From Washington's Farewell Address

"While, then, every part of our country draws from our heart and national interest in union, all the parts combined to break and to heed the sense of men and efforts greater strength, great of the people. Hence likewise, they that would have the government of this great nation and consult every corner of the earth, would have the government which would be the more to repay any temporary advantages, which might be lost by a steadiness in the policy of preservation of the most prominent feature of a nation with its virtue. The experiment at least, is recommended by every sentiment which embraces human nature. Also, it is required impossible by itself.

In the invention of such a plan, nothing is more essential than the preservation of the utmost degree of independence, and passionate attachments for others, should be excluded, and that between these just and amiable feelings, which are natural to man, and his affection, either of which is sufficient to lead it away from its duty and its interest."

The Bates College has more than once showed the advantage of having two strong elements in the team. In this instance, Adams was the only man to score a touchdown, and his approach to the two-minute mark was more damaging to the game. Osie Chapman

When Osie Chapman graduated last June, it didn’t really seem as if he should, did it? For Osie had trained under the best conditions, and we had every reason to believe that he would turn out to be a first-class runner. But Osie was not only a runner; he was also a Boy Scout, and his influence on the troop was tremendous. He guided them in the art of becoming the greatest runner for four years.

He was in his best condition when he failed to come to us. We stand waiting anxiously for him, for Osie no longer belongs to himself; irrevocably he has become an integral part of our team. As one of us, a student, an undergraduate still wearing the collar that he sported at the Boys’ Club, we are all of us deeply concerned about his welfare.

The Student Government Board, in an effort to make our members more interested in the affairs of the school, has decided to hold open forums every Monday evening. These forums will be held in the auditorium, and will consist of a discussion of subjects with which our members have been interested. The purpose of these forums is to bring together students, and to provide an opportunity for them to express their views on various matters. The Student Government Board is confident that these forums will be successful in achieving their purpose.

The President of the Student Government Board, A. J. Latham, Jr., ’33, said: "I am very glad that we have decided to hold open forums. It is important that our members should be kept informed about what is going on in the school, and these forums will provide an opportunity for them to do so."

And it doesn't take a tobacco expert to prove that Chesterfield cigarettes are milder. They taste better... that's proof enough. Never too sweet. No matter when I smoke them, or how many I smoke... they always taste exactly right. They must be absolutely pure... even to the paper which doesn't taste at all. In fact... as the ad says... they satisfy!"
