The Track team certainly lost a star when Gary Ray was sent off to the Army last week. Any Washburn who has had the privilege of seeing him run will miss him, but fortunately there has been no loss of speed. As several other athletes have been hit by the registration bug, we hope that these losses will be made up in the months to come. In the meantime, we must rely on the speed of our other runners, especially of the younger members of our team.

The annual record for the mile run was set last week by Ed Wood, who ran the mile in 4:21.5. This time is 10 seconds faster than the previous record, which was set by Leniss three weeks ago. Ed Wood's time is now the fastest in the world for three months, and he is expected to retain his record until the next meet.

The Bates College Library has been the subject of much praise recently. The library staff has worked hard to make the library a comfortable and efficient place for students to study. The library is well stocked with books and resources, and the staff is always ready to help students with their research needs. Bates students are fortunate to have such a great library at their disposal.
