**Combined Music**

The present last Friday evening by the combined music committee was one of the most progressive steps in the history of musical and artistic development in Bates. With little advance publicity—the decision to hold the concert was made Wednesday night—the affair was a remarkable success, which the music committee and faculty could be justly proud of.

**Published Wednesdays during the College Year by Students; or Wednesday night—the affair was a remarkable success. But more important us that there is a solution to the difficulty. Vice versa, several, probably five, concerts, one every term, will be profit, as the expenses are already imminent discouragement.

The Editor-in-Chief assumes full responsibility for all material appearing in this issue. However, a refusal will indicate that students already have been excellent. The final phase of this venture in meeting this condition, however, lies in the arrangement of chapel services. No one, thus far, has ventured to arrange for the classes' graduated, but for the present seniors, too, unmindful of suggesting changes. It is an organization man.

**Vote On War**

Bates' incorporation of the nation of chapel services in the matter of war may be the most far-reaching step in the history of the college. The J. M. C. A. and the Political Clubs have the automatic right to express their opinion on this issue. This present minuet played by the student, with the orchestra of music committees, will not be repeated. But the friendly voices of those interested in the student body will be heard in the halls, whether you go or stay. Let your vote on war seeking whether you will go or fret, for the solution of this question of all are interested.

**SUPPOSE YOU TELL ME WHY YOU SMOKE GRANGER**

**WELL**, it's like this. Back in the old days, when men wore high hats and frock coats, they had plenty of time to think things out, and they had sense, too. They used to sit down on a log and take the time to whistle their tobacco from a plug, to be sure of having a cool smoke.

"In those days, a man named Wellman, right here in Quincy, Ill., made about the best tobacco you could get. He knew how to keep the flavor fine and mellow.

"Well, sir, the people who make this Granger Rough Cut got Mr. Wellman's method, and they must have known how the old boys used to whistle their tobacco to make it smoke cool. Yes, sir, this Granger is the real stuff. The same mellowness and fine flavor that Wellman used to hand out to his friends. And it's whittled into big shaggy flakes all ready for the pipe. 'Rough Cut' they call it — out rough to smoke cool is the best way I can describe it."
