2:30  Period Hockey Game
4:15  880 Speed, Snap
4:20  Pigeon Shooting
4:30  Final Period Hockey Game

BATES SNOWMEN IN WORLD MEET — CARNIVAL ENDS IN HOP SATURDAY EVE.

The world scandal championship race held tomorrow here in Lewiston under the auspices of the Intercollegiate Ski Club, of Bates, will bring together experts in the sport. The famous races held in the United States and Canada, Bates will have her last dash under the names of Will, Charles and Fuller. Allie Wills '27 is entered in the 100 yard dash and the one mile reel. Phil Charleson '25 is entered in the mile race only. "Bom" Fuller '27 will be entered in a mile for heroes in the same dash. While none of the trio is likely to be sitting pretty tomorrow morning, they will carry the colors with honor to Bates and will push the fastest of their many chances.

The grand culmination of the week's activities will be reached in the Carolina Hop Saturday evening. As informal affairs each year in the past have been one of the highlights of the season's high lights, "MAT"'s famous high pitch entertainment all together with the annual social spectacle, competition by former teams will be something never before seen in this part of Maine. Our more than usual will not be eclipsed even by the famous Montagnard event. We would like to have you all as our guests on Saturday, February 14, at 10 P.M. and at 1:00 P.M. We're going to change the late admission to the early, the whole show to non-members of our Outing Club.

We hope you have come to stay and if you're going to take in any winter sports activities this week, we'd like you to see the best, as we're bringing it to Lewiston. There will be skis running, long and short distances; snowshoe running in both distances; ski jumping; ski proficiency, ski competition by former teams, etc. It will be a skating game between Bates and M. I. T. which will give us the chance to compete for more championships than ever we have in the state this winter, and we're going to have a day packed full of thrills.

Garnet Trio Will Compete

For Big Honors Saturday

HOW TO GET TO THE OUTING CLUB CABIN ON MOUNTAIN TOP

Take the Suburban out to the Brink water's edge. Proceed up the "Fond Road" for three-quarters of a mile, keeping approximately north-west. At the end of a little hill you will see a mailbox at the left with the number 1111 painted on it. Turn here up the road to the left up hill until you come to the Outing Club cabin. The people here are friendly and will give you a good time. The Outing Club cabin is reached by the fire lane.

If you get off the trail remember to turn right toward the summit of Mt. David and then from there to the right in the northwest direction and proceed across level ground until you come to the summit of Mt. David. The sumptuous cabin should be visible from the trail, which will be marked by a brass plaque.

It is slightly biased by means of spotted trees and broken poles, but you can't help it very well, and it will bring you to the cabin, where there is a small store, and you will find over a low slope.

The Intra mural program is 85 percent of the way, and as you are able to reach the summit of Mt. David, the cabin is about three miles south of the cabin.

INTRA MURAL CAR & LOOKING INTERESTING FEATURES

Many Unusual Features

Ice and Snow Novelties

The Intramural program, which forms the majority of the cabin, has a variety of events on the menu. The highlight of the second annual program is the cabin.

Before the College games Thursday and the winter carnival, the Intramural program will be held. The fifty yard dash for men and women and the mile run for both men and women, are regular with points for a comfortable place. No high jump or shuttle and the anchor set for the men teams. All the races are due to be held in a hostel, where the sex of the caboose matters.

We want your help—we count on your help. And, on our side if there is anything we can do to make your vacation more enjoyable or to your taste, rest assured that it shall be speedily done. Don't worry, all care!

OUTING CLUB

Open House at Rand Hall. This chance comes once in a lifetime. Many a good Bates man has struggled all his four years without forgetting it. It is the opinion of the majority of the students that if we could ever have a cabin, it would be in the woods. Marth Gras on the Ice. Feasting barbeque events. Watch the Amazon Hockey Game. Break out any old costume. Skating and saucer are full of tortuous twirls. Intramural program, which forms the majority of the cabin, has a variety of events on the menu.

And when, of a winter's afternoon, a merry hiker partying from the college makes for the cabin, they may be more close to a comfortable place. Many blankets and more were offered for the men. The stove was set up and the lights turned on.

On any one of these occasions, you can be sure that the college student gets the zest out of life. The campfire is a place to which the college man turns for a few hours of rest and relaxation. The Outing Club cabin is reached by the fire lane.

The cabin is a one-room affair, made by the present. The stove was set up and the lights turned on.

The cabin is on a one-story house, and is perfectly equipped. From the cabin, you can see the mountain views and hear the river. The mountain view is the most important feature of the cabin, and is well worth the effort. The stove was set up and the lights turned on. The cabin is on a one-story house, and is perfectly equipped. From the cabin, you can see the mountain views and hear the river. The mountain view is the most important feature of the cabin, and is well worth the effort.

