To the Editor of The Student:

I think it is quite proper that the various freshmen who have charge of the Student Council on the recent Thernagur.

I have complete respect for the various freshmen who have charge of the various organizations on the student council. After reading your editorial board the other day and the article by the freshmen, I am somewhat disturbed. I know there is much to be said for the freshmen's viewpoint, but I am not sure it is the best way to express it. I know that I am not entirely sure what I mean by "the best possible future," but I do believe it is important for freshmen to realize that their views are valid, but not necessarily the best. They must also realize that they must be responsible for their actions. I do not mean to say that the freshmen are not proper, but I do believe they must be more careful with their words and actions.

The Garnet Key has notified The Student, both in its news and editorial sections, that it is prepared to carry on the work it started the first week of last year. It is our duty to make public the attitude of the Student, regardless of the Student's position on the matter. The Student, in turn, should be honest and responsible in its criticism of the Student. The Garnet Key has already made public its attitude, and it is only fair that the Student make public its own. The Garnet Key is a democratic organization, and it is only fair that the Student should be equally democratic.

The Student Council.

To the Editor of The Student:

I was interested in your recent editorial on the subject of freshmen. I think it is important that the freshmen realize that they are not the only ones who are responsible for the success of the college. The students, in turn, should be responsible for their own actions. I do not mean to say that the freshmen are not proper, but I do believe they must be more careful with their words and actions.

"I Give you Lucky Strike Every Time"

By Dorothy Mackall

Dorothy Mackall is the same fasci-
nating personality in real life as on the parts she plays. Watch for Dorothy in her near first National Picture, "Sadie in Hell." There is never a dull moment in any of First National's pictures starring that Mackall girl.

let's all go to Turkey

Eastward ho! Four thousand miles nearer the rising sun—let's go! To the land of mosques and minarets—so different from our skyscrapers, stacks and steeples.

Let's see this strange, strange country. Let's see the land where the tobacco grows in small leaves on slender stalks—to be tenderly picked, leaf by leaf, hung in long fragrant strings, shelter-dried and blanket-cured. Precious stuff!

Let's taste that delicate aromatic flavor—that subtle difference that makes a cigarette!

XANTHI . CAVALLA . SMYRNA . SAMSOUN . famous tobaccos!

*Turkish tobacco is to cigarettes what seasoning is to food—the "spice," the "mace"—or what rich, sweet cream is to coffee!

You can taste the Turkish in Chesterfield—there's enough of it, that's why. Chesterfield has not been stingy with this important addition to good taste and aroma; four famous kinds of Turkish leaf—Xanthi, Cavalla, Samsoun and Soyama—go into the smooth, "spicy" Chesterfield blend.

This is just one more reason for Chesterfield's better taste. Tobacco from far and near, the best of their several kinds—and the right kinds. And pure, tasteless cigarette paper, the purest made. The many requirements of a milder, better smoke, complete!

That's why they're GOOD—they've got to be good. They are.

At Penn College, Oklahoma, Iowa, statistics show that the women are more industrious than the men. 42% of the women work, while the percentage of men is only 50%.

Princeton College is the college of this year. There have been a series of upsets here from 1930 to 1931. Lengths of prayers, poor food, and unhappy residents have been the reasons for the Princeton change. The present Princeton team was in 1932 when the tutors were turfed in their ovens and attacked with such weapons as bricks and wood.

"Love, dubious and faulty intuition," are to blame for the large number of freshmen baths, says a Western university president.

Lafayette College will observe Founder's Days on October 21. A full-blooded Pennsylvanian named Noldehahn, will be employed to teach pageant dancing and archery.

A riding school has been formed at Rider College. Here too, harness riding is regulating the popularity it held in the past.

The trouble with football, commented the player at the bottom of the pile, "is that they make a mountain out of molehills."

Liquor, automobiles and co-education are the principal evils in the American system of education, recently announced Dr. Clarence Little, president of the University of Michigan. And imagine—Bates has two of three evils.
