BATES MEN DEFEAT U. OF P. DEBATERS

Victory Eases Sting of Last Year's Defeat

Our debating trio, Claxton, Davis, and the Editor, was defeated last Tuesday by the University of Pennsylvania, as the result of a debate held in the base court. The debate was on the question: "Resolved: That the Governor's veto is necessary to the fullest extent." The affirmative side was represented by Mr. A. Reed, Mr. F. H. Davis, and Miss L. Miller, of the University of Pennsylvania, and the negative side by the Editor, Mr. Davis, and Mr. F. B. Young, of Bates College. Mr. Young cast his vote in favor of the affirmative side, hence the result was 3 to 2. The debate was carried on with all the usual liveliness and spirit, and the affirmative side was generally conceded to have won by a narrow margin. The affirmative side was represented by Mr. A. Reed, Mr. F. H. Davis, and Miss L. Miller, of the University of Pennsylvania, and the negative side by the Editor, Mr. Davis, and Mr. F. B. Young, of Bates College. Mr. Young cast his vote in favor of the affirmative side, hence the result was 3 to 2. The debate was carried on with all the usual liveliness and spirit, and the affirmative side was generally conceded to have won by a narrow margin.

Colgate Wins 2-1 From Bates Team

Colgate University defeated Bates College by a score of 2 to 1 on the floor of the Colgate University Coliseum on Monday night. The game was a hard-fought one, and the decisive moment came when the Colgate team scored their second goal in the last few minutes of play. The Colgate team was represented by Mr. Keeler, Mr. Cook, and Mr. Jenkins, and the Bates team by Mr. Smith, Mr. Brown, and Mr. Smith. The game was played on the floor of the Colgate University Coliseum, and the results of the game were as follows:

Colgate 2-1 Bates

LOCAL PAPER RAISES FUNDS FOR DEBATE

It is not only proper but that such an organization as this, which is being done for the Bates College debate team by the Bates Debate Club, is an important part of the work that is being done for the Bates College debate team by the Bates Debate Club. Bates was selected by the American University, from among all the colleges of America, to go across the Atlantic and meet in many famous countries, the greatest educational institutions in the world. The only obstacle to Bates was the distance, which, however, was not a problem of being able to suffice the demands of the time. The Editor of the Leavitt Journal has undertaken this task, and the goal is to make the College and the community aware of the extent.

In accordance with the college custom, the prizes were given to the two teams who received the highest honors. The team from Bates College received the highest honors.

Languages and literature:

Dorothy M. Clark, Lewiston; Nellie M. Lange, Oxford; Miss Claire Davis, Portland; Elinor L. McInnes, Lewiston; Mrs. Madeira, Lewiston; Miss Madeira, Lewiston; Miss Madeira, Lewiston; Miss Madeira, Lewiston; Miss Madeira, Lewiston.

Local paper raises funds for debate

$2,000 raised for the hospital

The Bates debate team will be represented by Mr. Keeler, Mr. Cook, and Mr. Jenkins, and the Colgate team by Mr. Smith, Mr. Brown, and Mr. Smith. The game was played on the floor of the Colgate University Coliseum, and the results of the game were as follows:

$2,000 raised for the hospital

ORPHEIC SOCIETY HAS TOUR DURING RECESS

There is a strong organization in Bates College which, if given the opportunity, would prove to be a real asset to the college. The name of this society is the Orpheic Society, and it is composed of students who are interested in music and the arts. The society was started with eighteen charter members, and was immediately elected president. The society has been active in many events and has received several honors.

PARKER HALL BEQUESTS

Sections to Prexy And Dean

Sometimes during last Tuesday evening the new fine halls built during the last few years were served as a base against meteors which had been present over the planet. In the event event first in front of Parker Hall, was gently lifted. For witnesses to the renewal claim that the fine was finally quieted. It did not check the students in the hall, in their process of extracting this fine seven months. The form which was turned to the questions of scientific facts was that the mountain had been created by the college for the purpose of giving an idea of the mineral formations there. The form which was turned to the questions of scientific facts was that the mountain had been created by the college for the purpose of giving an idea of the mineral formations there.
LOOK AHEAD

Ten days are easy, each day is composed of twenty-four hours. What is it that makes some days seem so long and other days so short? Everyone knows that all know that work seems to hasten the passing of the hours sometimes, and prolong them at other times.

This is not the only answer—it is the manner in which we go about our work that makes the time "fly." It isn't the easiest thing in the world to study two or three hours on Latin, Greek, Chemistry, Mathematics or any other subject that doesn't appeal to us—it is far more pleasant to have a good story to read when the particular subject in hand. But that doesn't get us off—we find that out from the registrar's office.

Try to have your work all finished by the time you have each of those twenty-four hours. There are ten weeks before us now—ten of the shortest, most pleasant and valuable, if we use our time to advantage.

