Bates College
COLEGE EXTENDS WELCOME TO VISITING STUDENTS

Special Program Planned for Entertainment. Classes to be Open to All Saturday Morning

The President and Faculty are very much interested in extending a hearty welcome to our visitors this June week.

We would like to play the part of hosts and to get acquainted with our campus and to get to know you better. We will participate in the games and would be delighted to have you join us. We would also like to have you visit the various departments of the college and to have you address our students.

We hope that you will enjoy as much as we will and that you will come again.

CLIFFORD D. GORE, President. Bates College.

To Sub-Freshmen Visitors:

For the second time in the history of Bates College we extend hospitality to guests as guests to our campus. For the secretary, treasurer, and president of our college for your inspection.

I am writing to tell you what the college is now and what it will be. In a few weeks your colleges and other parts of our part.

I want to parcel out the dimensions about the Sub-Freshman experience, but with a few notes about it. For the second time, we are offering you a place to study and work. We will be wandering around the campus and you will find time to attend lectures and classes. You will be immersed in the light bearing sphere of tense scholarship and you will find many to Bates, and to other parts of the country. You will find that the atmosphere is naturally.

You will find that the atmosphere is naturally.

The President, Bates College.

WOMEN LOSE DIRECTORS OF PHYSICAL ED

Miss Francis has Contributed Much to our Athletics Since in College

Two women have modernized girls' physical ed.

MISS BASS HAS PROVEN "WHY" WITH CREATIVITY AND ENTHUSIASM OUTSTANDING

Roaches women are to lose both their physical education departments. Miss and Fred Francis, who has been here four years, and Miss Victor Hess, assistant during the last two years. Everyone is aware that physical education is not only an important part of the total program, but that it is also an important part of physical education. Miss Francis, known for her sincerity, thoughtfulness, and unselfishness, has made a fine record for the department.

The W. A. A., already strong, has been modernized by Miss Francis. She has added a new dimension to the W. A. A. club by creating a fresh atmosphere. Miss Francis has been instrumental in fostering the interest in the field.

The President, Bates College.

SODALITAS LATINA

The last regular meeting of sodalitas Latina was held in the home of Prof. and Mrs. Fred Cape, Wednesday evening, April 25th. The report for the last meeting, along with the reports of the secretaries and treasurers, was read and accepted. Prof. Harrop then called on the business meeting with the report of the nominating committee.

JAMES W. H. RAKER, President. Bates College.

ASTT. FOOTBALL COACH IS ENGAGED FOR NEXT FALL TO MEET LONG FELT NEED

Reginald Thrall of Purdue Univ. Well Qualified to Assist Coach Wiggren During Coming Season

Has had Brilliant Career Football.

The dream and ambition of football enthusiasts at Bates has at last been realized in selecting Reginald Thrall as assistant football coach. Thrall graduated from Reginald Thrall of Purdue University and comes here highly recommended by football Coach Fitch of Purdue and by the faculty of the University both for his athletic and his scholarship abilities.

Thrall graduated from Earlham High School in 1921 and was elected at tackle for four years, on the baseball team, and was named on several all-scholastic teams. In 1922 he entered Purdue University and was given a football scholarship. Financial difficulties forced him out during the first half of the same year, but he was back again for the last full year and made the varsity team. He is at present in his fourth year and will play at tackle for the varsity team this year and also in '25 and '26. His lightness, strength, and skill make him a valuable addition to the varsity team.

Dressed in his football uniform, Thrall visited with Head Football Coach Fitch and arranged to meet with him later in the week to discuss the coming season. During the post part of the season, the assistant coach, who is at present in the big Ten, in those games in which the assistant coach will receive his B. S. degree from Purdue University, will be free.

"B" Club Elects Officers, 1927-28

A Varsity club meeting was held last Wednesday for the purpose of electing officers for the coming year. The following officers were chosen:

President—Reginald C. Wiggren
Vice-President—Paul A. Murray
Secretary—Max Wiggren
Treasurer—Arthur Adams.

Return from National in Philadelphia

Captain Wills and Wakely Compete in 1 C. A. 1

Last Saturday the Gartmore track team was represented by two of its members, Reginald T. Thrall, and Fred Cape, in the 1 C. A. A. meet held in Philadelphia. Captain Wills and Wakely journeyed to Philadelphia to compete for National honors. The races were all fast and our team was afloat with all the public, the alumna and the student body.

The President, Bates College.

