Smoke a Fresh Cigarette!

Cigarette in prime condition have a moisturin: content of about 10%. It will be seen by the Pittsburgh Testing Laboratory Chart that cigarettes in the ordinary wrapped package lose more than half of their total moisture in thirty days and that only the Camel Humidor Pack delivers cigarettes to you in prime condition.

The above chart prepared by the Pittsburgh Testing Laboratory tells you why.

Artificial heat in houses and offices has not been able to find the opportunity to smoke a fresh cigarette.

DURHAM, N. C.

The above chart prepared by the Pittsburgh Testing Laboratory tells you why.

Please examine it carefully. It is an unfailing guide to cigarette selection and enjoyment.

As you can quickly see by the three upper curves on this interesting chart, cigarettes that lack the protection of the Humidor Pack lose their moisture rapidly from the day they are manufactured.

And day by day as this moisture disappears, the smoke from these cigarettes becomes harsher, hotter, more scratchy, to the smoker's throat.

Not so with Camel! The Humidor Pack is moisture proof and sealed airtight at every point. It protects the rich, flavorful aroma of the choice Turkish and Domestic tobaccos of which Camels are blended.

Make these tests yourself

It is so easy to tell the difference between parched dry cigarettes and fresh prime Camels that it is no wonder everybody is reaching for a fresh cigarette today.

Your fingers identify stale, dried-out tobaccos at once. While a Camel is flexible and pliant. Your ears can tell the difference too. For a ever-dry cigarette crackles under pressure.

The real test is taste and there is simply no comparison between the rich mildness of a Camel and the hot, harsh, smoke from a stale, dry cigarette.

Switch to Camels just for today then leave them tosmokers of tomorrow. If you don't like Camels, return them.

The Men's Glee Club gave its first concert away from the campus at Rockland and Friday night.

The musical was given at the High School before an audience of several hundred people. The program was one of the best given by any of the music clubs and was undoubtedly because of the variation in the program. Some of the selections were sung favorably by the musicians, especially their first number, which was a modern arrangement of "Pirate!".