It will be far easier to lay the books to one side, now that spring is about to begin (at least we hope it will), but it won't be so profitable. Not that we wish to discourage spring. It is one of the most enjoyable seasons of the year. But here is the point—there is too much of our school work an which, if we divide our time correctly, however we can't give equal attention to all subjects. It is a hundred men was no little task, particularly when the majority of our time in college is entered in some way of having to wait until Monday as necessary in the past. There may be a little confusion at first, when some student rushes to get his mail and finds that he has forgotten the combination, but a memory course may be added to the curriculum to overcome this difficulty.

NEW POST OFFICE BOXES

During the past few years the handling of the mail at the college store has been a growing problem. Its distribution to the several hundred men was no little task, particularly when the majority of it had to be handled in a few minutes. It was indeed evaporating to have to wait in line for our mail while someone ahead called for his mail, his friend's mail and his own friend's mail.

The installation of the lock boxes is certainly appreciated by the student body. Students will now be able to get their mail on Sunday during the day. There will be a time limit—Sunday as necessary in the past. There may be a little confusion at first, when some student rushes to get his mail and finds that he has forgotten the combination, but a memory course may be added to the curriculum to overcome this difficulty.

HAVE YOU CONTRIBUTED?

The attention of the Student Body is again called to the matter of the Bobcat. The work is progressing very well considering the few dollars that has been placed of the chagis of the use of its members only. Dartmouth has its Senior Fence, so logically, why not a Senior Broach at Bates? That is indeed a worthy ambition but we wonder what might happen if some Freshman should direct a water-bag in their midst.

K. S. B.

GOLFER'S PRACTICE ON CAMPUS' GREEN

Down the field he walks, steadily but leisurely, and haltingly; he communes every left moment with his putter, which is his chief ally, and every possible gets him into shape. He uses his club to provide the necessary balance. He turns his hands and puts the putter to his head as an extension of his arm.

His drive is the keynote of his game. When the ball is struck, he proceeds to the next few days. The length of the year's procedure will differ somewhat from that of past years. The plan is to extend the meeting over two months, on the first day of the month. The matches will be for the most part on the meeting over the same field. The purpose of the course is to make possible for the junior class before the voting for the little hall. The meeting is to be held with the State of Maine. Miss Inesen is a Bates graduate, now an instructor of English at the University of Michigan. Miss Inessen is a Bates graduate, now an instructor of English at the University of Michigan.
Over the mountain by a mile

Year after year, plucky explorers try to climb Mount Everest, the world's highest peak, 29,141 feet high.

With a G-E supercharger feeding air at sea-level pressure to the engine, an airplane pilot can go far higher. Liet. Macready has reached 34,509 feet over Dayton, Ohio. He would have soared over Mount Everest with more than a mile to spare!

The tasks attempted for centuries in almost every form of human endeavor have been conquered with the aid of electricity, with more than a mile to spare.

The impossible today will be accomplished by men and women now in the scientist and engineer are doing their share. It remains for men and women entering upon their life's work to profit by the new opportunities that are constantly appearing in every profession and vocation in the land.

New York University School of Retailing
Experience in New York's, Newark's and Brooklyn's largest department stores. Gone while you wait to be on executive. Short service linked with classroom instruction.

Certificate .
Fall term opens September 17, 1925.
Summer School July 7 to August 14, 1925.
Illustrated booklet on application. For further information write
Dr. Morris A. Brown, Director, 100 Washington Square New York City.

AN INVITATION

SEE, ACCEPT, WITH OUR COMPLIMENTS,
A FULL-SIZED BAR OF
TOBLER'S FRESHLY IMPORTED SWISS CHEOCATE

In order to acquaint you with Tobler's Famous Chocolate Bars from Quaint Switzerland, we have arranged to have

'THE COLLEGE STORE'
TREAT YOU, free of charge.

Fresh from Switzerland—Tobler Bars come to you. The purest full-cream Swiss milk—the finest cocoa—crushed desert nuts and delicious Alpine honey—all blended together as only the Swiss know how. Just fill in the coupon below—present it to

'THE COLLEGE STORE'
and receive your full-sized bar. Eat it—and then you will pleasantly learn how really good it tastes. And after sampling this Tobler Bar we hope you will join the thousands of others throughout the country who have formed the habit of eating Tobler's Chocolate Bars every day.

'THE COLLEGE STORE'
carrying a complete and fresh assortment of Tobler Bars, is ready and waiting to serve your daily desires.

TOBLER SWISS CHOCOLATE HOUSE
Boston, Massachusetts

INTERESTING FACTS OF HISTORY

Do You Know

—That Monticello, Jefferson’s estate on a hill overlooking the University of Virginia is being restored by the Thomas Jefferson Memorial Foundation and will be maintained by them for the American people?
—That Jefferson was born on April 13, 1743. He formed the Declaration of Independence. His signature, among others on the Declaration, and those of Franklin and John Hancock, are among those preserved by the Thomas Jefferson Memorial Foundation.
—That Jefferson, Adams and Franklin were members of the committee of 1776 appointed by the Continental Congress to prepare the Declaration of Independence. The Declaration of Independence for framing are obtainable free on request from this company.
