Prof. Chase Tells of Great "Johnnie"—Group Visits Hatcheries

The interest and thoughtfulness of the students at the new college was given national recognition the other week when the freshmen, members of the first class to attend the university after its move to the new campus, went on a nine-day trip to the north central states. The group included forty-nine students and was led by Prof. James T. Chase, chairman of the government department.

The trip was planned by Prof. Chase and the group visited several of the major hatcheries in the north central states, including the Hatchery of the American Museum of Natural History in New York, the Hatchery of the University of Michigan, and the Hatchery of the University of Wisconsin. The group also visited the Hatchery of the University of Minnesota and the Hatchery of the University of Notre Dame.

The trip was a great success and the students were able to learn a great deal about the hatchery industry and the work that is done at these facilities. The students were also able to see the various types of fish that are raised in these hatcheries and were able to learn about the different methods that are used to raise these fish.

The trip was well planned and the students were able to learn a great deal about the hatchery industry. The group was able to see the various types of fish that are raised in these hatcheries and were able to learn about the different methods that are used to raise these fish. The trip was a great success and the students were able to learn a great deal about the hatchery industry.

WANTED: Boys for Boys' Camp

By Fred C. Babbitt

The American Legion is now making final arrangements for its Boys' Camp to be held this summer. There are still openings in various sections and interested parents are urged to send for application blanks at once.

The camp is conducted under the supervision of competent Army and Navy officers who will teach the boys about military drill, hygiene and physical training.

The boys will live in the finest type of camps and will be given every opportunity to enjoy the outdoors. The camp is located in a beautiful part of New England, where the weather is mild and the scenery beautiful. Boys from all parts of the country are welcome, and every effort will be made to give them a thoroughly enjoyable experience.

Application blanks may be obtained by writing to the American Legion, 1771 Broadway, New York. The deadline for submitting applications is June 1st.

PROFESSOR AND MRS. BERKELMAN
VISIT ROCKY MOUNTAIN WONDERS

By ELEANOR WILLIAMS

A five-day visit in Yellowstone National Park proved to be the most interesting feature of the summer spent in travel through this country by Professor and Mrs. Berkelman, except for Mrs. Berkelman’s unexpected illness.

Professor and Mrs. Berkelman visited Los Angeles, San Francisco, Portland, and Portland before reaching the west coast. Among the interesting experiences of Professor and Mrs. Berkelman was a trip to the top of Pike’s Peak by tour bus. A unique spectacle at the U. of M. Book store is the CHESTERFIELD kind, cured and complete.

$5 TO 99 MAIN STREET, AUBURN, MAINE

That bully old slogan hits me just right—

...no bamboozlin’ about that!”

SURE! When a word fits, you know it! "Satisfy" just fits CHESTERFIELD. A smoker picks up a package, and he likes its neat appearance; the package is pure white. And that satisfies him.

Then he examines a Chesterfield. It is well-filled and well-induced; the flavor and the rich aroma. He decides that it tastes better—nicer raw nor over-sweet; just pleasing and satisfying.

Then he learns it is milder. That’s another way of saying that there is nothing irritating about it. And again he’s satisfied—satisfy—satisfy again!

“Satisfy” they’ve got to satisfy! The right tobacco, the CHESTERFIELD kind, cured and aged, blended and cross-blended, to a state that’s right. Everything that goes into CHESTERFIELD is the best that money can buy and that science knows about.

CHESTERFIELDS do a complete job of it. They Satisfy!
