FOOTBALL PLAYED AT 110 IN SHADE AT ALABAMA POLYTECH

First Co-educational Institution in South—But Only 150 Women Students
Freshmen Skafe Heads During Initiation—Compulsory Chapel Once a Week

By HERBERT JENSEN

Compulsory chapel once a week and football played at 110 in the shade is the present system at Alabama Polytechnic Institute, a new college in the South, co-educational in every respect and one of the most unique in the nation.

The college, which is on a plain at Tuscaloosa, at the foot of the northern slope of the Appalachian range in the west of the state, is founded on the theory that the education of women is of the same importance as that of men.

The college, which has a co-educational system for its students, was founded in 1931 by Col. George O. Herse, an Alabama businessman, and it is the only school of its kind in the state.

The college is located in a beautiful setting, with a fine view of the mountains, and it is intended to be a model of co-education. The college is already receiving inquiries from many parts of the country, and it is expected to have a large enrollment in the future.

The college is co-educational in every respect, and the men and women students are treated alike in all respects. The college is founded on the theory that the education of women is of equal importance as that of men.

The college is already receiving inquiries from many parts of the country, and it is expected to have a large enrollment in the future.
JAYVEES PIN FIRST DEFEAT ON HEBRON

Sensational Baseball Marks Exits base to 1st and 3rd Steal For Prep School

For the first time in seven years, the Bates Prep School baseball team last Wednesday afternoon against their arch-rivals, the Allenites, captured the Oberon Cup. The Bates boys executed a fine come-from-behind play and beat the Allenites, 7-6. The Allenites had a 4-2 lead going into the ninth inning, but Bates scored five runs in that inning to turn the tables.

The win was a result of excellent hitting and pitching by the Bates team. The Allenites were held to just one hit by Bates pitcher, a left-handed sophomore from Maine. The Allenites managed to score six runs on seven hits, but Bates defense was solid and allowed only two runs.

The Bates team was led by senior centerfielder, who had three hits in the game. The Allenites were led by junior leftfielder, who had two hits and scored two runs.

The game was played in front of a packed bleacher section at the Oberon Field, and was the closest Bates Prep School has come to winning an Oberon Cup game in recent years.

TERRIERS GIVE BATES NOT MEN HARD STRUGGLE

An inability to run the bases was the turning point of a hitless extra counted at the Bates Tournament, played at the University of Maine, Saturday and Sunday. The Bates team was defeated by the University of Maine, 9-1, in the first game of the tournament.

The Bates team was held to one hit in the first game, and the University of Maine scored five runs in the first inning. In the second game, the Bates team managed to score no runs, and the University of Maine scored four runs.

The Bates team is currently in second place in the tournament, behind the University of Maine. The team will play against the University of Maine again today at 2 p.m., and against the University of New Hampshire on Saturday at 1 p.m.

Bates this week

Don't miss the Bates colors this week! The team has a home game against the Bowdoin College team this Thursday at 2 p.m. in the Alumni Field. The game is expected to draw a large crowd, and is sure to be a close match.

An additional Bates tournament will be held this Saturday and Sunday at the University of Maine. The tournament is open to teams from all over New England, and is expected to draw a large number of participants.
