAME OF TRIP A THRILLER**

Coach Wiggin’s Outfit to Meet Princeton Next

For the first time in the history of the college women are able to compete on the same basis as the men. This innovation seems to be in line with the policy recently announced allowing women students to participate in intercollegiate debating.

It is hoped that the freshman team will also produce the winners of the Sigma Delta Kappa em on the Bates College Interscholastic Debating League of Maine. Prizes are awarded to the winners.

**FOR PRIZE DEBATE TO BE HELD SOON**

*Summary*

The Debating Council has been kept busy in the interest of a fore and a few weeks now trying to arrange a schedule for the Bates debates. A request has come from the University of Washington asking Bates to meet a team from that institution. The Council voted to accept the challenge.

**MUSICAL CLUBS MAKE FINE TOUR**

Audiences Enjoy Program Recorded by Bates Musicians

Sunday afternoon twenty-five members of the Musical Club returned from a three-day trip to three of the neighboring towns in each of the Harvest Musicale Associations, corps are in line at Bates this week. This coming week is bound to be a great one for the Bates musicale. The following ed- ition is self-explanatory:

The Hockey Team

The hockey men are off on a most strenuous tour, and at a time when mid-year exams are facing them on their return. This feature of their unexpected vacation is a source of great satisfaction. It is a matter to be away from class a week or two weeks after the season, it is a matter of course.

GARNET AND BLACK VICTORIOUS IN TWO MORE HOCKEY GAMES

On Saturday evening the Sophomore class was the host at an excellent dance for the benefit of the class quota to the Million Dollar Fund. The advance word designated the dance as a radio affair and some unknown music, perhaps the presence of static in the atmosphere prevented the maintenance of the sound wave, which, we are sure, is as much as the music furnished by the "College Symphony Orchestra." Real, especially pleasing was the work of Miss Geo. Vinehous at the trumpet. Mr. Whitehall has been with the Cliff Edwards Society Band on the Second Circuit for the past five years and is a musician of no little ability. Dancing began at 7:30 and continued Kathleen Mr., Chauncey, prexy of the class assisted by the class organist for the Fund. The effervescence was present and Mrs. Catto, Professor and Mrs. Arthur L. Purinton, Dean Lessa M. Miles and Professor G. R. Robers are likely candidates for the Grand Army and allies and faculties.

\'Archies,\' however, is a minor injured knee, and may be unable to play in the Sophomore games.

The lights are being installed on the hockey rink this week, and night games will be possible. It is hoped that the student body will show their appreciation of the hockey team's efforts by backing it with full attendance at games.

Despite the very unfavorable conditions, the hockey team is doing well enough to be a contender for the championship. The work has been done more efficiently than in past years.

The Bates Institute continued their home game against the Portland Knights of Columbus, 4-1 victory. The Garret pucksters were led by their usual fast game, giving a brilliant display of team work. The passing by themselves, as well as forwards, was effective, and resulted in several goals. Once the forwards drew the quadrant out, and scored very little, surrounded their opponents, showed some of their punch in the opening period, scoring all their goals in that frame. Tall and Briggs starred for the trium. All the Bates boys played well, and family showed their appreciation.

The Summary: 
BATES PORTLAND K. C.

BARTY HWY 4-1

Injured knee, and may be unable to play in the Sophomore games.

Do You Need Extra Courses?

Send for exact description over 400 copies in History, English, Mathematics, Chemistry, Zoology, Modern Languages, Economics, Philosophy, Business, etc., given as to how credits earned may be applied upon present college program.

SOPH'S GIVE DANCE

SPORTS NOTES

Tomorrow night the Bates Hockey team will play Princeton in the Memorial Bowl against the greatest hockey player who ever donned a pair of skates, "Bobby" Baker, who made supreme sacrifices during the World War.

Let's hope the Garret Pucksters can give him the finest show of all, as well as they overcome the stiffness of the evening.

January 17, 1922

To the Editor of "The Student!"

May I express hearty approval of the policy adopted by the faculty in regard to permitting Bates Women to participate in inter-class debating? Such a decision will do away with the distinctions—secretly resented by so many undergraduates—of not giving the Equals equal opportunity for equals.

Not only will it mean an advantage to the women but added fame to Bates, many an underrd—of not diseriment—secretly resented by a large number of the faculty, and to the women hut added fame to Bates.

Not merely permission but encouragement. Not at the expense of any development in the Women's College of the college.

Not mere permission but encouragement. Not only will it mean an advantage to the women, but added fame to Bates, many an unde—secretly resent by a large number of the faculty, and to the women.
