HIKE TO MT. KATAHDIN BY OUTING CLUB IS PROPOSED

SUGGESTION HAS MET APPROVAL

Would Be First of Kind
In History

For several years it has been the custom of the Bates Outing Club to take an annual hike to Mount Washington. This year it is proposed that the club visit Mt. Katahdin, Maine's own great mountain.

The trip is somewhat longer than that to Mount Washington, but there is no doubt that it is superior in points of scenic interest. Mount Katahdin is little known, because it is removed from the beaten path. Despite its grandeur, the unobstructed vistas from the top of this mountain are incomparable.

According to present plans, the trip will leave early Tuesday morning, May 28, and return Saturday, June 1. Arrangements at present seem extremely practicable. Only three and a half days will be required to make the ascent.

This lake is the largest in the state, and arrangements are being discussed to have a special team of hikers prepared to make the ascent of the mountain. Camp will be made at the base of the mountain, and the ascent started early on the morning of the third day.

The mountain trip is certain to be a decided achievement. Need not be hard to push the Katahdin trip off. This is a tremendously interesting trip and will doubtless be attended by a large number of students.

This week the club will have its annual dinner at the Hotel Spaulding, and all interested will be invited. The dinner will be served at 7 p.m. and the charges are expected to be relatively low.

Students To Visit Points Of Interest

Fifty selected men, undergraduate and graduate, leaving college, will gather in New York this summer from all parts of the college to study sociological problems. They will study a number of problems under the auspices of the Student Department, International Committee of the V. M. E. Bureau, and the New York City Young Men's Christian Association.

Throughout the length of their stay, which will be from June 5 to August 17, the men will work individually or in groups under the direction of the various social agencies. Special attention will be given to study the social and industrial conditions of New York City and the various municipal and community institutions. The purpose is to give first-hand contact with actual social conditions and to acquire practical" gain experience in constructive work with persons and groups, and to bring to the men a better understanding of community life and the people with whom they are in contact.

Twice yearly the entire group will meet in the home of the Madison Avenue Presbyterian Church for luncheons and discussions. Speakers will include Dr. Henry Mosler, pastor, Madison Avenue Presbyterian Church; Rev. Dr. E. W. Johnson, of the New York City Young Men's Christian Association; Carpenter College, Cornell College, J. A. Firth, Shafter M. Harry, Porter College, and the New York School of Social Work; Archibald Simpson, Jr., of New York University; Dr. E. L. Head, Madison Avenue Presbyterian Church; Dr. E. L. Head, Madison Avenue Presbyterian Church; Dr. H. N. H. Eich, of the Department of Sociology, New York University; and Dr. W. E. Johnson, of the Department of Sociology, New York University.

One additional half day each week will be devoted to visiting points of sociological interest, including Ellis Island, the Chinatown, Nineteenth Street, the Park, and the Harlem river. There will be an opportunity to study the life of the country which is unapproached. On the same grounds Rittenhouse Dam is located. This lake is the largest in the state, and arrangements are being discussed to have a special team of hikers prepared to make the ascent of the mountain. Camp will be made at the base of the mountain, and the ascent started early on the morning of the third day.

PRESS SEVERELY ATTACKS OFFICIALS OF STATE MEET

BATES GETS THREE FIRSTS IN BIG MEET

Corey High Point Man For Jenkins' Stars

The 27th Annual meet of the M. T. F. A. was held under the most unusually crowded and difficult conditions. Box office was very busy, many more cases were opened by at least two times as many as in the other two.

The meet was held in the Maine Coliseum, and arrangements were made for the largest meet ever held in the state, with a week's practice ahead of them. The meeters were set to the task of a perfect practice meet in the State Fairgrounds this year.

The mountain team had performed admirably, but we had to know that the meet was not finished. The mountain climbers from the state fared well, and the meeters followed them. Let's hope that the mountain team will continue their progress and can appear next year.

CAMPUS NOTES

JOHNSON 2

The tree men at last getting forth from their lees, and we have hopes eventually one campus will do the "Floral Battlefield" on its shoulder. Geologist number one, at Fitchburg Center, tells us that they did get all the fossiliferous rocks.

"Number two," "No, I độc them there in two,"

Number One—"What's the idea of the other..."

"No, I tell you, you remember that Doctor Tupper told us not to pull all the roots out of the bush, or we won't have a flower, and the bush will die.

Mr. Hewes—"Can you think of any common house plant that has flowers like those of the Jack in the Pulpit?"

"Yes, my dear, we have been doing just that, and I suggest to you that as far as the flowers and the stem are concerned, the Jack in the Pulpit is a very nice plant."

The members of the Intercollegiate Slow-Pitch Softball League have acquired a new dignity on the eve of their departure from the Disabilities of College Life. As a method of insuring the rest of us that we will continue to be as careful as we can be, many restrictions are being imposed, among which is the provision that the new baseball outfit will be worn only in the presence of the official arbiter. And as far as the social graces are concerned, we are able to assure you that they will also be preserved. Chairman (Medley I) (Geologist number one, at Sabattus Range) will be re-elected for another term. As far as the social graces are concerned, we are able to assure you that they will also be preserved. Chairman (Medley I) (Geologist number one, at Sabattus Range) will be re-elected for another term.

