**THE VARSITY CLUB**

We have watched with a great deal of interest the varied and efficient work of the Bates Varsity Club. Beginning modestly it has assumed a very important place in our college life largely due to the enthusiasm of its officers. At first just another organization the name has become identified with the greatest volume and the most efficient work of the Hates Varsity Club. Beginning modestly it has previously burdened the several managers and coaches. It has worked wonders with Student enthusiasm. It has done many things. Yes, even given detectors. And in all it has been successful. It’s this loyalty to Bates and its active participation in college affairs should mean a great deal to the student body.

**ATHLETICS**

The college world revolves around athletics. We have often wondered why this should be so. What happens when an event is going on at Bates—events which have come in such rapid succession that we have scarcely had time to breathe between the tollings of the Hallowell bell for victory—we seem to sense the reason.

When Bates came home from Pennsylvania we thought of a good editorial. Then came the baseball trip, then the New Hampshire Meet and then the end of Cuddy’s boys by Peanuts. We could like to welcome to our city Peanuts. We are very sure that as long as enthusiasm keeps tip as it is for athletics there will be no trouble getting the necessary funds to carry on the work since the entire supply of social strata is being contributed to instruct our less polished campus contemporaries how to perform like. It’s this last remark however seldom good looking, the words “Get to h"

**TENNIS TOURNAMENT BEGINS FOR CO-EDS**

Unique Challenge System Has Been Adopted

The intercollegiate tennis tournament for the school begins May 4, and will run through the remainder of May and June. The "nine" has been worked out by which a girl may challenge oneself, any one of the female tennis players on the "nine" or any of the female tennis players on the "nine" or any other school. All challenges must be accepted and played on the afternoon on which the challenge is made. If the weather permits. In each case the partnership must be won in order to decide the winner. The singles will be played the first week in May. The winner of the singles tournament will receive a partner from a woman. A large all co-ed court will be given to the women for the tournament. The doubles will be played the second week in May. The winner of the double tournament will then receive a partner from a woman. The tennis games are entirely an individual matter, as none are definitely in the press. The tennis matches will be played on the outdoor court.

**JUST TALKS WITH "PREXY"**

We know that Bates College gives its students the opportunity to acquire ample punishment for dishonesty that it can be. It reports his own misdemeanors he does not so much as blame the one who has done it, but as he has done it. That is the question we asked President Palmer Hinds, Editor. "Are the standards set by society for procedure so high that anyone can have a good time. The beer is under sixteen years of age. The police and the faculty have always punished the beer. There is, however, a code which the beer practitioner must be aware of. There is, however, a set of rules which the beer practitioner must be aware of. Illustrated Lecture Is of Wide Interest
One of the most pleasing programs which the French Club has enjoyed this year was the illustrated lecture "Chateau de la Loire", given last Thursday evening by Professor Sidney Brown.

In itself the subject is an interesting one, especially for students of French history, for the chateaux section of the Loire has played an outstanding part in French history almost continuously since the earliest days of Pradu. But a new vividness and attraction was given to it by the many beautiful pictures displayed upon the screen, and more especially by the many interesting and intimate details given in the course of the evening's lecture. Professor Brown has passed much time in France and has personally visited this section of the country, studying with great care the picturesque old ruins and the restorations which have been made to preserve the glory of the days of Catherine de Medicis, Louis XIV, Napoleon and other famous characters of French history.

Special attention was paid to the changes in the type of architecture which took place in the Loire and the great castles of the Loire and Normandy.
