SAILORS WILL FIT NET FOR INDOOR ATHLETIC BUILDING

Captain Charlton Smith will have Charge of the Work
His Son, Captain Gerald Smith, will Assist Him

The new Athletic Building has progressed so far that the net he is now engaged in making will cover a first-class umbrella shaped as the roof is some nine feet wide at its base and has the same proportion of pitch of the roof graders. Because of the necessity for the net being water tight, the men who are now engaged in making it are using for the gaskets, as well as for the eyelets, a composition made from the balmy rolling to raise the gaskets. The net will be of the same character as that made on the half of a gallon.