While the ball is being tossed around near the English Hall, and some or more of our premier track men are taking time off from their labors, the high point man with several other clubs, but the Bates Rifle Club has been considerably improved and are eager to show their skills to the engineers. Lord of Beowulf won the state tennis championship and Basket of Chile won the double.

"Editors" Roberts played the new champion in the first round and on three distinct occasions was within a point of tying the match. But the Bates Rifle Club has been considerably improved and are eager to show their skills to the engineers. Lord of Beowulf won the state tennis championship and Basket of Chile won the double.

Greek Ambassador to the Greek Ministry, Mr. Tsalonais, who spoke recently in Athens. He is unusually fortunate in being the headquarters for his tours. He will tour the headquarters in Athens alone and will make that the headquarters for his tours, the Turks in their war for independence. He told the Greeks that the Turks found refuge from the war in their war for independence. They will also be gone over. Prof. Chase wishes especially to familiarise himself with such old cities which have figured so much in Grecian history. He plans to spend a month there. If the Acropolis, of Argos, and of Northern Greece which are situated in the Peloponnesus, are visited in regard to the matter, Prof. Chase is looking forward with the greatest of pleasure to this part of his tour.

After that, Prof. Chase expects to visit for a short time the island of Crete where those ancient Greek cities have been excavated. The island of Crete is thought to have been the birthplace of many of the great leaders of the world. As a result, the island of Crete is visited by many tourists every year.

Prof. Chase will also visit Athens, the home of the old Greek Gods, and the sites where the ancient Greeks spread their culture and civilisation. He plans to visit the Acropolis, of Argos, and of Northern Greece which are situated in the Peloponnesus. The Acropolis is one of the most famous ancient Greek cities and is visited by many tourists every year.

He plans to visit the Acropolis, of Argos, and of Northern Greece which are situated in the Peloponnesus. The Acropolis is one of the most famous ancient Greek cities and is visited by many tourists every year. It was decided to hold an open meeting last Monday evening. Gerald Fletcher was elected president; Emery Burns was vice-president; Mildred Hankey secretary; and Robertine Brass treasurer. The names of several candidates for membership in the club were considered. It was decided to hold an open meeting May 26, when the new officers are to be inaugurated and a program given from the club treasury.

Following the business meeting, the members were entertained with musical selections.

BATES LOSES TO U. OF MAINE

Martin Fans Three Out In Nine Twirls

Another victory for Bates in the state series assured when the ever-heel timers scored three in the second inning of the game against the U. of Maine at Onancock, last Friday. In the second half of that frame, with two out and two on base, Jack dough, the Bates pitcher, connected with a ball which should have been good and was a mere base hit, but a bad hop resulted in a ball gameinge situation. The Blue scored again in the third inning. In the 3rd inning the Maine battery bad on a "pickup" and Miss Nellie Lang scored on three runs. "Doubt" Martin replaced the away, and Miss Nellie Lang took the second for the next three batters went down on successive strikes. Bates counted another tally in the sixth when Ogilvie scored from second and Kenneth's single. Baker drove in Col. in the eighth, but no traped base running in this frame prevented a chance to tie the score. Another tally was scored for the Garnet in the last frame. Missie's work completed and Jack Dough played a good game.

DEBATE PLANNED FOR SOPH WOMEN

Forensic Contest To Be Staged in Hathorn

The women's division of the Augustana debate debaters will debate Wednesday, May 23 at 8:00 P.M. in the Little Theatre, Hathorn Hall. The subject for debate is—Resolved, That the decisions of the Supreme Court of the United States shall be subject to revision by Congress.

The affirmative team is represented by Miss Mildred Ely, Miss Mildred Stetson, Miss Vera Pingue, and Miss Nellie Lang, Alternates. The members of the negative team are Miss Ethel Rock, Miss Ruth Nutter, Miss Eunice Brown, Alternates.

The recent decision of the college to allow intercollegiate debating for women has made the coming debate of increased importance.

SOCCER TEAMS
How Much Has Shown For Coming Games

Enthusiasm over winter this year is as keen as it was last year in spite of the weather. The prospects for these class teams are good as each team has more than enough out at practice. Because the senior girls are as keen as last year they are not enough of them out for a team, but those who do get to play are playing with the other classes. The games are to be played off early next week. Watch for the date, and get out and show that class spirit of ours by cheering your team.

VESPER SERVICE

Big Crowd Fills Chapel To Hear Chorus

The second annual Community Choir Services were held at the Bates College Chapel on Sunday afternoon, May 15th. A choir of some eighty voices, composed of members of the local church choirs and the college choir, under the direction of Mr. Ellis L. Gage, presented selections from the great choral works of religious music.

Among the special numbers of the program were, a tenor solo by Mr. DeWolf R. Hill, the famous prayer of "My Hope is in the Everlasting" from the "Davat of Amos" by Bumley; a solo by Mrs. Viola L. Ryder, the bea ristic soprano, "Confounding" from Partita of Parfait; a duet with Misses Virginia W. Ames, "Adoration of Pilgrims" by Gillette. President Gay conducted the scripture reading and offered the prayer and benediction.
