PREPARATIONS UNDER WAY FOR WINTER SPORTS SEASON

Dr. Leonard Speaks
Before Y. M. Group

Student Life in Germany is Interesting Topic

Dr. Leonard spoke on the health and religious elements in German student life. The lecture was given in the Y.M.C.A. meeting room Wednesday evening, November 23. The visit and study in Germany last year brought the speaker to the conclusion that the personality of the German student is the most important element of the university life. It is by the health of the individual that one can judge the well-being of the community.

Council Meets Every Week For Discussions

The Student Council has been of great help in opening up college life for the underclass, according to Dr. Leonard. It was suggested that the Student Assembly and the Councils of the Eastern Colleges are adopting the same methods. The school has been divided into four groups: running, jumping, throwing, and vaulting. All these activities are divided into three categories: the students' own, the athletics' own, and the general athletic activities. The three veterans from the quarter mile mile reported. One of the activities is the "morning test," which is being given to all freshmen. The test includes running, jumping, and throwing.

Library Secures Many New Books

Varied List Includes Books to Satisfy Diverse Tastes

Yes, we have a new book near us in the library. This book will be of interest to many of our readers, as it contains a variety of subjects. The book is entitled "The Art of the Theatre," and it is a collection of articles written by various authors. The book includes articles on the history of the theatre, the art of directing, and the art of acting. It also contains a number of poems and songs that are related to the theatre.

How Far One Can Ride with Co-eds

Grant Extensions in City Limits for Riding

This year, certain revisions in the city limits for riding with co-eds have been granted to the students. The new limits are as follows: for freshmen, the limit is four miles; for sophomores, five miles; for juniors, six miles; and for seniors, seven miles. Riders must be in the city limits by 9:00 PM on weekdays and by 8:00 PM on weekends.

Council Meets Wednesday Evening, November 23

The Council meeting was held in the basement of the Student Union. The meeting was attended by a number of students, including members of the Student Assembly and the Business Manager. The meeting lasted for about an hour, and a number of important decisions were made. Among the decisions made were the following: the constitution of the Student Assembly was approved; the council will hold one week from next Tuesday; the constitution of the Student Assembly was approved; the council will hold one week from next Tuesday.

Informal Debate

To show what has been accomplished so far, the Constitution Committee will have a formal debate on the points that have been discussed. The debate will take place in Rand Hall. "Nat" Benson, who is ably fitted to handle the affair, will preside.

Preparations Under Way for Winter Sports Season

Hockey Games begin immediately after Christmas Recess

Good Program Planned for Ski and Snowshoe Team

Dr. Leonard also mentioned the importance of the ski and snowshoe team to the university. He stated that the team will be under the supervision of the head coach, and that it will receive adequate equipment and training. The team will also be given the opportunity to practice and compete in various meets.

Dr. Leonard outlined the purpose of the meeting, which was to arrange for the betterment of conditions in the school. He mentioned the importance of the freshmen in this regard, as they are the future of the institution. The meeting was well attended, and a number of important decisions were made.

The Student Council has been of great help in opening up college life for the underclass. The council is now considering the possibility of having a similar council in the lower grades. The council will hold its regular meeting on Wednesday evening, November 23, in the basement of the Student Union.

PUBLICATION BOARD ELECTS EDITORS OF CAMPUS PAPERS

Guptill and Whitehouse head "Student" Editors. Carlson and Davis to manage "Bobcat." Dwight Walsh and Moulton to take charge of "Student" business.

WARWICK CAPTAIN CROSS COUNTRY

At a meeting of the Cross Country新鲜men, Herman Warwick, '28, was elected captain for the past two years. All shows his ability to do a dependable job for the team.

Freshmen Hold Informal Debate

The Debating Council of the Freshmen held its meeting Tuesday evening, November 23, in the office of Mr. Babittus. The report of the secretary for the last meeting was read and confirmed.

An informal debate then took place. The affirmative side was represented by Mr. Babittus, who is ably fitted to handle the subject. The negative side was represented by Mr. Babittus again. The affirmative side will be on the affirmative side in the next debate.

The program for the next meeting was then arranged. It will be held one week from next Tuesday. The program for the next meeting was then arranged. It will be held one week from next Tuesday.

There were twelve present at the last meeting, besides Professor Babittus, and a number of others were present.

Dr. Tubbs Addresses Weekly "Y" Meeting

Gives Explanation of "What It Is to Know God"

Dr. Tubbs gave one of the most interesting addresses at the "Y" meeting this week. His subject was "What It Is to Know God." He explained the meaning of what it is to know God, and how one may come to know Him. He showed that there has been a great deal of talk about God, but that there has not been much action. Dr. Tubbs showed that there has been a great deal of talk about God, but that there has not been much action. He showed that there has been a great deal of talk about God, but that there has not been much action.

Dr. Tubbs also mentioned the importance of the "Y" meeting in the life of the community. He stated that the "Y" meeting is a place where people can come together and talk about the things that are important to them. He showed that the "Y" meeting is a place where people can come together and talk about the things that are important to them. He showed that the "Y" meeting is a place where people can come together and talk about the things that are important to them.

