CAMEL S are FRESH
in nature's own mild way!

Every one knows now that CAMELS are the fresh cigarette.

If inquiry went deeper, it would reveal that CAMELS are the natural moisture cigarett-e.

That's important, because in handling fine tobacco, when you process out natural moisture, you sacrifice freshness and flavor too.

CAMEL smokers needn't worry about that, because CAMEL is blended of fine Turkish and mild domestic tobaccos that are never subjected to violent processes. They need no parching or toasting to make them smooth, palatable, cool.

That's why the Camel Humidor Pack is such a boon to CAMEL smokers—it preserves the freshness, flavor, natural moisture, fragrance that are in this fine cigarette to start with.

CAMELS are fresh in nature's own mild way, and if you want to see what that means in unalloyed smoking, switch to them for just one day—then leave them, if you can!
