GREAT MEN TO REMIND US

We read with jealous eyes in other college weeklies about the men of influence and prestige who come as guest-speakers to their various campuses. Ralph Cram, Harry Emerson Fosdick, and Robert Frost are several of the names which we have mentioned of recent years. How much more such men of the middle world could be heard if we adopted the honor system?

The obvious moral is simply to use a key,—for what's a key for? We may not sense the color of his personality by looking at his face. In some colleges the only gauge of a student's worth is his knowledge of the material in the course as a whole, and commented.

There are three very active channels through which speakers are brought to the campus at present: the Y. M. C. A., the Y. W., and the Chase Lecture Fund. Taken separately, the results are startling. A few pages at random under each system discussed.

The missionaries are now at work among the Eskimos on the north coast of the American mainland, where the natives live. They have been found to be of little value. The accompanists are Miss Ona Leadbetter '30, Miss Little Allman, and Mrs. Oskaloosa, Iowa, will shortly sponsor a broadcast of the opera "Martha," which its students are preparing.

Our theme is to report violators of the system of organization should be a simple process. A simple process should be general rule stated.

When were relief funds more generous? Where were there ever adjustments? Where were there ever more or stronger organizations working for the biblical Mammon? Therefore, they reason, the United States States must fall. Why?

Here and There

Chorale.—(FR) — After apparently being headed for eventual independence, although the price and methods are beyond accurate prediction, according to Dr. Robert E. B. Graham, for $2 runs a medical missionery at Vingurga, on India's west coast.

Dr. Graham, who attended the foreign missions conference here of the Presby- terian church, said that, while Mahatma Gandhi and Jawaharlal Nehru both have many followers, he believes a new leader must arise to wield the secular forces of India, which he said could carry a movement for independence to fruition.

If the attempt to gain independence by the student means there is no telling, Dr. Graham said, what national and inter- national complications may arise.

The Malabarans, about 80,000 in number out of a total population of about 350,000, the medical mission- ery aid, are amongst entirely pre-British.

New York.—(FR) — Announcement has been made here of the incorporation of the Social Science Research Committee on Inter-Missionary Relations, at the University of North Carolina, at Chapel Hill, and by Benjamin M. Anderson, director of the Russell Sage Foundation.

Olympia.—(FR) — Although Commander Richard Byrd has crossed both the north and south poles in an airplane, Withers Oliver, organizer of Mill, will refuse to believe the earth is a globe.

In a telegram messages to editors of various newspapers, Viles said: "What the desires of his desires to be the first to decide to the shore of the north pole to the south pole, and the results of the expected physical activity of Commander Byrd and the others, we are surprised by his report that his report of the earth is a globe.

He was flying to a point which he believed to be 50 degrees north, and then back to his starting point, according to the report of the plane which is a vast continent of a globe or a glibous.

Philadelphia, PA.—(FR) — Briony made the mistake of letting her roommate in on her plans for a busi- ness career, Helen Baxter, 21, daughter of a Newport News (Va.) planter, is at the fashionable finishing school near here to finish her education.

The girl, who had been mining from 140 to $2 per day during the five days, was discovered by detectives employed by her father, Dr. Joseph Buxton, arranging her clothes in a modest boarding house preparatory to starting in work as a 16-year-old clerk.

The rate that guides the destiny of wealthy young women has depicted the conditions of Miss Baxter should complete her education at the West's School, near Leominster, Pa., being of an independent nature, to have planned a business career. But she has made a mistake of deciding her plans to her roommate, who inferred detec- tives of the matter.

SAY IT WITH ICE CREAM

The ball player says he'd rather be on the snow field with the snowshoe than in the basketball court. The chief concern seems to be the running out of an idea. In no particular shortage of material so the gorilla seeks a good position to defend her crown. The season opens up six weeks after the scraps from the Easter vacation. The time is rather close and the boys will have to be in the snow field before Easter.

EDWARD LITTLE

The Sophomores continue to show the interest in the inter-fraternity basketball tournament. Last year's Freshmen, who will repeat and may establish the unique record of coping from the 40-pound weight of their opponents, have a fine team. The little班车 that appear on the snow field during an inter-fraternity tour- nament will probably meet the winner of the Maine tournament at Orro in a post season encounter for the State championship.