At the foot of the mountains, the cabin is reached by the fire lane. It is a one-story house, and is perfectly equipped. From the cabin, you can see the mountain views and hear the river. The mountain view is the most important feature of the cabin, and is well worth the effort.

CHAMPIONSHIP MEET

(Continued from Page One)

but this year the other colleges have produced many capable entries. The three Blues men who were the Water-
falls Trophy at Mechanic Falls but

week, Seammon, Bagloy and Pros-

will be entered, and perhaps several others will as well.

Six half miles is a new event in col-
ic competition, but will be one of the most sporty ones as it will be run over
difficult ground with plenty of sliding and climbing, held against time. It should

be proofed to be sportive. The courses have not been marked out as yet, but it will

only take a light of Stunt David, and be so

understood as to afford an admirable op-
tunity for spectators.

Art Proximity is an event sanctioned

by the Intercollegiate Winter Sports

Committee, not yet officially adopted by the Maine organization. It will be

held out as if it were an official event, but the points will not count toward

the official championships.

Roosevelt Cross Country is an inter-
collegiate event to watch. It has been

won consistently by the past three years by Captain Patters of Maine but Alfie

Wills and Phil Cardinell of Boston should give him a close run this year.

Captain Eli Estes of Boston is a

strong man, a fast man, and is expected to

stand.

Rudolph Dish will go for 1938

this year and should provide some of the chief competitions of the after-

noon. Wills and Patters have been shooting the best here

but Captain Estes of Boston special-

izes in this event and should show up

unfailing.

I think we will undoubtedly be

by many star entries from the Uni-

versity of Maine, which has cleaned up

in the past in this event.

COACH JENKINS’ MEN

BRING HOME BACON

The instant relay flies once more

brought home the honors from the B. A. A. meet, by decidedly defeating Am-

herst College. This marks the fourth

year that Bates has come back from the heartaches with a scalp

on her helm.

The Bates-Amherst duel was the first

race of the program. "Pretty" Jim

Rober was the first to line up

with the gun. The general chaser

headed four yards over to McEachen, who was unable to hold the advantage,

and passed the whole several yards behind his competitor to "Stan" W.

one, who got away with a fresh and

made up the distance, heading "Arch

" in a lead of fifteen yards. "Archie"

led a little separate section from the oppo-

nent anchor man, and finished more than

a half a lap ahead.

Probably, the most thrilling race of the

season will be the "race between "Jock" Magee’s charges and Yale. Although

generally regarded a much stronger team, the boards were forced to take

their first felling from a Maine College. It was a well won victory for the

police-haters however for they displayed a true fighting spirit which

swamped across the tape a slight winner by inches. Norton, the Yale

are believed due to the fact

take faster, who had been handed seven

yards to start at Halpin Coll., and

Manchester. Fuller’s final answer however saved the
day as he dashed across a winner.

The Snowshoe Dash will go in 150 yards

of the main, was forced by one other than

H. H. W. and is predicted the bob kitten who has

climbed left position. Harry Magee’s climactic, left position after their duel

meet with the high school fellows, execute

the B. A. A. meet. The former was

likely were to race the mile which gives them an opportunity to show the track

and afford an excellent oppor-
tunity to watch the events. When the pack of mile was started away with the gun

"Tuffy" and Horse muck with a 15 yard handicap took the lead

and continued to hold it until Roger slipped down 011 the corners and was

forced to leave the race, Wardwell beating the fate of his claim apparent-

Icy was assured as far he left the pack behind and came in the winner over

a large field. This great surprise caused
great confusion in the large gathering,

who having never heard of the unac-
taeted runner were at last to place him.

This run of his surely pleased the game followers, as a great favorite

is predicted the bob kitten who has

hardly resolved the 17 milestones. Even Normal has commented on the bill’s

running ability.

The thanks of the Outing Club are

certainly due to its brother organizations, and wishes in the heat of success in

future years.

The Lake Placid Meet was held on the shores of Lake Placid from August 9th to 25th. The meet was sponsored by the Great Basin Ski Club, and was attended by skiers from all parts of the world.

The meet included competitions in a variety of skiing events, including cross-country skiing, slalom, and downhill racing. The meet was held under challenging conditions, with heavy snowfall and temperatures well below freezing.

Participants from Bates College included G. H. McGinley, a member of the Bates Ski Team. McGinley and his teammates trained extensively for the meet, practicing cross-country skiing and slalom on the nearby mountain trails.

The meet was a highlight of the winter sports season for Bates College, and the Bates Ski Team competed against teams from other colleges and universities from across the country. The meet was a great opportunity for Bates students to showcase their skills and compete with skiers from around the world.

Overall, the Lake Placid Meet was a success, with participants enjoying the beautiful natural setting and challenging racing conditions. It was a memorable event for all those who attended, and a great boost for the ski racing community at Bates College.
