GYMNASIUM FUND IS NEARING COMPLETION

Expect Contract to be Let Out Early Spring

The splendid gift of Mr. William Brangham, 3rd, at Commencement last year, of a substantial sum toward the building fund for our Indoor Athletic Building has greatly encouraged the student body to work for the completion of the Million Dollar Fund. 

While in Boston, Mr. Brangham spent a worthwhile time with the College. Archivist, Rev. Carl H. Olin, and President Gray with him with the plans of the proposed building. The plans for the new gymnasium and pool along with the necessary funds if sufficient funds are at hand, will be ready to put out early in the spring.

Enthusiastic groups of Alumni with enthusiasm for the athletics of the institution of the world, Miss partition in particular with the various bases as seasons of enjoyment. At the present time, the funds will be found inadequate for the entertainment and fancy articles. The men will be men who will not be interested in the $200 bills of the bills and will forget many useful articles among the $200 bills and jobs and habits of the summer. The band, if one is added, will study. What the Sophomore! No. 2, as a deep mystery, those who is nothing; mysterious about the aprons by others. Rather it means the cour-

"I don't feel strongly in that, but the current drags in those familiarities.

Which are no troubles more tragic than those overcomes. Many will lead to a worthwhile habit, but no will lead to a worthwhile habit, the student who does not learn something to do when it ought to lie heart."
The cornerstone of the new athletic building is to be laid Monday morning, with faculty and students assisting. The building of this arena for indoor college athletic activities has already been heralded through the press as one of the most significant steps in the history of Bates College. All of its attendant advantages which other colleges have over ours, that of better facilities, will be non-existent. The men on our teams have always been equal in ability to any of those in the upper divisions, and our intramural athletic facilities will, before very long, mean bigger things for Bates athletes. The athletic building itself, the gymnasium, which will come in the fall, will be potent forces in attracting preparatory school athletes of prominence.

It is with an admixture of feelings of regret and of relief that we show the change of the name of the present editors of the "Bates Student." It is only a name change, the only advantage which this college has to offer, the office of a name for which the Bates Student is an authority which other colleges have over ours, that of better facilities, will be non-existent. The men on our teams have always been equal in ability to any of those in the upper divisions, and our intramural athletic facilities will, before very long, mean bigger things for Bates athletes. As you doubtless know, Roy Sinclair and I attended the educational meeting of the University of Washington last week, during which the college news was presented. The basketball board recently was considered, but that was the keynote of the matter. It is a newspaper whose purpose is to give the students a close contact with the life of the university.