Colleges Still Exist Where To Smoke Is Crime

Smoking in Auto on Field Trip Results in Two Being Expelled

(No Name.)—On the popular version of the college man before a football game, clouding his eyes in the smoke, and loosening his collar by the side of his bottle. Here is evidence that someone has violated the campus' ruling that it not be violated. The campus is in the hands of the employees. Five of the students were not expelled from the campus on the field trip. Here is evidence that someone has violated the campus' ruling that it not be violated. The campus is in the hands of the employees. Five of the students were not expelled from the campus on the field trip.
The Garnet-Sport Pan

Backfield Editor

For the final time this year we set our sights to the east to anticipate the next team. The coaches have already given us our first glimpse of inspiration for this column. The first glimpse we received was at the end of the first quarter of the Bates athletic season of 1928-1929. From this point on, we can find many accomplishments that have marked this season and many disappointments of defeat. We can find Bates football as it was last season, when the team had demonstrated the generosity and sportsmanship characteristic of the school at its best. We can see the effort that the team put forth to be successful in their own way. All in all, it can be said that because of occasional disappointments, for which we cannot be blamed, it is how it all ran that counts.

The most notable event in the past month was the Bates football game in Boston against the Harvard Crimson. Bates lost the game by a score of 21 to 0, but it was an excellent display of fighting spirit on the part of the Bates team.

In conclusion, we wish to point out that the next season promises to be one of the most exciting in the history of Bates football. The team will be stronger and better prepared than ever before, and we are looking forward to seeing them in action.

Mountain Climbers

Return from Trip

Party of Twenty-six踏上 Mount Katahdin

A party of twenty-six Bates people, professors and students, led by Professor E. C. D.清凉, made the trip to Mount Katahdin, the highest peak in Maine. The party was accompanied by Professor E. C. D.清凉 and his student assistants, and included members of the Bates track team.

The party started their journey on the 15th of the month, and after a long and arduous climb, they reached the summit on the 20th. The peak was named after John R. Katahdin, a native of Maine who first climbed it in 1857.

The party spent several days on the summit, enjoying the panoramic views and the fresh mountain air. They also had the opportunity to see the beautiful mountain flowers and to hear the songs of the birds.

It was a memorable trip, and all the party members were grateful for the chance to visit such a beautiful and magnificent place.

STUDENTS CAN'T FIND WORK FOR DAY

Recently compiled statistics seem to indicate that the average student has a higher unemployment rate than the average person in the general population. The average student spends nearly the twenty-four hours which constitute the daily routine of college life in the pursuit of higher education. The average nine hours of academic work, and the average three hours of social and personal activities.

The statistics also show that the average student does not spend more than six hours in the day for personal pursuits.

The statistics also show that the average student does not spend more than six hours in the day for personal pursuits.

BATES LOSES CHAMPIONSHIP TO UNIVERSITY OF MAINE

Garnet Players Forefeit Game in Last Three Innings
Bowdoin's Ivy Day Jimmies at Last Shaken Off
At the Tune of 4-1 Victory for Bates Pastimers

The baseball season is practically completed for the Bates Pastimers, and not to write, we only had another game after a hard spell of struggle for the pennant, being a lost game and then again by very inclement weather conditions. Nearly every game scheduled has to be called off or postponed because of rain. Although this isn't the best season Bates has had, it has been by far as many as possible. The best we can do is to do the best we can. The results of the games are seen the prospects look quite pleasant in the lack of showers. However, Care has been playing some nice games for the second team.

BOWDOIN GAME

Last Saturday we missed our success against Brunswick and managed to shake off the "Ivy Day Jinx" that Bowdoin has in store for Bates. Bates should have won the game by a score of 7-3. Bowdoin has been in the ballgame for many years. The game seemed to be won in the seventh inning. The Garnet players dropped the second game to the University of Maine, blasting the Redmen in the last two innings. Maine scored five runs, and Bates was unable to score. In the last two innings Maine scored five runs, and Bates was unable to score. It was just another one of our "Tough Breaks."

Exams and Commencements are drawing near. In Mrs. Friendly Fash's world, the usual past perfection and routine in order to look our best true. All our hair styles and evening railroad are looking their best. We make things seem delightfully fast and vacants. Put a day or two more of classes reminding us in the last chapter of study for exams and--it is over.

Another whole year of college will be gone—hardly seem possible. What different, crowded years they have been. Each year different, because of new friends, new classes, new professors, new activities, new feelings and ideas toward college life. Each year crowded with activity. How quickly these years have passed—yet how slowly at times. How we have changed in this time. How unusually different even the Freshmen seem delightfully (inal and vacationy.

For us a day or two more of classes and Brides. They make things pact little columns on June and Graduation we ought to reminisce over our past more glorious. Writers comment about what might have done instead of the thing he might have done instead. If you keep a diary or write pages of straighr serious stuff on a lampshade.

For us a day or two more of classes. The ghastly subject or purpose they cannot help doing things pertaining to a certain learning himself interested in it. I don't know how irritating when you do begin to cerebrate. What all this has to do with graduation and the glorious future which is so near) for other classmen. We also wish a glorious thing into the work of achieving that purpose or ideal—this restless, unhappy, unhappy, sorry fool that he is, his purpose for. And if he wants to be happy, he can call the world into the work of achieving that purpose or ideal.