"The Birth" of the "Y" meeting was chosen by the editorial board of the "Y" meeting as its theme. The "Birth" of the "Y" meeting was chosen by the editorial board of the "Y" meeting as its theme. The "Birth" of the "Y" meeting was chosen by the editorial board of the "Y" meeting as its theme.

HIS STORY OF WOR WOMEN

A brief note in the athletic column of last week's "Student" assured our readers that the rushing time will not rob Bates women of their interested attention. Therefore, we become more or less concerned there was general selling over of the supply. Opinion appears to be eyes tired, and we felt that if expressed of these ideas would come in the near future. Adapting the athletic spirit, we began to consider what should be was sure on such an undertaking. Would Bates women really rep- resentatives of the College? Would they have enthusiasm? Were there any practical objections? Would the profits really result from a move? It was only necessary for us to con- celt a few interested—men—I am, of course, girls—would be interested in the athletic activities of the school. We thought to ourselves: "Is it not possible that we can interest our fair sex in athletic activities? Is it possible that we can create out of them the whole new world of athletics?"

As far as practical objections are concerned, there doesn't seem to be any interfering distance to become aware that enthusiasm is in a high pitch—a high pitch, indeed. Why the co-eds are capable of relatively large numbers and cur outdoor and indoor athletic activities, while the school as a whole is in the average intercollegiate contest with perhaps the exception of a few on special games. Practically all the girls physically able are only too eager to obtain their stripes and letters if anything more eager than the men to get the "B".

Man-Power

Four millions of the best man-power of Europe persisted in the Napoleonic conquests. Military power is non-creative, while industry is always creative.

In the last ten years one American manufacturer—the General Electric Company—has created machines that multiply power from the beginnings of the smallest engine to the giants of all the lives lost in the Napoleonic wars.

In the years to come, when the college men and women of today are at the helm of industry some day, it will be realized more and more that human energy is too valuable to be wasted where electricity can do the work better at lower cost.

PHILADELPHIA

Hill-Holden met Tuesday evening, November 28, in the Music Room at Chase Hall. The meeting was called to order by Mr. President and a few dozen of business were discussed. Directly following this, Prof. Chase laid down the important plans visited, made the eve of the program very entertaining and instructive.

Man-Power

The laboratories and shops of industry are the battle fields of modern inventors. Conducting the affairs of our factories, the industrial artist is not a man of leisure. His days are filled with responsibility, and the efforts of his men. He is the man of science, the teacher, the leader, the inspirer. He is the person who needs the greatest amount of human energy and the greatest amount of power. He is the man who is dependent upon the man-power of the world. For the power that he has to give is the power that comes from the men who work in the factories. And the power that he has to give is the power that comes from the men who work in the factories.

Sunday Afternoon

Conferences Held

Although the Thanksgiving holiday caused a decrease in the number of students on campus, there was an afternoon conference at Bates College, where a few students exchanged ideas and opinions on various topics.

Politics Club

After a brief business meeting, the club proceeded to a discussion on the current political climate. They turned to the duty of initiating new members into the club's activities and shared their experiences with new members.

"THE DOVER ROAD" CHOSEN FOR ANNUAL VARSITY PLAY

Mrs. Harvey of Hunter College N. Y. secured as Coach.
Formerly teacher of Dramatics Bates Summer School

For the fifth time in its history, Bates College is announcing a play for the benefit of its gym fund. The play, scheduled for opening here November 25, is "The Dover Road", one of the most delightful of American plays ever written. The choice of the play was made by Mrs. Trevor H. Blanchard, a former member of the Drama Department of the Bates Summer School, who recently directed a successful production of "The Dover Road" in New York, has been secured to coach the Varsity Players. Mrs. Blanchard is a former instructor in Dramatics in the Hunter College, New York, where evidences were found of her executivity and practical knowledge of the actualities of production, direction and acting.

The tickets for "The Dover Road" were held Friday afternoon and evening.

A Kid Party Tonight

The Junior Girls of the Lambda Alpha are giving the Junior Dorm Girls a little party tonight in the Lambda Alpha house at Hathorn. Miss Marjie Gillingham is chairman of the committee which is composed of the Junior Marjie Golding, Ada Manoussakos, Betty MacLennan and Grace S. Stirling. The party will consist of refreshments and dancing.

A birthday party was given in Miss Betty Hall Sunday evening.

The guests were the Misses Alice Hall, Mrs. M. C. Hall and the Miss Whitehead, the faculty guests being L. R. Another great party is being planned for Thursday of next week.

The play, "The Dover Road", was produced on Broadway in 1923 and is considered one of the most successful of all American plays. It is a moving story of three students who are brought together by circumstances to be roommates in a boy's school where they end up rooming with the daughter of the headmaster and the daughter of the master of the school. The play is a poignant one, dealing with the joys and sorrows of growing up and the challenge of finding one's way in life.
