New Freshmen Get Warm Reception

At the stroke of midnight Sunday eight bullheads broke in Porter Park, but only one of the fresh faces turned out of bed in a hurry to observe the throngs of students on the road. They were formally made acquainted with the campus and its regulations by Y. M. C. A. leaders.

The upperclassmen then joined Raymond X. Sills, Y. M. C. A. general chairman, speeches, and songs were sung in connection with the night assembly. A great success was this freshmen coming on the trains that day were met by cabinet members and useful information was dispensed.

Bates Faculty is Increased by Five Members

Bates has a few additions to its faculty this year. Two of them are in the school of music, and two are in the school of languages.

Mr. Suyderhuyzen graduated from Harvard University in 1916. While there he studied the science of educational administration, and was interested and assistant in instructor in Chalmers High School in N. Y., and has been a high school principal of some size.

Mr. I. S. S. Sturtevant is a member of the Phi Beta Kappa Council, and will become the first chairman of the Phi Beta Kappa Council of Bates College in 1929.

Hazel M. Clark

Dean of Women Is Well Prepared

As dean of women this Bates College has a new and worthy successor. Hazel M. Clark, of the University of Maryland, was chosen to succeed the dean of women and professor of education, Mrs. E. E. M. Smith, who is now a member of the staff of the University of Rochester and the Teachers College of Columbia University.

Capt. Raymond Nelson, the new head of the Bates cross-country team, is a member of Alpha Chi Sigma and the Harvard Flying Club. He is a member of the Phi Beta Kappa Council, and will become the first chairman of the Phi Beta Kappa Council of Bates College in 1929.

The Garnet football squad oxidized yesterday for Auburn where they are scheduled to play tomorrow. The game is expected to be a close one, and both teams will be well prepared.

The outcome of the encounter will be a matter of some significance in determining the strength of the various teams.

The game at West_modify was not as encouraging as the score would indicate. Both teams put up a good show, but the better team showed itself in the final game, and the score of 18-0 was a fair reflection of the result.
Once again we return to the task of getting ourselves educated. We return to the same old routine which we have been following for the last year, or two or three years, with our classmates and instructors. That may not be life, but it is college life.

The fading green of the campus leaves, and laurels, are emphasized thus contrast with the social and general appearance of the newest additions to our membership, and for some time we initiated will derive the customary amusement from their innocent and childish behavior. It is as true of freshmen as it is of women, we can live with them, and we can live without them.

What with the World Series, Fall ball, Cross Country, and Chase Hall dances, our attention will be drawn from the regular work of the class rooms. Livy's account of the exploits of Hannibal adroitly does not possess the picturesque vivacity of Graham McNamara's running reports of the battles of the baseball field; and if Greatland Ritz has a greater reading public than Professor Embury,—Why it's just too bad, that's all.

Once upon a time in Sophomore days, and an even less complacent Sophomore, reports of the way with the instinct of a dog to keep itself use, useful and efficient. The fuel bill for the new- building. They buried this 'sophomore in the dank and high manufacturing quality.

Miraculously quiet and vibrationless, luxurious and swift, the new electrically operated S. Califor- nia, largest American-built passenger ship, has opened a new era in ocean travel.

Electricity drives the California so efficiently that the fuel bill for the initial coast-to-coast trip was even less than the Canal tolls. Electricity masts the winches, breaks the ice, polishes the silver. And electricity cools the cabins and provides passengers with the comforts found in the finest hotels. Complete electrification makes the California an engineering marvel and a commercial success; it is booked far in advance, a sister ship has just been laid down and another is under construction.

On sea or land, in every walk of life, electricity is in the van of progress. Undreamed of years ago, the symbol of the electrical industry's part in modern civilization and high quality manufacturing.

Electricity opens a new era of ocean travel.

For instance the Red Cross "has become an intimate part of the American folk life," in the opinion the mechanical piano and the definite organization by thousands of students last April has raised the ideal in the relief work. Were it not for this outpouring of energy and time and money, the Red Cross could not have expanded its activities, which has been so widely adopted in the first aid and life-saving departments.

This illustrates the point that gifts and enthusiasm, energy and constructive ideas which leave small communities pros-

have barelv been received. It appears that the American Red Cross, had barely known its place in the American scene.

A HITCH IN HIKING

New Jersey has legislated against pitch hiking. A traffic law went into effect on September 16 making it an offense for anyone either to ask for or offer a ride on the open highways of that state for any consideration to the hundreds of college students who are accustomed to pass through New Jersey on their cross-country hiking trips. Wesleyan Takes Close Contest From Bobcats

Capt. Nilson, Appleby and Secor Star in First Game of Season

Wesleyan opened the Bates season last week by appearing to have won its first three matches, with impressive victories over the Bobcats. The Bobcats, however, were not far behind, and the game was a tight one, with Wesleyan winning by a score of 3-2.

The match was played on the Wesleyan home court and was marked by fast, aggressive play from both teams. Wesleyan's Captain, Nilson, and Appleby were particularly strong players, and Secor starred in a close singles match.

Points after touchdown: Silloway 2. Wesleyan c. Sigafoos, Kenison, Fitz, le Secor, Rogers, rhb.

The game was marked by a series of close points, with both teams playing well. Wesleyan scored points after touchdown, Silloway 2, while Bates was held to only one point on a penalty kick.

Bates' tennis star will shine once more; netted from these fall tournaments and recent men's tennis fete will be available for varsity tennis next spring. As well in the tennis fete will be available for varsity tennis next spring. As well in the tennis fete will be available for varsity tennis next spring.

The class of 1932 showed itself truly to be a part of Bates in its enthusiasm over the game. The Bobcats, whose motormen seemed not to be a part of Bates in its enthusiasm over the game, took the crowd to Lake Winnipesaukee, where they spent a most enjoyable month touring the country.

The steamship trip took him to Gibraltar, Algiers, and the famous cathedrals at Avon and the famous cathedrals at Avon and the famous cathedrals at Avon and the famous cathedrals.
