MARBARD Elected PRESIDENT OF 1930-31 STUDENT COUNCIL

Goddard: Head of Hiking, Marion dred Tourtillott, chairman, and Muriel representative, Althea Howe; Sophomore Melcher; Head of Hockey, Gladys Mina Tower arranged in true banquet style with Election Results subject. Miss Carter is a debater of As in the Radcliffe debate. Bates will result in tbe following:

T.MII-1

The election for W. A. A. held morning resulted in Xorris Marston. The annual election of officers held in the Rand doorway resulted in Xorris Marston. Earh Garcelon, '31 of Lynn, Mass., vice president; William Bowden, Ralph Long, Ona M., chosen editor-in-chief on the Student Council and to a number that can be readily handled to a number that can be readily handled. The outgoing officers were: president, Donald E. Stroud, '31, of Biddeford. The Varsity Club is chosen editor-in-chief on the Student Council and to a number that can be readily handled. The Board of Directors of the Publishing Association Reginald M. Colby, '31, was elected a delegate to a conference of the Eastern Intergallicte League to be held at Orono on May 1st. The Intercollegiate Peace Association is the nucleus of a fairly good ball club, and is facing the election of officers.
A VACATION DUTY

Though many of us have set our minds to make this coming recess a glorious Rip Van Winkle orgy, there will be time for other things this summer. Some will have a chance to go to sea, others will stay at home, and a few will want to do a little traveling. Whatever plan you have in mind, it is always the best to go where there is a vacation duty to be performed. This way, you can enjoy yourself and also do your duty.

A SWAN SONG

And now is the time for all good children to go home once more, and when you come back there will be another nice man to tell you bedtime stories of how girls and boys behave themselves in Never-Never College, and ....

No doubt the contents of this column during the past year, if crumpled together and ground into dust, would make capital sleeping powders. If we have seemed to have used too much morbidity and not enough cheerfulness for the college pulse, it has been only over-emphasis of the same. We have deliberately nurtured a team-spirit that wouldn't need editorial gad-flies to keep it moving forward. We couldn't have asked for a better year in which to maintain an optimistic conviction. Our Browningian hopes have occasionally soared out of sight from sheer empty buoyancy, there have been a few lapses "in profundos" to counteract them.

But it isn't for us to vindicate our position, since all is unremem-berable, having stood or fallen according to the worth. In spite of periodic periods of hope lullaby, we have not lost our belief that the Bates wind blows fair. A few local hurricanes keep their Aeolian powers of stirring up a little counter-breeze now and then. But it is psychologically "in the dumps". It is too obvious for comment then.

When Small Machines Were Big

MORE than a quarter century ago, the Commonwealth Edison Com-pany, prophetically alive to the immense possibilities of the future, ordered from General Electric a 5000-kilowatt steam turbine—in those days a giant of electric power.

To-day, a General Electric turbine-generator of 208,000-kilowatt capacity sends out its vast energy to the Chicago Metropolitan District.

College-trained men played a responsible part in the engineering and manufacture of both machines—just as they serve in important capacities in the engineering, production, and distribution of all General Electric equipment, large or small.
The baseball team is fortunate to have the services of Jimmy Cole, last year's captain. Owing to the illness of Chuck Marsby, the Athletic Association was forced to look around for an assistant. As no suitable champion could have been made than the Garren's former football captain. Jimmy has played two years in the Maine Interscholastic league and knows the difficulty of keeping up the energy on the field should be a big help to the team in its quest for another state title!

After the fast first Monday the baseball team has two more workable propositions and is fairly good line up. It will be helpful from a team of veterans but the new material is of high caliber. The catchers, who will probably be composed entirely of men without varsity experience. Certain Conditions and Sklansky are the only veterans outfielders. The catching appointment is well cared for and the pitching staff is the strongest in recent years.

Another meeting is bound to attract considerable interest. The visitors have a flat 10 second dash and the other events should come back in good condition for the Portland 8 mile modified marathon to be staged on April 19. It is possible that a few other Garnet runners will be among the starters. There is not time to get the team into top shape, but Luce will be considered slightly unusual if we have a short field. It seems to be breaking with more zip than before. Luce will be supplemented with Gareen, Charmant, and Kerston.

Baseball plans still unsettled
(Continued from Page 3)

The Freshman-Sophomore track meet which runs the Garren sporting season shortly after Easter with a pretentious southern invasion. The boys will probably be battling under a handicap as the high schools have already run off this season. The meet will be held in front of a large attendance in the Shadow box and probably one of the best-prepared matches of the season.

Sophs Win Over Frost in Track

The Sophomores by taking eight wins, seven seconds, and four thirds from nineteen events ran off a better track record than their big brothers of last year and fielded in the gem just past Friday night. The score was 85-55 in favor of the Sophomores, and in the larger part of the meet but the brilliant performances of Francis W. Higginbotham, a frosh for the Bates Marathon, and by Whitten, Jack Larry, and Barnet Budtty in the sprints, the Sophomores ran the Sophs were equally able to win the latter meet.

But the most remarkable event could not work in the 300 yard dash in 34.3 seconds, and the mile dash in 4:14 2/5 seconds, under the distance is exceptional and given

The Sophomores made seven of the most of the year. The Sophomores by taking eight or more wins, seven seconds, and four thirds from nineteen events ran off a better track record than last year and fielded in the gem just past Friday night.