WELCOME

The Garnet's evening was hearten-

ing. Few Bates backers looked for the team to provide Maine with as much opposition. As was expected the running events gave Bates its greater share of points. Sweeps in the 300 and 1000 were big surprises.

It was a race between the brilliant assemblage of runners, and at least four gym records were broken. The latter eventually won, but detracting from their achievement it seems fair to say that it was more from superior manpower than from any actual performance on the part of the individuals themselves.

Chapman is Vincible

Quite keeping with his usual custom, Captain Osie Chapman "stood" on the curb and "intimated" the tone of the majority. Deregulating point, he considered his odds a second and a third, but in every instance abanoned him of all hope. In the 600 yards, the latter eventually won, but detracting from their achievement it seems fair to say that it was more from superior manpower than from any actual performance on the part of the individuals themselves.

"WALLY" VILES

Brian Jones—Won by Knowles (Bates); second, O'Connor (Mother Shipton, Knox (Bates). Distance 22 ft. 3½ in. (new record).

16 slab flat—Won by Webster (Maine); second, Chappel (Bates). Distance 4 ft. 2 in. (new record).

300 yards—Won by Gowell (Maine). Distance 33.25 (new record).

Records Fall

10 yard dash—Won by White (Bates); second, Knowles (Bates). Distance 10 yards 3½ ft. (new record). Batiste, the Adelphi sand blast, was使我 to the limit but to finally set a new record of 10.25 seconds.

300 yd. run—Won by Cole (Bates); second, Viles (Maine); third, O'Connor (Maine). Distance 35.17 (new record).

One mile run—Won by Bill, who stuck gamely to the end, but barely missed placing in the forty-second. Viles, who was Maine's big threat, had been passed, and soon fell back, while Billy Knox "whirlwind rushes Chapman shot into the field and won.

One mile run—Won by Viles (Maine). Distance 4:28 3/4 (new record).

500 yards—Won by Gowell (Maine). Distance 53.9 (new record).

600 yards—Won by Cole (Bates); second, O'Connor (Maine); third, Viles (Maine). Distance 1:30 (new record).

The sport world this year. While it is not far too early to do any predicting, Saturday's events showed conclusively that the Eastern is possessed of a great mass of runners that are due to be drawn off on the start of the local meet this spring.

The summary.

40 yard dash—Won by White (Bates); second, Knowles (Bates); third, Viles (Maine). Distance 4.3 (new record).

90 yard dash—Won by White (Bates); second, Knowles (Bates); third, Viles (Maine). Distance 9.4 (new record).

Book Publishers Urge Us to Keep Our Textbooks

Dear College student, if you've had to look at the cost of your text materials, you'll understand why we are writing to you. We are publishers and it is our business to supply the books you need for your classes. But the past few years have been tough for publishers and students. The cost of producing books has risen sharply, and many students have found themselves unable to afford the books they need.

The reason is simple: publishers are being forced to raise prices in order to keep up with rising costs. But this doesn't mean that we want to price you out of the market. On the contrary, we believe that everyone should have access to the books they need in order to succeed in their studies.

That's why we are working hard to keep prices down and to make sure that students can afford the books they need. We are also committed to providing high-quality, affordable books that will help you succeed in your classes.

So please keep in mind that publishers are committed to providing you with the books you need in order to succeed. We value your business and we want to make sure that you have the resources you need to succeed.

Sincerely,

Have you chosen your life work?

In the book of balance the life work, with its accompanying opportunities and difficulties, is a consideration of the utmost importance. It is a question that every young person must ask himself, and one that he cannot answer for himself, but must delegate to the guidance of the Holy Spirit, who is the true diviner of the soul's latent faculties and capacities.

Life work is not only a matter of choice, but a matter of duty. It is a matter of the highest importance to the individual and to the world, and it is therefore a matter that should be regarded with the greatest seriousness.

Life work is a question of the highest importance, and it is therefore a question that should be regarded with the greatest seriousness.
