Loading a pipe, son, is like building a fire

NOW if you want to build a fire you've got to have the right kind of chimney, and you've got to have the right kind of wood, seasoned and fireproof.

But if you put it in a chimney and pack it down tight and build it all the way to a pipe—and you need to do is strike a match.

"Granger smokes sweet and cool right down to the bottom of the bowl."

"That's pipe comfort, I tell you."
It isn't cowardice—
it's jangled nerves

No one likes a sudden, unexpected mise. But if you jump or even walk unreasonably at such a time—count on you.

It isn't cowardice: it's jangled nerves.

Get enough sleep—fresh air—recuperation. And make Camels your cigar of the day.

For you can smoke as many Camels as you want. Their outlook tobacco never jangle the nerves of the most constant smoker.

COSTLIER TOBACCO
Camels are made from finer, MORE EXPENSIVE TOBACCO than any other popular brand of cigarettes!

Every Lucky Strike is made from

the finest tobaccos and only the

center leaves. Not the top leaves—

because those are under-developed

not ripe. They would give a harsh

smoke. Not the bottom leaves—

cause those are inferior in quality.

They grow close to the ground,

**Each year Turkey and Greece ship us thousands of bales of fine tobaccos—**

**But why send 4,000 miles for tobacco?**

...because spicy, aromatic Turkish is the best seasoning there is for a cigarette.

It adds something to flavor and aroma that no other tobacco can give. Chesterfield uses Turkish tobacco—from Samsoun, Sunyara, Cavalla and Xanthi.

Then it blends and cross-blends them with various kinds of choice home-grown tobaccos in the right balance to give you a cigarette that's milder, a cigarette that tastes better.
