New Garnet Soon-Miss Cutts Edits Issues Next Year

New Editor Has Versatile College Career

Sometimes before Commencement Day, society and magazine editors are faced with the formidable undertaking of selecting a new editor for the following year. This year, the decision was made between Miss Cutts and another of the last year's editors, Miss Jenkins. Last year Miss Jenkins edited the magazine with splendid success, and the year before Miss Cutts, who is the new editor, wrote for the magazine. Miss Cutts' experience, both as a contributor and an editor, made her an excellent choice.

Fractions

Miss Cutts was born in a large city in England, where she spent her childhood. She attended school there and graduated from Cambridge University with honors in English literature. After college, she worked as a reporter for the Boston Transcript for three years, during which time she covered a variety of topics ranging from local news to international events. Her work was widely acclaimed for its clarity and depth.

Miss Cutts' experience, both as a contributor and an editor, made her an excellent choice for the editorship of the magazine. Her knowledge of the subject matter and her ability to engage the reader make her a valuable addition to the editorial team.

Another most important question on which they all accept, (and none have refrained from answering), is the point of globalization. The point of globalization is something that has always engaged the attention of the society and the magazine editors, and it is a point of the utmost importance.

Roger Williams As A Freshman Dorm

The recent decision of the administration to close the inhabitants of the two upper floors of Roger Williams Dormitory affects the minds of many of the students. The event was one of the important actions taken throughout the year and one that has not been without its share of comment. The administration's decision to close the dormitory was made in the belief that it would be in the best interest of the students. The dormitory had been closed temporarily in the past due to overcrowding and poor living conditions, but this time the decision was permanent.

Does not Aid Assimilation of Freshmen

We question the wisdom of this action. As freshmen, we feel that we need the dormitory more than ever. Many of our friends are graduating this year, and we must replace them in the dormitory. The dormitory is an integral part of our college experience, and we feel that it is important to continue to provide housing for freshmen.

Student-Faculty Cooperation On Chapel

It is quite evident that there is a lack of cooperation between the students and the faculty on the issue of chapel. We believe that the administration should be more open to hearing the concerns of the students. The administration should also be more willing to compromise on the issue of chapel. We feel that there is a need for greater cooperation between the students and the faculty on this issue.

To the Editor of the Student:

I wish to express my appreciation to you for giving me the opportunity to write a letter to the student. I am a freshman at Bates College, and I have been very much impressed by the work of the administration. I feel that the administration is doing a good job of running the college, and I am sure that it will continue to do so in the future.

College Life In Retrospect

By VALERIE BURATI

If there is anything I remember about my college days, it is the intensity of the experience. It is a time when the experiences of the world are still new and exciting, and the future is full of possibilities. It is a time when we are learning to be independent and to think for ourselves. I remember the days when I was at college, and I am sure that I will never forget them.

After you get your degree what then?

A college training is of marked advantage in solving the problem of how to live, but what are you going to do about solving the problem of how to make a living? If you do not plan to set sail for the land of unlived opportunities, you are not far wrong, or at least you are not very far away. There are many ways to make a living, and you will have to decide which one is best for you. Some people prefer the security of a job, while others prefer the excitement of starting their own business. There are pros and cons to both options, and you will have to weigh them carefully before making your decision. Ultimately, the most important thing is that you are happy with your choice and that you are making the best of it.
