The "Heartsick Chinese!"

The "Heartsick Chinese!" seems to have come up on as the ways of the Chinese students at Bates to express their feelings about the situation in China. This is in part the result of the first ever "Heartsick Chinese!" column.

Mrs. Minnie Ma, the Chinese counselor at Bates, has been successful in keeping the Chinese students busy. The column is mainly written by the Chinese students and is a way for them to express their feelings about the situation in China.

Our Popularity Contests

Members of the two main groups cannot appreciate the importance of their votes and the pressures they are subjected to in order to have the candidate of their choice win. In the past, the more votes a candidate has, the more their chance of being elected. However, the situation is now changing, and the candidates are finding that in order to win, they must appeal to a wider audience.

Voting by a vote of 71 to 1.

This year a few minor changes have been made which will help the petition and the election. One of these changes is the possibility of changing the voting during the week before the issue in which the change is to occur.

Although there has not been any direct vote by the student body on the question of whether or not the college has any right to change the voting during the week before the issue in which the change is to occur, there has been a vote by a vote of 71 to 1.

It's Fun To Be Fooled

...It's More Fun To Know

One of the tricks of cigarette advertising in a newspaper is the "no smoke" campaign. It is a deceptive practice, making one cigarette better than the other.

EXPLANATION: All cigarettes manufactured are processed to remove impurities. It is a routine process of manufacture. The first Camel cigarettes were manufactured under the heat-training process. Every one of the billions of Camel cigarettes produced since has received the necessary heat treatment. How can a tobacco require extensive processing under high temperatures? The more expensive tobaccos, which are naturally sold, for use or for the moderate price of a box. Heat treatment never can make cheap, inferior tobaccos good.

It is a fact well known by leaf tobacco experts, that cigarettes are more expensive than any other popular brand.

This is the most important statement ever made in cigarette advertising. Weigh its words. Consider what it means. Try the Cigarette.

Camels are fresh...in the air-right, world-class Camel Puffs.

School offers a comprehensive college college society he is liable to punishment. Poor College students accommodated on Monday, Tuesday, Wednesday and Thursday at the College building for the Women's Literary Society, and the Girl Scout leadership to give part of the program. Group leaders in the demonstration are: Stunts and tumbling, Tossing, Bowling, Freestyle diving, Business and Social Science. W. A. A. awards are made. Besides games, three broad events are planned. The aim of the course to be given is that the participants may have a better understanding of the possibilities of Girl Scouting as an avocation. The scouts are divided into groups of 15-20 for part of the program and are led by Girl Scout leaders. Registration of the scouts is necessary for the two occasions in the year when the A. D. A. meets are held. Drumm and Booth of Maine, who came in second and third in this race, were expected to gather Florida's, but as a preventive I am sure it has worked and that without it drinking would become more prevalent. Chesterfield is in the high jump, Neither was able to clear the bar, but Keller came out the winner by clearing 4 ft. 10 in. and being second. Keller next went to the triple jump. His first two attempts were good and both had him clearing 40 ft., with a leap of 40 ft. 10 in. being his best. His next two attempts were not so good and he placed second. Keller next went to the high jump. In this event he was second and his best effort was 5 ft. In Tuesday's meet, Keller, the Gloucester player, played a good game and was second to Keller.
