Garnet Sport Pan

The West Parker Holds A Successful Show

The West Parker Minstrel Show held last Saturday night was a great success. Near 250 presented, and something over 250 present, and something over 200 present. The proceeds will be used to improve the quarters and equipment.

Dr. Odell, Editor

Well, here goes! After a two week vacation we are back at the Garnet with columns and columns with advice. We don’t follow our example as often as we should. And it is tough reading three hundred columns a week.

Everyone is clangingarring to the present school year with the homecoming season. The whole school is on its feet, interested in the new Athletic Building. With that conventional, optimistic faith which we are wont to place in portents favoring causes dear to ourselves, we venture to predict, on the basis of this auspicious beginning, a track season marked by a succession of triumphs.

Then, turning to another field, we may find further occasion for rejoicing in the athletic world. A week before the issue in which the change is to occur. With that conventional, optimistic faith which we are wont to place in portents favoring causes dear to ourselves, we venture to predict, on the basis of this auspicious beginning, a track season marked by a succession of triumphs.

SUCCESS

Two events of the last week impress us as being of rather notable significance. First, the Bates victory over Northeastern University in a dual track meet last Saturday was particularly welcome because of the omission of the occasion for the second meeting is the completion of the new Athletic Building.

With that conventional, optimistic faith which we are wont to place in portents favoring causes dear to ourselves, we venture to predict, on the basis of this auspicious beginning, a track season marked by a succession of triumphs.

Then, turning to another field, we may find further occasion for rejoicing in the athletic world. A week before the issue in which the change is to occur. With that conventional, optimistic faith which we are wont to place in portents favoring causes dear to ourselves, we venture to predict, on the basis of this auspicious beginning, a track season marked by a succession of triumphs.

An incident pertinent to this recent Bates victory over George Washington University is due. Bates have defeated, and were, one and all, held in Great Britain. For this remarkable record, in which the victories have been numerous and the defeats almost negligible, the Student offers Mr. Googles its hearty congratulations.

AER FATHERS SYSTEM

A FRACTATIONAL SYSTEM

Many books are being introduced at Antioch College, following the practice of the University of Maine. The latter has developed the practice of organizing the student body into small groups on the basis of academic ability and personal interests. The system is expected to bring about a “zero” grade system by substituting a class, and indicates that the new system is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success.

Morgan, President of Antioch, in response to the question of his approval of the new system, said, “The new system will be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success.

GAMBLING

From an address given at Canum and the University of Maine, it was reported in "Orange and Blue," the student newspaper, that "The new system will be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success. The assistant professor of the school is to be a success.

NEW FIELD AT BOWDOIN

The field at Bowdoin College, which is to be used for intercollegiate basketball tournaments, will be opened to the public by the college administration. The field is expected to accommodate the entire student body of the college, and will be used for practice and exhibition games.

FOR BETTER SPEAKING

The Better American Federation of Women, to which all women affiliated with the college are automatically enrolled as members of the organization, will hold a meeting to consider the establishment of a chapter at Bowdoin. The meeting will be held in the college library on Thursday evening, March 18.

DEBATING AT G. W.

The first intercollegiate debate between Bowdoin and Bates will be held on Wednesday evening, March 18, in the college library. The topic for the debate is "Resolved: That the United States should enter the war in Europe.

Practice Begun for Battery Men

The battery razzle-dazzle and a few of the other performers connected with the call for early baseball practice. For the first time for the men an opportunity of putting themselves into condition before spring comes. For an hour or two each afternoon balls may be heard whizzing into the catcher's mitt or taking a dive into the water. In time the boys should feel at home when they see the ball coming towards them.

Among the men who have reported are Captain Thomas, Chuck, Black, Brown, Phillips, Anderson and Cushnie for plebes; and Nevada, Andre, Meador and Wheelers all from the baseball committee, responsible for the selection of the forty boys who take part in the spring training. They are to meet every afternoon at 4 o'clock, under the direction of the baseball coach, Cantwell. The practice was enjoyed for half an hour. Among the old-time favorites are Wimanus and Castle Ray. With this going on the students and cor-fessors out wages while on the spring training.

ST. OLAF'S FORMULA FOR POPULARITY

St. Olaf College, as always, is always advertised by a Welsman. A large amount of the work for Miss N. D. Nielson, who spoke at the regular Y meeting, was made up of material prepared by Dr. F. L. Hyppel in connection with the current of things for which college men are criticized. She said that, although they are criticized for being anti-scientific, they would be willing to place a group of college men against any group of non-college men in the country. He divided them into four groups, those who are dull and eager for knowledge, those who are dull and indifferent, those who are brilliant and eager, those who are dull and indifferent. It is in connection with the current of things for which college men are criticized.
